Message from CIO's Desk

The Equity market started the month of March 2023 positively touching a high of 42,292 points as investor confidence of the likelihood of reviving the stalled IMF program gained momentum as the government completed key pre-requisite conditions for a staff level agreement, including most importantly taking interest rates to almost record levels with a top up increase of 300bps to 20.00% amidst un-abating inflationary pressures. However, early gains were unfortunately short lived as political noise again took center stage coupled with a last minute condition from the IMF as it would seem to ensure commitments from friendly nations including China, Saudia Arabia and UAE prior to a staff level agreement, again threatening a prospective revival of the program. Understandably, the market closed at 40,000 points (*down 509.54points/-1.26% MoM*) and continues to trade at exceedingly attractive multiples with PE and PB of 3.30x and 0.62x with a healthy dividend yield of 11%.

Market volumes remained dull during the month of March 2023 with volumes of 167 million shares (*down -4.71% MoM*) from 175 million shares. Foreigners also remained net sellers with outflows of USD 9.09 million with major Selling in Commercial Banks (*USD 5.86 million*) and Fertilizer (*USD 1.73 million*). On the local front, Companies and Banks/DFIs remained net buyers with buying of USD 36.82 million and USD 2.92 million respectively. Whereas, Mutual Funds and Insurance Companies reported net selling of USD 10.36 million and USD 8.78 million, respectively.

Other significant developments that impacted the Equity market during the month included:

- Moody's Investors Service (*Moody's*) further downgraded the Government of Pakistan's local and foreign currency issuer and senior unsecured debt ratings to Caa3 from Caa1.
- Saudi Arabia approved the extension of a deferred oil payment facility worth USD 1.2 billion to Pakistan till February 2024.
- Pakistan received a loan tranche worth USD 500 million from the Chinese Industrial and Commercial Bank of China Ltd (*ICBC*) along with approval of rollover of USD 2 billion SAFE (*State Administration of Foreign Exchange*) deposits for one year to Pakistan by the Chinese Government.
- The Current Account Deficit (*CAD*) for the month of February 2023 clocked in at USD 74 million, down -68% MoM from USD 230 million in January 2022 taking the 8MFY23 CAD to USD 3.86 billion against USD 12.08 billion, down -68% YoY primarily due to decline in imports.
- The Large scale manufacturing Index (*LSMI*) output declined by -7.90% YoY in January 2023 compared to the same month a year ago as a result of unprecedented informal import restrictions, expensive raw material costs in the light of currency devaluation, high interest rates, and a global slow down.
- During March 2023, the Foreign exchange reserves held by SBP increased by USD 0.39 billion to USD 4.21 billion.
- For the month, the exchange rate continued to slide against the USD, closing the month at PKR 283.79/USD down by 7.85% MoM.

The NCPI during the month of March 2023 clocked in at 35.37% YoY as compared to 31.55% YoY in February 2023 above general market consensus. This took the 9MFY23 average NCPI to 27.26% compared to 10.77% during the SPY. On a regional basis, the Urban CPI clocked in at 25.04% YoY, whereas, the Rural CPI clocked in at 30.56%. The main contributors to the rise in inflation are Housing, Water, Electricity, Gas, and Fuel (weight in CPI 23.63%) with an impact of 0.22% MoM / 17.49% YoY on the back of increasing utility prices and exchange devaluation. Furthermore, a heavy increase was observed in the Food and Non-alcoholic Beverages Index (weight in CPI 34.58%) with an impact of 1.47% MoM / 47.15% YoY due to increase in prices of staples, likely the Ramadan effect as inflation tends to spike ahead and during the Holy Month notably observed in the Country.

During the month of March 2023, the SBP conducted two MTB auctions with a realized amount of PKR 2.57 trillion. The Weighted average yields for 3 months, 6 months and 12 months MTB increased by 180bps, 239bps and 172bps to 21.0643%, 21.9566%, and 21.4865% respectively. The upward movement in yields came on the back of a further 100-200bps hike in policy rate by SBP to counter stubborn inflationary pressures. As per the auction target calendar for April – June 2023, the SBP targets to raise PKR 6.40 trillion against maturing amount of PKR 5.573 trillion by issuing 3-Month to 12-Month MTBs. The next MPC meeting is scheduled to be held on June 12, 2023.
