## Message from CIOs

The Bulls held their ground during first half of August 2022 as the PKR strengthened against the US Dollar amid decline in imports and optimism of resumption of the IMF-EFF program. However, the benchmark index pared some of the gains towards the latter half due to devastating floods and consequential losses, as the KSE-100 index gained 2,201 points MoM, closing at 42,351 points (up 5.48% MoM/ 1.95% FYTD). The receipt of Letter of Intent from the International Monetary Fund (IMF) after fulfilling all the pre-requisites for USD 1.16 billion tranche was a primary catalyst for investors sentiments as a sovereign default was foreseeably averted. Moreover, the Government also successfully secured funding of up to USD 4 billion from other friendly countries, albeit with cross commitments with the IMF. These developments led to the much needed appreciation of the Pak rupee which gained 9.4% MoM against the USD to close at PKR 218.75. The average daily traded volume also increased by 125% to 326.88 million as compared to 145.30 million recorded during July 2022. The KSE-100 Index closed at a forward P/E and P/B of 4.4x and 0.8x respectively, with a healthy dividend yield of 8.5%.

Foreigners remained net sellers during the month, with an outflow of USD 5.38 million compared to an inflow of USD 7.48 million recorded during last month. On the local front, Brokers (USD 10.38 million) and Individuals (USD 7.86 million) remained net buyers, whereas Insurance and Mutual Funds remained net sellers with a net outflow of USD 16.37 million and 3.11 million respectively.

Other news that affected the investors' sentiment during the month included:

- 1) Pakistan posted a Current Account Deficit of USD 1.2 billion for the month of July 2022, 42% higher than USD 0.85 billion of same period last year. Notably, workers' remittances also declined by 8% YoY to USD 2.5 billion from USD 2.7 billion
- 2) The Executive Board of the International Monetary Fund (IMF) completed the 7th and 8th reviews under the Extended Fund Facility (EFF) paving the way to receive USD 1.1 billion (SDR 894 million)
- 3) The Large Scale Manufacturing Index (LSMI) witnessed the growth of 11.7% in FY22 as compared to 11.2% during FY21
- 4) Pakistan's Total Debt and Liabilities grew by 25% during FY22 to PKR 59.6 trillion as compared to PKR 47.8 trillion in FY21
- 5) During FY22, the Country's budget deficit reached an alarming level of PKR 5.26 trillion surging by 54% as compared to FY21 when the budget deficit was recorded at PKR 3.40 trillion
- 6) The Qatar Investment Authority expressed its willingness to invest USD 3 billion in various commercial and investment sectors in Pakistan
- 7) Pakistan's Foreign Direct Investment (FDI) fell by a whopping 43% in July 2022 to USD 59 million as compared to USD 103.8 million in the same month last year whereas on MoM basis the FDI witnessed a decline of 78%.
- 8) Floods in many parts of Pakistan with an estimated USD 10bn loss to the economy.

NCPI during the month of August 2022 clocked in at 27.3%, highest recording in 47 years taking the average inflation for 2MFY23 to 26.10%. Housing, Water, Electricity, Gas and Fuels contributed mostly to inflation with a MoM impact of 1.21% alone. Inflation is expected to hike further in coming months due to rise in food prices amid recent floods that have caused severe damage to crops coupled with lagged effects of PKR depreciation. More importantly, the floods are also expected to affect the current account with foreseeable imports as key crops including cotton have reportedly been severely damaged.

During the outgoing month, the Monetary Policy Committee of the State Bank of Pakistan (SBP) decided to keep the policy rate unchanged at 15% on the back of some positive developments both on the domestic and external front. The MPC believed that after the administrative steps taken to curtail imports with strong fiscal consolidation planned for FY23, it was prudent to take a pause after a series of policy rate hikes by 800 bps since last September 2021. However, after the devastating floods that has hit most areas of Pakistan destroying large agricultural areas and infrastructure, the inflation expectation for FY23 is expected to increase by 100-200 bps which was previously estimated around 19-20% due to which another policy rate hike by SBP in the next monetary seems likely. During the month, the SBP conducted two MTB auctions with a realized amount of PKR 1.22 trillion. Weighted average yields for 3 months, 6 months and 12 months MTB increased by 10bps, 13bps, and 2bps to 15.7331%, 15.8137%, and 15.8994% respectively as compared to the last month.
