MACROECONOMIC REVIEW

FY26 marked a transition from post-stabilization recovery toward a more externally constrained macroeconomic environment. The economy entered the year with materially improved fundamentals,

supported by easing inflation, rebuilding foreign exchange buffers, fiscal consolidation and a more accommodative monetary stance. These gains gradually translated into a broader recovery in economic activity, with provisional real GDP growth rebounding to 3.70% from 3.18% in FY25. However, conditions became more challenging toward year-end as escalating geopolitical tensions in the Middle East triggered a sharp rise in global energy prices and associated supply-chain costs. The resulting external shock disrupted the disinflationary trajectory and prompted a reassessment of the monetary policy stance. Consequently, FY26 ended with Pakistan's macroeconomic position more resilient than during the earlier stabilization period, while the outlook remains sensitive to global commodity prices, external financing conditions and persistent inflationary pressures.

Monetary policy remained supportive of the recovery through the first three quarters of FY26. The State Bank of Pakistan (SBP) began the fiscal year with the policy rate at 11.00%, before reducing it by 50 bps to 10.50% in December 2025. The escalation in Middle East tensions subsequently altered the risk assessment, with the Monetary Policy Committee (MPC) highlighting elevated global energy prices, freight and insurance costs, and potential supply-chain disruptions as imminent risks to inflation. Against this backdrop, the SBP raised the policy rate by 100 bps to 11.50% in April 2026 and maintained it at this level through June and subsequent MPC meetings. While the MPC noted signs of moderation in domestic activity amid elevated prices and economic uncertainty, it considered the prevailing monetary policy stance appropriate given moderate external account pressures and continued reserve accumulation. The Committee noted that proactive macroeconomic management, underpinned by forward looking monetary policy and consistent fiscal consolidation, had helped sustain macroeconomic stability despite the notably prolonged Middle East conflict.

Inflation emerged as the principal macroeconomic inflection point during FY26. Headline CPI inflation accelerated sharply in the fourth quarter on a YoY basis, rising from 7.30% in March to 10.89% in April and 11.66% in May, before moderating to 11.07% in June. Average CPI inflation for FY26 stood at 7.05%, compared with 4.49% in the previous year. The acceleration reflected higher domestic energy and transportation costs, fading base effects and the pass-through from elevated global energy prices. Core inflation also remained elevated, reaching 8.7% YoY in June. The inflation outlook consequently became more uncertain, with upside risks stemming from global commodity prices particularly oil prices with supply disruptions, administered energy prices, fiscal developments and weather-related food pressures.

Real economic activity incidentally remained resilient, with provisional real GDP growth rebounding to 3.70% from 3.18% in FY25, although remaining well below the government's 4.20% target. The recovery extended across major sectors, with agriculture, industry and services growing by 2.89%, 6.61% and 4.09% YoY, respectively. The broadening of growth beyond agriculture points to a gradual normalization of economic activity following the stabilization measures undertaken earlier. Nevertheless, the pace of expansion remains moderate, underscoring the need for stronger investment and productivity gains to establish a more durable growth trajectory.

The Large-Scale Manufacturing (LSM) sector grew by 4.98% in FY26, reversing a 0.74% contraction in the preceding year and reflecting a broad-based recovery across key manufacturing segments. The growth

was primarily driven by Food (1.21%), Beverages (0.14%), Tobacco (0.19%), Garments (0.91%), Petroleum Products (0.72%), Cement (0.41%), Electrical Equipment (0.37%), Machinery and Equipment (0.01%), Automobiles (1.56%), other transport Equipment (0.27%), and Furniture (0.28%). In contrast, Textile (-0.11%), Chemicals (-0.20%), Pharmaceuticals (-0.54%), and Iron & Steel Products (-0.34%) remained in contraction. The recovery was supported by improved macroeconomic stability, better input availability and a gradual revival in domestic demand. However, the divergence across subsectors indicates that the improvement remains largely recovery-driven, with a sustained structural expansion in manufacturing yet to be firmly established.

Fiscal consolidation it seems remained a key anchor of the stabilization process. During July–May FY26, the fiscal deficit narrowed to 1.6% of GDP from 3.8% of GDP in the previous year. The primary surplus was recorded at 3.3% of GDP, compared to 3.2% of GDP in FY25. The improvement reflected stronger revenue mobilization and lower interest expenditure, with FBR tax collection rising 10.8% YoY to PKR 13.01 tn during FY26. Direct and indirect tax collections increased by 13.7% and 7.9%, respectively, while total expenditure declined by 9.4% to PKR 12.73 tn, primarily driven by a 21.7% reduction in markup payments. The fiscal position remained aligned with the consolidation path under the IMF-supported programme. While the improvement represents a meaningful strengthening of fiscal discipline, sustaining the adjustment will require continued revenue mobilization and expenditure rationalization given Pakistan's elevated debt-servicing burden.

On the external front, the recovery in domestic activity contributed to higher import demand, while the escalation in Middle East tensions and higher oil prices toward the fiscal year-end added further pressure to the import bill. Goods imports increased 9.00% YoY to $64.47 bn, while goods exports declined 4.71% to $30.82 bn, widening the trade deficit in goods to $33.65 bn from $26.80 bn in FY25. Despite the wider trade deficit, the current account remained broadly manageable, recording a deficit of $304 mn, compared with a surplus of $1.84 bn last year, supported by record workers' remittances of $41.59 bn, up 8.58% YoY. The deterioration in the trade balance nevertheless highlights the continued sensitivity of Pakistan's external position to import-led domestic growth and energy prices, while the near balanced current account remains significantly reliant on resilient remittance inflows.

External buffers strengthened materially during FY26, providing greater safeguards against external shocks. SBP foreign exchange reserves reached $18.38 bn by the year ended, while total liquid reserves stood at $23.21 bn. The improvement was supported by strong remittance inflows, continued official financing and progress under the IMF-supported reform programme, including completion of the third review under the EFF and the second review under the RSF. Pakistan also managed significant external repayments during the year, including $3.5 bn of bilateral deposits, while securing replacement bilateral financing and market funding. The Pakistani rupee remained broadly stable, averaging around PKR 280.6/$ during FY26, compared with PKR 279.3/$ in FY25. Stronger reserves and multilateral support have improved external resilience, although sustaining these gains will require prudent policies and stronger external earnings.

In aggregate, FY26 marked meaningful progress in Pakistan's macroeconomic normalization, although the deterioration in inflation and external conditions toward year-end highlighted the economy's continued vulnerability to external shocks. The stabilization process has strengthened fiscal, monetary and external buffers, while Pakistan's expanding diplomatic and strategic engagement in the Middle East—including its facilitative role in US–Iran dialogue and strengthening defence cooperation with key regional partners—has increased its strategic relevance amid heightened regional uncertainty. Going forward, maintaining macroeconomic discipline while supporting productivity and external earnings will remain critical, with global energy prices, geopolitical developments and external financing conditions continuing to shape the outlook.

EQUITY REVIEW

Pakistan's equity market delivered another strong year in FY26, although the headline performance masked a significant increase in volatility during the second half. The KSE-100 Index closed FY26 at 180,302 points, gaining 43.52% during the year after advancing nearly 39% in 1HFY26. The first half was supported by improving macroeconomic stability, progress under the IMF programme, easing inflation, stable interest rates and improving corporate earnings expectations. This momentum carried the index to a record intraday high of 191,033 points in January 2026. The subsequent escalation in Middle East tensions by the end of February triggered a sharp reversal in risk sentiment and a period of heightened volatility. Despite these pressures, the market recovered strongly toward year-end and closed near its record levels, underscoring the resilience of domestic equities and the depth of market liquidity.

The escalation of the conflict involving the US, Israel and Iran emerged as the principal external shock during 2HFY26, with its impact transmitted primarily through global energy prices and investor risk sentiment. Concerns over disruptions to energy flows through the Strait of Hormuz triggered a sharp increase in crude prices, with Brent surpassing $100/bbl in March and reaching above $118/bbl during the initial phase of the shock. For Pakistan, a structurally energy-import-dependent economy, the surge in oil prices heightened concerns over the import bill, inflation and corporate profitability. The impact was particularly profound during the March sell-off, with the KSE-100 falling to 146,480 points on March 9, after touching an intraday low of 144,119 points. The broad-based sell-off reflected a rapid shift toward risk aversion as investors reassessed the implications of higher energy costs for macroeconomic stability and activity.

The market arguably demonstrated a strong capacity to recover as immediate external risks moderated. Diplomatic developments surrounding a US–Iran ceasefire, together with easing concerns over energy supply disruptions and a subsequent decline in oil prices, plus Pakistan's defence pact with Saudi Arabia further endorsed the country's emerging role in the region with likely economic benefits from closer ties with its counterpart, triggered sharp relief rallies, with the KSE-100 rebounding materially from its March lows. Pakistan's facilitation of US–Iran dialogue provided an additional positive catalyst for sentiment, while the subsequent moderation in energy prices reduced near-term concerns over the external account. The recovery was particularly pronounced on April 8, when the KSE-100 gained 9.32% in a single session,

reflecting renewed risk appetite and strong domestic liquidity. By year-end, the index had recovered above 180,000 points, substantially reversing the losses incurred during the geopolitical sell-off.

The market's strong overall performance during the year was supported by improving earnings visibility, attractive valuations and robust domestic liquidity. The investment case increasingly shifted from a predominantly liquidity-driven recovery toward one supported by earnings growth, macroeconomic normalization and improving corporate fundamentals. Banks (+50.3%), Oil and Gas Exploration (+33.2%), Fertilizer (+44.9%), Cement (+26.9%) and other major sectors remained key contributors, while strong participation from domestic institutions, particularly corporates and mutual funds, helped absorb continued foreign selling, with foreign investors recording net sales of approximately $848 mn during FY26. Market activity also strengthened materially, with average daily traded volume reaching a record 960 mn shares and average daily traded value reaching an all-time high of $204 mn (PKR 57 bn), reflecting deeper liquidity and broader investor participation.

IPO activity gained significant momentum during FY26, with 11 companies listed on the main board raising approximately PKR 18.39 bn, marking the third-highest number of IPOs in 25 years and signaling renewed investor confidence and broader participation in Pakistan's capital markets. Investor appetite was particularly strong for notable offerings, with Pak-Qatar General Takaful's public tranche oversubscribed 9.6x, while Service Long March Tyres' book-building portion was oversubscribed 16.7x, attracting approximately PKR 85 bn in bids and raising PKR 7.8 bn.

Valuations remained supportive of the medium-term investment case at the start of FY26, although the subsequent re-rating has shifted the focus increasingly toward earnings delivery. The KSE-100 entered FY27 at a forward P/E of approximately 7.3x, below its long-term historical average of around 8.0x. While valuations expanded as macroeconomic conditions improved and investor confidence strengthened, the market continued to trade at a discount to regional peers.

Looking ahead, the KSE-100's trajectory is likely to remain closely linked to geopolitical developments, with global oil prices the most immediate source of volatility given their implications for inflation, the external account and investor risk appetite. Continued IMF engagement, fiscal consolidation, improving corporate fundamentals and greater macroeconomic stability provide a stronger domestic foundation. We retain a constructive medium-term view, although after the market's strong performance over the past three years, further gains are likely to depend increasingly on sustained earnings growth rather than valuation expansion. Pakistan's expanding diplomatic role, including its facilitative role in US–Iran dialogue, could provide additional support if it contributes to a durable reduction in regional tensions and energy-market risks.

FIXED INCOME REVIEW

Pakistan's fixed income market underwent a notable shift during FY26, transitioning from an easing environment toward a more cautious rate outlook. The market remained well supported during the first half, as easing inflation and expectations of monetary easing drove a broad based decline in government bond yields. The decline was most pronounced at the shorter end following the December policy rate cut,

while strong demand for longer-tenor securities reflected expectations of further easing and supported a decline in yields across the sovereign curve. This environment provided favorable conditions for fixed income investors, with falling yields supporting mark-to-market gains on existing holdings.

Market conditions changed materially toward the end of FY26 as the escalation in Middle East tensions and the resulting surge in global oil prices raised concerns over inflation and the external account. The resulting shift in rate expectations triggered a sharp repricing of government securities, with secondary market yields rising across maturities. By March end, yields had increased by 100 to over 200 bps across tenors, with the adjustment more notable at the longer end, while the April MPC review indicated a cumulative upward shift since the onset of the Middle East conflict. Despite the reversal, the market remained supported by strong domestic liquidity and continued government borrowing requirements, with yields ending the year reflecting a more cautious inflation and interest rate outlook. Overall, the fixed income market transitioned from a duration and capital gain environment toward a more carry focused and selective positioning, with the outlook increasingly dependent on the trajectory of inflation, global commodity prices and the SBP's monetary policy response.

Primary market activity remained robust during the period, reflecting continued reliance on domestic debt markets for fiscal financing. During FY26, the SBP conducted twenty-six (26) Market Treasury Bill (MTB) auctions, through which the government raised PKR 21.64 tn, exceeding the target of PKR 19.53 tn. The weighted average yields for 3-, 6-, and 12-month MTBs stood at 11.00%, 11.00%, and 11.19%, respectively, reflecting significant declines of 297 bps, 277 bps, and 222 bps compared with 13.97%, 13.77%, and 13.42% in the corresponding period last year. The weighted average yield on 1-month MTBs averaged 10.90% during the period.

To meet longer-term funding requirements, the SBP also conducted twelve (12) auctions of fixed-rate Pakistan Investment Bonds (PIBs) and raised PKR 6.24 tn. The weighted average yields for 3-, 5-, and 10-year PIBs declined to 11.35%, 11.56%, and 11.80%, respectively, representing a compression of 165 bps, 155 bps, and 128 bps compared with 13.00%, 13.12%, and 13.08% in the corresponding period last year.

In the Shariah-compliant segment, eighteen (18) GOP Ijara Sukuk auctions were conducted through the Pakistan Stock Exchange, covering Variable Rental Rate (VRR), Fixed Rental Rate (FRR), and Fixed Rate Discounted (FRD) instruments. The auctions raised PKR 3.30 tn against a target of PKR 4.05 tn.

Looking ahead, under the auction target calendars for August–October 2026, the SBP plans to raise PKR 4.10 tn through 1- to 12-month MTBs against maturities of PKR 5.32 tn. In addition, the SBP targets raising PKR 1.30tn through 2- to 15-year fixed-rate PIBs against maturities of PKR 307 bn.

FUTURE OUTLOOK

As Pakistan enters FY27, the macro-financial environment presents a stronger starting point than in recent years, although the recovery remains exposed to a challenging external backdrop. The stabilization achieved during FY26, supported by fiscal consolidation, stronger external buffers, resilient remittances and continued progress under the IMF programme, has materially improved policy credibility and the economy's capacity to absorb external shocks. However, the resurgence in inflation and reversal of the monetary easing cycle highlight that the stabilization process remains vulnerable. Inflation is expected to remain above the SBP's medium-term target range in the near term, while the IMF projects average inflation of around 8.4% in FY27. The policy environment is therefore likely to remain cautious, with the balance between supporting economic activity and preserving price and external stability remaining central to the outlook.

Pakistan's evolving geopolitical role represents an increasingly important strategic dimension of the FY27 outlook. Islamabad's facilitation of US–Iran dialogue, together with its engagement with Saudi Arabia and other regional partners, has elevated Pakistan's diplomatic relevance at a time when regional stability remains critical to global energy markets. This positioning has been reinforced by expanding defence relationships. The Pakistan–Saudi Strategic Mutual Defence Agreement, signed in September 2025, strengthened the bilateral security framework by providing that aggression against either country would be considered aggression against both. Notably, post-year-end developments have further broadened Pakistan's regional defence engagements. On August 7, 2026, Pakistan, Saudi Arabia and Türkiye signed the Makkah Joint Defence Agreement, which provides that an armed attack against any one of the three countries shall be regarded as an attack against all and calls for enhanced defence cooperation among the three states while other regional partners have incidentally indicated their interests for an understanding of joint defence cooperation given the heightened security risks in the region.

These developments could enhance Pakistan's strategic relevance and create longer-term opportunities in defence, investment, energy and regional trade. Kuwait has also completed the ratification of its 2023 Defence Cooperation Agreement with Pakistan, which is now fully operational and provides for closer military cooperation, including training and joint exercises. Nevertheless, the economic benefits of this broader geopolitical positioning should be viewed as a medium-term opportunity rather than an

immediate macroeconomic catalyst. Their eventual impact will depend on Pakistan's ability to translate stronger strategic relationships into tangible investment, trade, defence-industry cooperation and external financing flows, while maintaining balanced relations with major regional and global partners.

From a macroeconomic perspective, Pakistan's high dependence on imported energy leaves the economy vulnerable to renewed regional disruptions, while sustained oil price pressures could weigh in on inflation, the current account and corporate margins. Maintaining monetary and fiscal discipline, exchange-rate flexibility and continued reserve accumulation will therefore remain critical to preserving recent stabilization gains. Stronger reserves, continued IMF engagement and improved fiscal fundamentals provide a more credible buffer against external shocks, while the IMF continues to emphasize sound policies and structural reforms to strengthen resilience.

Against this backdrop, we expect financial markets to remain positive but increasingly selective. Equities should benefit from improving earnings visibility, macroeconomic normalization and relatively attractive valuations, although geopolitical and commodity-price risks may sustain intermittent volatility. In fixed income, elevated policy rates and government security yields offer an attractive carry environment, while duration gains will depend on sustained disinflation and greater clarity on the monetary policy cycle. The SBP has maintained the policy rate at 11.50% into FY27 as far, with July money market rates broadly aligned with the prevailing stance. Overall, FY27 is likely to mark a shift toward a more fundamentals-driven investment environment, with earnings growth, carry and security selection becoming increasingly important sources of returns. Key upside catalysts include sustained macroeconomic stability, easing regional tensions, stronger external inflows and translating Pakistan's improving strategic position into tangible economic activity, while renewed energy-price shocks, persistent inflation and weaker external demand remain the principal risks.

میکرو منظر نامہ

مالی سال 26 معاشی بحالی کے بعد استحکام کے مرحلے سے نکل کر بیرونی طور پر محدود میکرو اکنامک ماحول میں داخل ہوا۔ سال کے آغاز میں معاشی لحاظ سے بہتری دیکھنے کو ملی جسے افراط زر میں کمی، غیر ملکی زرمبادلہ کے ذخائر میں اضافہ، مالیاتی استحکام اور زری پالیسی میں پہلے سے زیادہ نرمی کا سہارا ملا۔ یہ بہتری بتدریج معاشی سرگرمیوں میں وسیع تر بحالی میں تبدیل ہوئی اور حقیقی جی ڈی پی کی شرح نمو مالی سال 2025 کی 3.18 فیصد سے بڑھ کر 3.70 فیصد رہی۔ تاہم سال کے اختتام پر حالات اور زیادہ مشکل ہو گئے جس کی وجہ مشرق وسطی میں بڑھتی ہوئی کشیدگی ہے جس کی وجہ سے توانائی کی عالمی قیمتوں اور اس سے منسلک سپلائی چین کی لاگتوں میں تیزی سے اضافہ ہوا۔ نتیجتاً بیرونی جھٹکوں نے افراط زر میں کمی کے رجحان میں خلل ڈالا اور زری پالیسی کے موقف

کے ازسرنو جائزہ پر مجبور کیا۔ نتیجتاً مالی سال 2026 کا اختتام پاکستان کی میکرو اکنامک پوزیشن کی پہلے سے زیادہ مضبوطی پر ہوا جبکہ عالمی اجناس کی قیمتوں، بیرونی مالیاتی صورتحال اور افراطِ زر کے مسلسل دباؤ کی وجہ سے معاشی آؤٹ لک اب بھی متاثر ہوسکتا ہے۔

زری پالیسی مالی سال 2026 کی پہلی تین سہ ماہیوں میں بحالی میں معاون رہی۔ اسٹیٹ بینک آف پاکستان (ایس بی پی) نے دسمبر 2025 میں 50 بی پی ایس کمی کر کے 10.50 فیصد تک لانے سے قبل مالی سال کا آغاز 11.00 فیصد کے پالیسی ریٹ سے کیا۔ مشرقِ وسطیٰ میں کشیدگی نے خطرات کے جائزہ کو تبدیل کر دیا، زری پالیسی کمیٹی (ایم پی سی) نے عالمی توانائی کی بڑھتی ہوئی قیمتوں، فریٹ اور انشورس کی لاگتوں اور ممکنہ سپلائی چین میں خلل کو افراطِ زر کے نمایاں خطرات کے طور پر اجاگر کیا۔ اس تناظر میں ایس بی پی نے اپریل میں پالیسی ریٹ میں 100 بی پی ایس اضافہ کر کے 11.50 فیصد کی اور جون اور ایم پی سی کی بعد کے اجلاسوں تک اس سطح کو برقرار رکھا۔ اگرچہ زری پالیسی کمیٹی (ایم پی سی نے بلند قیمتوں اور معاشی غیر یقینی صورتحال کے باعث ملکی معاشی سرگرمیوں میں کمی کے آثار کا ذکر کیا اور موجودہ زری پالیسی کو مناسب قرار دیا کیونکہ بیرونی حسابات پر دباؤ محدود ہے اور زرمبادلہ کے ذخائر میں مسلسل اضافہ ہو رہا ہے۔ کمیٹی کے مطابق مستقبل کو مدنظر رکھتے ہوئے زری پالیسی اور مسلسل مالیاتی استحکام کے اقدامات کے ذریعے موثر معاشی انتظام نے مشرقِ وسطیٰ میں طویل کشیدگی کے باوجود ملکی معاشی استحکام برقرار رکھنے میں مدد دی ہے۔

مالی سال 2026 کے دوران افراطِ زر میکرو اکنامک کیلئے اصولی تبدیلی کا باعث بنی۔ ہیڈلائن سی پی آئی افراطِ زر میں چوتھی سہ ماہی میں تیزی سے اضافہ ہوا جو مارچ میں سال بہ سال کی بنیاد پر 7.30 فیصد سے بڑھ کر اپریل میں 10.89 فیصد اور مئی میں 11.66 فیصد رہی جبکہ جون میں معمولی کمی کے ساتھ یہ 11.07 فیصد رہی۔ مالی سال 2026 کیلئے اوسط سی پی آئی افراطِ زر گزشتہ سال میں 4.49 فیصد کے مقابلے میں 7.05 فیصد رہی۔ افراطِ زر میں اضافہ ملکی توانائی اور ٹرانسپورٹیشن میں اضافہ، بنیادی اثرات میں کمی اور عالمی توانائی کی بلند قیمتوں کے اثرات کا منتقل ہونے کا عکاس ہے۔ بنیادی افراطِ زر میں زیادہ رہی جو جون میں 8.7 فیصد تک پہنچ گئی۔ افراطِ زر کا آؤٹ لک زیادہ غیر یقینی ہو گیا جس کی وجہ عالمی اجناس کی قیمتوں بالخصوص سپلائی میں خلل کے باعث تیل کی قیمتوں، انتظامی انرجی پرائسز، مالیاتی پیش رفت اور موسم سے خوراک کے نظام پر پڑنے والے دباؤ سے پیدا ہونے والے خطرات ہیں۔

حقیقی جی ڈی پی کی عارضی شرح نمو مالی سال 2025 میں 3.18 فیصد کے مقابلے میں بڑھ کر 3.70 فیصد کے ساتھ حقیقی معاشی سرگرمیاں مستحکم رہیں حالانکہ یہ شرح حکومتی 4.20 فیصد کے ہدف سے کم ہے۔ بڑے شعبوں میں بحالی دیکھنے کو ملی جس میں زراعت، صنعت اور خدمات میں سال بہ سال کی بنیاد پر بالترتیب 2.89 فیصد، 6.61 فیصد اور 4.09 فیصد نمو ہوئی۔ زراعت کے علاوہ دیگر شعبوں میں نمو میں اضافہ، استحکام کیلئے اٹھائے گئے اقدامات کے بعد معاشی سرگرمیوں کے بتدریج معمول پر آنے کی نشاندہی کرتی ہے۔ اس کے باوجود نمو میں اضافہ معمولی رہا جو زیادہ پائیدار ترقی کیلئے مضبوط سرمایہ کاری اور پیداواریت کی ضرورت کو اجاگر کرتا ہے۔

لارج سکیل مینوفیکچرنگ انڈسٹریز (ایل ایس ایم) شعبہ میں مالی سال 2026 میں 4.98 فیصد کی نمو ہوئی جس نے گزشتہ سال میں 0.74 فیصد کے سکڑاؤ کو ختم کیا جو اہم مینوفیکچرنگ شعبوں میں وسیع تر بحالی کا عکاس ہے۔ یہ ترقی آٹو موبائل (1.56 فیصد)، فوڈ (1.21 فیصد)، گارمنٹس (0.91 فیصد)، پٹرولیم مصنوعات (0.72 فیصد)، سیمنٹ (0.41)، الیکٹرانک سامان (0.37)، فرنیچر (0.28 فیصد) دیگر ٹرانسپورٹ سامان (0.27 فیصد)، ٹوبیکو (0.19 فیصد)، بیوریجز (0.14 فیصد) اور مشینری و آلات (0.01 فیصد) کی وجہ سے ممکن ہوئی۔ اس کے برعکس فارماسیوٹیکلز (0.54-)،

آئرن وسٹیل مصنوعات (0.34-)، کیمیکلز (0.20-) اور ٹیکسٹائل (0.11-) دباؤ کا شکار رہے۔

اس معاشی بحالی کو بہتر ہوتی ہوئی میکرو اکنامک استحکام، خام مال و دیگر وسائل کی بہتر دستیابی اور مقامی طلب میں تدریجی بحالی سے تقویت ملی۔ تاہم ذیلی شعبوں کے درمیان فرق سے ظاہر ہوتا ہے کہ یہ بہتری بنیادی طور پر صرف بحالی کے عمل پر مبنی ہے، جبکہ مینوفیکچرنگ کے شعبے میں ایک پائیدار اور ساختی توسیع کا ہونا ابھی مکمل طور پر قائم نہیں ہو سکا ہے۔

ایسا نظر آتا ہے کہ مالیاتی استحکام بحالی اور استحکام کے عمل کا بنیادی عنصر رہا۔ مالی سال کے جولائی سے مئی کے دوران مالی خسارہ جی ڈی پی کا 1.6 فیصد رہا جبکہ گزشتہ سال یہ خسارہ 3.8 فیصد تھا۔ بنیادی سرپلس جی ڈی پی کا 3.3 فیصد ریکارڈ کیا گیا جبکہ مالی سال 2025 میں یہ سرپلس جی ڈی پی کا 3.2 فیصد تھا۔ بہتری کی عکاسی زیادہ موثر ریونیو موبلائزیشن اور سودی اخراجات میں کمی سے ہوئی۔ مالی سال 2026 کے دوران ایف بی آر کے محصولات کی وصولی سالانہ بنیادوں پر 10.8 فیصد سے بڑھ کر 13.01 ٹریلین روپے رہی۔ بلاواسطہ اور بالواسطہ ٹیکس محاصل میں بالترتیب 13.7 فیصد اور 7.9 فیصد اضافہ ہوا جبکہ اخراجات 9.4 فیصد کمی کے ساتھ 12.73 ٹریلین روپے رہے جس کو مارک اپ کی ادائیگیوں میں 21.7 فیصد کمی کا سہارا ملا۔

مالیاتی صورتحال آئی ایم ایف کے معاونتی پروگرام کے تحت استحکام کی طرف گامزن رہی۔ اگرچہ یہ بہتری مالیاتی نظم ونسق کی اہم اور مضبوط بحالی کی عکاسی کرتی ہے تاہم پاکستان پر قرضوں کی ادائیگیوں کے بھاری بوجھ کے پیش نظر اس مالیاتی ایڈجسمنٹ کو برقرار رکھنے کے لیے آمدنی میں مسلسل اضافے اور سرکاری اخراجات کی معقولیت کی ضرورت ہوگی۔

بیرونی محاذ پر ملکی سطح پر اقتصادی سرگرمی میں بحالی سے درآمدات کی طلب میں اضافہ ہوا جبکہ مالی سال کے اختتام پر مشرق وسطی میں کشیدگی اور تیل کی بہت زیادہ قیمتوں نے درآمدی بل پر مزید دباؤ ڈالا۔ اشیاء کی درآمدات سالانہ بنیادوں پر 9.00 فیصد اضافہ کے ساتھ 64.47 بلینڈ الر رہی جبکہ اشیاء کی برآمدات 4.71 فیصد کمی کے ساتھ 30.82 نلین ڈالر رہی جس سے تجارتی خسارہ مالی سال 2025 میں 26.80 نلین ڈالر کے مقابلے میں 33.65 نلین ڈالر ہو گیا۔ تجارتی خسارے میں اضافہ کے باوجود حسابات جاریہ قابل انتظام سطح پر رہا جس میں گزشتہ مالی سال کے 1.84 نلین ڈالر کے سرپلس کے مقابلے میں 304 ملین ڈالر کا خسارہ ریکارڈ کیا گیا جسے 41.59 نلین ڈالر کے ترسیلات زر کا سہارا ملا جو سالانہ بنیادوں پر 8.58 فیصد زیادہ ہے۔

اس کے باوجود تجارتی توازن میں بگاڑ درآمدی معاشی نمو اور توانائی کی قیمتوں کے حوالے سے پاکستان کے بیرونی شعبے کی نازک صورتحال کو اجاگر کرتا ہے جبکہ متوازن حسابات جاریہ کا تمام تر دارومدار اب بھی سمندر پار پاکستانیوں کی ارسال کردہ مستحکم ترسیلاتِ زر پر ہے۔

مالی سال 2026 کے دوران بیرونی مالیاتی ذخائر میں نمایاں بہتری آئی، جس سے بیرونی جھٹکوں کے مقابلے میں معیشت کے تحفظ میں اضافہ ہوا۔ ایس بی پی کے غیر ملکی زرمبادلہ کے ذخائر سال کے اختتام پر 18.38 نلین ڈالر تک پہنچ گئے جبکہ کل لیکویڈ ذخائر 23.20 نلین ڈالر رہے۔ اس بہتری کو ترسیلات زر میں اضافہ، تسلسل کے ساتھ سرکاری فنانسنگ اور آئی ایم ایف کے معاونتی ریفارم پروگرام بشمول ای ایف ایف کے تحت تیسرے جائزے اور آر ایس ایف کے تحت دوسرے جائزے کی تکمیل کا سہارا ملا۔ پاکستان نے سال کے دوران نمایاں بیرونی ادائیگیاں کی جس میں 3.5 نلین ڈالر کے باہمی ڈیپازٹس

شامل ہیں جبکہ متبادل دوطرفہ فنانسنگ اور مارکیٹ سے فنڈنگ کا حصول بھی یقینی بنایا گیا۔ پاکستانی روپے کی قدر میں قدرے مستحکم رہی جو مالی سال 2025 میں 279.35 ڈالر کے مقابلے میں مالی سال 2026 کے دوران 280.65 ڈالر رہی۔ مضبوط زرمبادلہ کے ذخائر اور کثیرالجہتی اداروں کی معاونت سے بیرونی جھٹکوں سے نمٹنے کی صلاحیت میں بہتری آئی ہے تاہم ان فوائد کو برقرار رکھنے کے لیے محتاط پالیسیوں اور بیرونی ذرائع سے آمدنی میں اضافے کی ضرورت ہوگی۔

مجموعی طور پر، مالی سال 26 پاکستان کی میکرو اکنامک حالت کے معمول پر آنے کی سمت میں نمایاں پیش رفت کا حامل رہا اگرچہ سال کے اختتام کے قریب افراطِ زر اور بیرونی حالات میں ابتری نے بیرونی جھٹکوں کے سامنے معیشت کے مسلسل غیر محفوظ ہونے کو اجاگر کیا۔ استحکام کے عمل نے مالی، زری اور بیرونی ذخائر کو مضبوط بنایا جبکہ پاکستان کے مشرق وسطی میں سفارتی اور اسٹریٹجک کردار بشمول امریکہ اور ایران کے درمیان مذاکرات میں سہولت کاری اور اہم علاقائی شراکت داروں کے ساتھ دفاعی تعاون نے پاکستان کی اسٹریٹجک اہمیت کو بڑھایا۔

آگے بڑھتے ہوئے پیداواری صلاحیت اور بیرونی آمدنی کو فروغ دیتے ہوئے معاشی نظم ونسق برقرار رکھنا بدستور اہم رہے گا جبکہ عالمی توانائی کی قیمتیں، جغرافیائی سیاسی حالات اور بیرونی فنانسنگ کی صورتحال مستقبل کے معاشی منظرنامے پر اثرانداز ہوتی رہیں گی۔

ایکویٹی کا جائزہ

پاکستان کی ایکویٹی مارکیٹ نے مالی سال 2026 میں مضبوط کارکردگی دکھائی حالانکہ مجموعی کارکردگی نے دوسری ششماہی کے دوران ہونے والے غیر معمولی اتارچڑھاؤ کو چھپائے رکھا۔ مالی سال 2026 میں کے ایس ای۔100 انڈکس 180,302 پوائنٹس پر بند ہوا جس میں مالی سال 2026 کی پہلی سہ ماہی میں تقریباً 39 فیصد کی پیش رفت کے بعد سال کے دوران 43.52 فیصد اضافہ حاصل کیا۔ پہلی ششماہی کو مائیکرو اکنامک کی بہتر ہوتی صورتحال، آئی ایم ایف پروگرام کے تحت پیش رفت، افراطِ زر میں کمی، مستحکم شرح سود اور کارپوریٹ آمدن میں بہتری کی توقعات سے سہارا ملا۔ یہ رفتار انڈکس کو جنوری 2026 میں 191,033 پوائنٹس کی ریکارڈ سطح پر لے گئی۔

فروری کے اختتام تک مشرقِ وسطی میں کشیدگی میں اضافہ نے مارکیٹ خطرات کے رجحان کو تیزی سے الٹا کر دیا اور شدید عدم استحکام کا ایک دور شروع کر دیا۔ ان دباؤ کے باوجود مارکیٹ نے سال کے اختتام کی جانب زبردست واپسی کی اور اپنی ریکارڈ سطحوں کے قریب بند ہوئی جو ایکویٹیز کے استحکام اور مارکیٹ میں نقد لیکویڈیٹی میں توسیع کو اجاگر کرتی ہے۔

امریکہ، اسرائیل اور ایران کے مابین کشیدگی مالی سال 2026 کی دوسری سہ ماہی کے دوران نمایاں بیرونی جھٹکا ثابت ہوئی جس کے عالمی سطح پر توانائی کی قیمتوں اور سرمایہ کاروں کے خطرات سے متعلق رجحانات پر اثرات مرتب ہوئے۔ آبنائے ہرمز کے ذریعے جہازوں کی آمدورفت میں خلل کے خدشات سے کروڈ آئل کی قیمتوں میں تیزی سے اضافہ ہوا، برینٹ آئل مارچ کے وسط میں 100 ڈالر فی بیرل اور اس کشیدگی کے ابتدائی جھٹکے کے دوران تقریباً 118 ڈالر فی بیرل تک پہنچ گیا۔ پاکستان کی معیشت کیلئے جو پہلے ہی درآمدی توانائی پر انحصار کرتی ہے خام تیل کی قیمتوں میں اضافے نے درآمداتی بل، افراطِ زر (مہنگائی) اور کارپوریٹ منافع بخشیت سے متعلق خدشات کو مزید ہوا دی۔ مارچ کے دوران مارکیٹ میں دیکھی جانے والی شدید فروخت میں یہ

اثرات خاص طور پر نمایاں ہوئے، جب 9 مارچ کو KSE-100 انڈیکس گر کر 146,480 پوائنٹس پر آ گیا، جبکہ کاروباری دن کے دوران یہ 144,119 پوائنٹس کی نچلی ترین سطح کو بھی چھو گیا۔ مارکیٹ میں اس ہمہ گیر فروخت نے سرمایہ کاروں کے خطرات سے اجتناب کے تیز رفتار رجحان کی عکاسی کی کیونکہ انہوں نے توانائی کی بلند قیمتوں کے ملکی معاشی استحکام اور تجارتی سرگرمیوں پر مرتب ہونے والے اثرات کا ازسرِ نو جائزہ لیا۔

پاکستان جیسی درآمدی توانائی پر انحصار کرنے والی معیشت کے لیے تیل کی قیمتوں میں اضافے نے درآمدی بل، مہنگائی اور کارپوریٹ منافع کے حوالے سے خدشات بڑھا دیے۔ اس کے اثرات مارچ میں ہونے والی شدید مارکیٹ فروخت کے دوران خاص طور پر نمایاں ہوئے جب کے ایس ای 100 انڈیکس 9 مارچ کو 146,480 پوائنٹس پر آ گیا جبکہ دن کے دوران یہ 144,119 پوائنٹس کی کم ترین سطح تک بھی گر گیا۔ مارکیٹ میں وسیع پیمانے پر ہونے والی فروخت نے خطرات سے گریز کی جانب سرمایہ کاروں کے تیز رفتار رجحان کی عکاسی کی کیونکہ سرمایہ کاروں نے معاشی استحکام اور معاشی سرگرمیوں پر توانائی کی بلند قیمتوں کے اثرات کا ازسرِ نو جائزہ لیا۔

فوری نوعیت کے بیرونی خطرات کم ہوتے ہی مارکیٹ نے بحالی کی ایک مضبوط اور شاندار صلاحیت کا مظاہرہ کیا۔ امریکہ اور ایران کے درمیان کشیدگی کم کرانے کیلئے سفارتی پیش رفتوں اور توانائی کی سپلائی میں خلل کے حوالے سے خدشات میں کمی اور آئل کی قیمتوں میں کمی کے ساتھ ساتھ سعودی عرب کے ساتھ پاکستان کے دفاعی معاہدے نے ملک کے خطے میں ابھرتے ہوئے کردار کی توثیق کی، دوسرے ملک کے کے ساتھ قریبی تعلقات سے ممکنہ معاشی فوائد کی توقع نے مارکیٹ میں تیزی کی شدید لہر پیدا کی جس کے نتیجے میں کے ایس ای 100 انڈیکس مارچ کی کم ترین سطح سے نمایاں طور پر بحال ہوا۔ پاکستان نے امریکہ اور ایران کے درمیان مذاکرات میں سہولت فراہم کی جس نے مثبت رجحان کو فروغ دیا جبکہ توانائی کی قیمتوں میں اعتدال سے بیرونی حسابات سے متعلق قریب المیعاد خدشات کم ہوئے۔ بحالی 8 اپریل کو اس وقت نمایاں ہوئی جب کے ایس ای 100 انڈکس نے ایک سیشن میں 9.32 فیصد کا اضافہ حاصل کیا جو دوبارہ خطرہ مول لینے کے رجحان اور ملکی سطح پر وافر لیکویڈیٹی کی عکاسی کرتا ہے۔ مالی سال کے اختتام تک انڈیکس 180,000 پوائنٹس سے تجاوز کرتے ہوئے بحال ہو گیا اور جغرافیائی سیاسی صورتحال کے باعث مارکیٹ میں ہونے والی گراوٹ سے ہونے والے نقصانات کا بڑا حصہ ریکور ہوا۔

سال کے دوران مارکیٹ کی مجموعی مضبوط کارکردگی کو نمایاں آمدنیوں، پرکشش قدروں اور مضبوط ملکی لیکویڈیٹی کا سہارا ملا۔ سرمایہ کاری میں بہتری اب صرف مارکیٹ میں پیسے کی دستیابی کی وجہ سے نہیں رہی، بلکہ کمپنیوں کی آمدنی میں اضافے، معاشی حالات میں بہتری اور کاروباری کارکردگی مضبوط ہونے کی وجہ سے بھی سرمایہ کاروں کا اعتماد بڑھا۔ بینکوں (50.3+ فیصد)، آئل اینڈ گیس ایکسپلوریشن (33.2+ فیصد)، فرٹیلائزر (44.9+ فیصد)، سیمنٹ (26.9+ فیصد) اور دیگر بڑے شعبوں میں نمایاں سرمایہ کاری کی گئی۔ مقامی اداروں خصوصا کارپوریٹ اداروں اور میوچل فنڈز کی بھرپور شرکت نے حصص کی غیر ملکی مسلسل فروخت کو جذب کرنے میں مدد دی۔ مالی سال 26 کے دوران غیر ملکی کارپوریٹ سرمایہ کاروں نے تقریبا 848 ملین ڈالر کی خالص فروخت کی۔ مارکیٹ کی سرگرمی میں مضبوط ہوئی، اوسط یومیہ تجارتی حجم 980 ملین حصص تک ریکارڈ کیا گیا جبکہ یومیہ تجارتی قدر 205 ملین ڈالر (57 ملین) تک پہنچا جو سرمایہ کاروں کی طرف سے زیادہ سے زیادہ خریداری کا عکاس ہے۔ مالی سال 2026 کے دوران آئی پی اوز سرگرمی میں نمایاں تیزی آئی۔ 11 آئی پی اوز کے ذریعے تقریبا 66 ملین ڈالر حاصل کیے گئے جو 25 سالوں میں آئی پی اوز کی تیسری سب سے زیادہ تعداد ہے۔ یہ پاکستان کی کیپیٹل مارکیٹ میں سرمایہ کاروں کے دوبارہ بڑھتے اعتماد اور وسیع تر شرکت کی نشاندہی کرتا ہے۔ نمایاں آئی پی اوز میں سرمایہ کاروں کی دلچسپی

خاص طور پر زیادہ رہی۔ پاک قطر جنرل تکافل کے عوامی حصے کو مطلوبہ حصص سے 9.6 گنا زیادہ طلب موصول ہوئی جبکہ سروس لانگ مارچ ٹیئرز کے بک بلڈنگ حصے کو 16.7 گنا زیادہ طلب ملی۔ اس میں تقریبا 85ارب روپے کی بولیاں موصول ہوئیں اور کمپنی نے 7.78ارب روپے حاصل کیے۔

مالی سال 2026 کے آغاز میں وسط مدتی سرمایہ کاری کے لئے ویلیوایشنز کی طرف سے معاونت ملی حالانکہ بعد میں حصص کی قدر میں دوبارہ اضافے کے باعث توجہ بتدریج کمپنیوں کی آمدنی اور منافع میں بہتری پر مرکوز ہونے لگی ہے۔ مالی سال 2026 میں کے ایس ای 100 تقریبا 7.3x کے فارورڈ پی /ای تناسب کے ساتھ داخل ہوا جو اس کی طویل المیعاد تاریخی اوسط جو تقریبا 8.0x ہے سے کم تھا۔ اگرچہ میکرو اکنامک حالات میں بہتری ہوئی اور سرمایہ کاروں کے اعتماد میں اضافہ ہوا۔

کے ایس ای 100 انڈیکس کی سمت کا تمام تر انحصار جغرافیائی سیاسی پیش رفت سے ہے، عالمی سطح پر تیل کی قیمتیں مارکیٹ میں اتار چڑھا کا سب سے فوری سبب بن سکتی ہیں، کیونکہ تیل کی قیمتوں میں تبدیلی سے مہنگائی، ملک کے بیرونی کھاتے اور سرمایہ کاروں کے خطرہ مول لینے کے رجحان پر براہِ راست اثر پڑتا ہے۔ آئی ایم ایف کے ساتھ مسلسل تعاون، مالیاتی نظم وضبط، کمپنیوں کی مالی کارکردگی میں بہتری اور مجموعی معاشی استحکام ملکی معیشت کے لیے ایک مضبوط بنیاد فراہم کر رہے ہیں۔ ہم درمیانی مدت کے حوالے سے مثبت معاشی نقطہ نظر برقرار رکھتے ہیں اگرچہ گزشتہ تین سالوں کے دوران مارکیٹ کی شاندار کارکردگی کے بعد، مزید محصولات کا انحصار اب ویلیوایشن میں اضافے کی بجائے پائیدار کارپوریٹ آمدن میں نمو پر بڑھتا جائے گا۔ پاکستان کا وسعت پذیر سفارتی کردار، بشمول امریکہ–ایران مذاکرات میں اس کا سہولت کاری کا کردار مزید مدد فراہم کرسکتا ہے بشرطیکہ یہ علاقائی کشیدگی اور توانائی کی منڈی کے خطرات میں پائیدار کمی کا باعث بنے۔

فکسڈ انکم کا جائزہ

پاکستان کی فکسڈ انکم مارکیٹ میں مالی سال 2026 کے دوران آسان ماحول سے محتاط آؤٹ لک میں نمایاں تبدیلی رونما ہوئی۔ پہلی ششماہی کے دوران مارکیٹ کو سہارا ملا، مہنگائی میں کمی اور شرحِ سود میں مزید کمی کی توقعات کے باعث حکومتی بانڈز کی شرحِ منافع میں مجموعی طور پر کمی واقع ہوئی۔ دسمبر میں پالیسی ریٹ میں کمی کے بعد قلیل مدتی تمسکات کے منافع کی شرح میں سب سے نمایاں کمی دیکھی گئی، جبکہ طویل مدتی سیکیورٹیز کی مضبوط طلب نے مزید پالیسی نرمی کی توقعات کو ظاہر کیا، جس سے سرکاری بانڈز کی مختلف مدتوں کے منافع کی شرح میں مجموعی کمی کو تقویت ملی۔ اس ماحول نے فکسڈ انکم سرمایہ کاروں کے لیے سازگار حالات فراہم کیے، جہاں گرتی ہوئی شرحِ منافع نے ان کی موجودہ ہولڈنگز پر مارک ٹو مارکیٹ منافع میں اضافہ کیا۔

مالی سال 2026 کے اختتام پر مارکیٹ کے حالات میں تبدیلی آئی جس کی وجوہات میں مشرق وسطی میں کشیدگی جس کے نتیجہ میں عالمی سطح تیل کی قیمتیں بڑھی جس نے افراط زر کے بارے میں خدشات پیدا کئے اور بیرونی حسابات شامل ہیں۔ شرحِ سود سے متعلق توقعات میں اس تبدیلی کے نتیجے میں سرکاری سیکیورٹیز کی قیمتوں میں نمایاں ردِعمل سامنے آیا اور ثانوی مارکیٹ میں تمام مدتوں کی شرحِ منافع میں اضافہ ہوا۔ مارچ تک مختلف مدت کی سیکیورٹیز کی شرحِ منافع میں 100 سے 200 بیس پوائنٹس سے زائد اضافہ ہو چکا تھا جس میں طویل مدتی سیکیورٹیز میں یہ ایڈجسٹمنٹ زیادہ نمایاں رہی جبکہ اپریل میں ہونے والے زری پالیسی کمیٹی کے جائزے میں مشرقِ وسطی کے تنازع کے آغاز سے اب تک شرحِ منافع میں مجموعی اضافے کی نشاندہی کی گئی۔

اس رجحان میں تبدیلی کے باوجود ملکی سطح پر وافر لیکویڈیٹی اور حکومت کی مسلسل قرض لینے کی ضروریات نے مارکیٹ کو سہارا فراہم کیا جبکہ سال کے اختتام پر شرحِ منافع میں ہونے والی تبدیلیاں مہنگائی اور شرحِ سود کے حوالے سے سرمایہ کاروں کے محتاط نقطہ نظر کی عکاسی کرتی رہیں۔ مجموعی طور پر فکسڈ انکم مارکیٹ ایسی صورتحال سے نکل کر جس میں سرمایہ کار زیادہ مدت والی سیکیورٹیز کی قیمتوں میں اضافے اور اس کے نتیجے میں سرمائے میں اضافے پر توجہ مرکوز کیے ہوئے تھے، ایک ایسے ماحول کی طرف منتقل ہوگئی جہاں مستقل آمدنی کے حصول، محتاط حکمتِ عملی اور منتخب سیکیورٹیز میں سرمایہ کاری کو ترجیح دی گئی۔ آئندہ مارکیٹ کی سمت بڑی حد تک مہنگائی کے رجحان، عالمی اجناس کی قیمتوں اور اسٹیٹ بینک آف پاکستان کی زری پالیسی کے ردِعمل پر منحصر ہوگی۔

مدت کے دوران بنیادی مارکیٹ کی سرگرمی مضبوط رہی جو مالی قرضہ جات کیلئے ملکی ڈیبٹ مارکیٹ پر مسلسل انحصار کا عکاس ہے۔ مالی سال 2026 کے دوران ایس بی پی نے مارکیٹ ٹریژری بل (ایم ٹی بی) کی 26 نیلامیاں کی جس سے حکومت 19.53 ٹریلین روپے کے ہدف کے مقابلے میں 21.64 ٹریلین روپے حاصل کرنے کے قابل ہوئی۔ 6,3 12 ماہ کے ایم ٹی بیز کی اوسط آمدن گزشتہ سال کی اسی مدت کے 13.97 فیصد، 13.77 فیصد اور 13.42 فیصد کے مقابلے میں 11.00 فیصد، 11.00 فیصد اور 11.19 فیصد رہی جو اسی ترتیب کے ساتھ 297 بی پی ایس، 277 بی پی ایس اور 222 بی پی ایس زیادہ تھی۔ ایک ماہ کی مارکیٹ ٹریژری بلز پر اوسط شرحِ منافع اس مدت کے دوران اوسطا 10.90 فیصد رہی۔

سرمائے کی ضرورت پر مزید توجہ دیتے ہوئے ایس بی پی نے فکسڈ ریٹ پاکستان انویسٹمنٹ بانڈز (پی آئی بی) کی 12 نیلامیاں کیں اور ان کے ذریعے 6.24 ٹریلین روپے جمع کرنے میں کامیاب ہوا۔ 3، 5 اور 10 سال کی پی آئی بیز کی اوسط آمدن گزشتہ سال کی اس مدت کی آمدن 13.00 فیصد، 13.12 فیصد اور 13.08 فیصد کے مقابلہ میں 11.35 فیصد، 11.56 فیصد اور 11.80 فیصد رہی جو اسی ترتیب کے ساتھ 165 بی پی ایس، 155 بی پی ایس اور 155 فیصد زیادہ تھی۔

شریعہ کمپلائنٹ انسٹرومنٹ کیلئے مارکیٹ میں ایس بی پی نے پاکستان اسٹاک ایک چینج کے ذریعے حکومتی اجارہ سکوک، ویرایبل رینٹل ریٹ (وی آر آر) اور فکسڈ رینٹل ریٹ (ایف آر آر) دونوں کی 18 نیلامیاں کیں جس سے 4.05 ٹریلین روپے کے ہدف کے برخلاف 3.30 نلین روپے اکھٹے کرنے میں کامیاب حاصل ہوئی۔

اگست تا اکتوبر، 2026 کے نیلامی کیلینڈر کے مطابق سٹیٹ بینک آف پاکستان 3 سے 12 ماہ کی مدت کے ایم ٹی بی کے اجرا سے 5.32 ٹریلین روپے کی رقم میچور کرنے کے برخلاف 4.10 ٹریلین روپے حاصل کرنے کا ہدف رکھتا ہے۔ اس کے علاوہ ایس بی پی اسی مدت کے دوران 2 سے 15 سال کی مدت کے فکسڈ ریٹ پی آئی بیز کے ذریعے 307 نلین روپے کی رقم میچور کرنے کے برخلاف 1.30 ٹریلین روپے کا ہدف رکھتا ہے

مستقبل کی پیش بینی

جیسا کہ پاکستان مالی سال 2027 میں داخل ہو رہا ہے، میکروفنانشل ماحول حالیہ سالوں میں ایک مضبوط آغاز پیش کرتا ہے اگرچہ معاشی بحالی کو اب بھی مشکل بیرونی حالات کا سامنا ہے۔ مالی سال 2026 کے دوران حاصل کئے گئے استحکام جسے مالیاتی مضبوطی، مضبوط بیرونی مالیاتی بفرز، مستحکم ترسیلات زر آئی ایم ایف پروگرام کے تحت مسلسل پیش رفت نے بنیادی طور پر پالیسی کی ساکھ اور بیرونی جھٹکوں کو جذب کرنے کی معیشت کی صلاحیت کو بہتر کیا۔ تاہم افراط زر میں دوبارہ اضافے اور زری پالیسی میں نرمی میں رکاوٹ سے ظاہر ہوتا ہے کہ معاشی استحکام کا عمل اب بھی خطرات سے دوچار ہے۔ قلیل مدت میں مہنگائی اسٹیٹ بینک آف پاکستان کے درمیانی مدت کے ہدف سے اوپر رہنے کی توقع ہے جبکہ آئی ایم ایف نے مالی سال 27-2026 میں اوسط مہنگائی تقریبا 8.4 فیصد رہنے کی پیش گوئی کی ہے۔ اس لیے زری پالیسی کا ماحول محتاط رہنے کا امکان ہے جبکہ معاشی سرگرمیوں کو سہارا دینے اور قیمتوں کے استحکام کے ساتھ ساتھ بیرونی شعبے کا استحکام برقرار رکھنے کے درمیان توازن آئندہ معاشی منظر نامے کا مرکزی نکتہ رہے گا۔

پاکستان کا بڑھتا ہوا جیو پولیٹیکل کردار مالی سال 2027 کے آؤٹ لک کا ایک اہم اسٹریٹجک پہلو ہے۔ امریکہ اور ایران کے درمیان مذاکرات میں سہولت، سعودی عرب اور دیگر شراکت داروں کے ساتھ روابط نے ایسے وقت میں پاکستان کی سفارتی اہمیت کو بڑھا دیا جب عالمی توانائی مارکیٹوں کیلئے علاقائی استحکام بدستور اہم ہے۔ پاکستان اور سعودی عرب کے درمیان اسٹریٹجک باہمی دفاعی معاہدہ نے، جس پر ستمبر 2025 میں دستخط کئے گئے، دوطرفہ سیکورٹی فریم ورک کو مضبوط بنایا کہ ایک ملک کے خلاف جارحیت دونوں کے خلاف جارحیت سمجھی جائے گی۔

قابل ذکر بات یہ ہے کہ سال کے اختتام کے بعد پاکستان علاقائی دفاعی مشغولیت وسیع ہوگئی۔ 17 اگست، 2026 کو پاکستان، سعودی عرب اور ترکیہ نے مکہ مشترکہ دفاعی معاہدہ پر دستخط کئے جس کے تحت کسی ایک ملک پر مسلح حملہ تینوں ملکوں پر حملہ تصور کیا جائے گا جبکہ تینوں ریاستوں کے درمیان دفاعی تعاون کو بڑھانے پر زور دیا گیا۔ جبکہ خطے میں بڑھتے ہوئے سکیورٹی خطرات کے پیشِ نظر دیگر علاقائی شراکت داروں نے بھی مشترکہ دفاعی تعاون کے حوالے سے مفاہمت میں دلچسپی کا اظہار کیا ہے۔

یہ پیش رفت پاکستان کی اسٹریٹجک اہمیت کو بڑھا سکتے ہیں اور دفاع، سرمایہ کاری، توانائی اور علاقائی تجارت میں طویل مدتی مواقع پیدا ہوں گے۔ کویت بھی پاکستان کے ساتھ اپنے 2023 دفاعی تعاون معاہدہ کی توثیق کی ہے جو مکمل طور پر فعال ہے۔ اس کے باوجود وسیع تر جغرافیائی وسیاسی پوزیشن کے

معاشی فوائد کو ایک فوری میکرو اکنامک محرک کے بجائے درمیانی مدت کے موقع کے طور پر دیکھا جانا چاہیے۔ ان کا حتمی اثر پاکستان کی اس صلاحیت پر منحصر ہوگا کہ وہ کس حد تک مضبوط اسٹریٹجک تعلقات کو ٹھوس سرمایہ کاری، تجارت، دفاعی صنعت میں تعاون اور بیرونی مالیاتی وسائل کے بہاؤ میں تبدیل کر سکتا ہے اور ساتھ ہی اہم علاقائی اور عالمی شراکت داروں کے ساتھ متوازن تعلقات کو برقرار رکھتا ہے۔

میکرو اکنامک تناظر سے پاکستان کے درآمدی توانائی پر انحصار سے علاقائی ممکنہ کشیدگی ورکاوٹوں سے معیشت کے متاثر ہونے کا خدشہ رہتا ہے جبکہ تیل کی قیمتوں پر مسلسل دباؤ افراط زر، حسابات جاریہ اور کارپوریٹ منافع کی شرح پر منفی اثرات مرتب کر سکتا ہے۔ زری اور مالی نظم ونسق برقرار رکھنا، ایکس چینج ریٹ میں لچک اور ذخائر میں مسلسل اضافہ حالیہ استحکام کے بچانے میں اہم ہیں۔ مضبوط ذخائر، آئی ایم ایف کے ساتھ مسلسل روابط اور مالیاتی صورتحال میں بہتری بیرونی جھٹکوں کے خلاف قابل بھروسہ تحفظ فراہم کرتے ہیں۔ دوسری طرف آئی ایم ایف تسلسل کے ساتھ مضبوط پالیسیوں اور ڈھانچہ جاتی اصطلاحات پر زور دے رہی ہے۔

اس صورتحال میں ہم توقع کرتے ہیں کہ مالیاتی منڈیاں مجموعی طور پر مثبت رہیں گی تاہم سرمایہ کاری کے لیے انتخاب پہلے سے زیادہ محتاط انداز میں کیا جائے گا۔ ایکویٹیز کو کمپنیوں کی آمدنی کے بہتر امکانات، معاشی حالات میں بہتری اور نسبتا پرکشش قیمتوں سے فائدہ پہنچ سکتا ہے تاہم علاقائی سیاسی حالات اور اجناس کی قیمتوں سے متعلق خطرات کے باعث وقفے وقفے سے اتار چڑھاؤ جاری رہ سکتا ہے۔ فکسڈ انکم مارکیٹ میں زیادہ پالیسی ریٹ اور حکومتی سیکیورٹیز پر زیادہ منافع سرمایہ کاروں کو بہتر آمدنی کے مواقع فراہم کر رہے ہیں۔ تاہم طویل مدتی سیکیورٹیز سے فائدہ اس بات پر منحصر ہوگا کہ مہنگائی میں کمی کا عمل کتنی دیر تک برقرار رہتا ہے اور زری کے آئندہ لائحہ عمل کے بارے میں صورتحال کتنی واضح ہوتی ہے۔ ایس بی پی نے مالی سال 2027 میں پالیسی ریٹ 11.50 فیصد پر برقرار رکھا جبکہ جولائی میں منی مارکیٹ کے ریٹس موجود پالیسی موقف کے ساتھ ہم آہنگ ہیں۔ مجموعی طور پر مالی سال 2027

مجموعی طور پر مالی سال 2027 کا آغاز بنیادی حقائق اور ٹھوس عوامل پر مبنی سرمایہ کاری کے ماحول کی طرف منتقلی سے ہونے کا امکان ہے جہاں کمپنیوں کی آمدنی میں اضافہ، مستقل منافع اور سیکیورٹیز کا درست انتخاب منافع کے حصول کے اہم ذرائع بنیں گے۔ ترقی کے اہم مثبت محرکات میں مسلسل میکرو اکنامک استحکام، علاقائی کشیدگی میں کمی، بیرونی سرمائے کی آمد اور پاکستان کی بہتر ہوتی اسٹریٹجک پوزیشن کا ٹھوس معاشی سرگرمیاں شامل ہیں۔ دوسری جانب توانائی کی قیمتوں کا دوبارہ بڑھنا، مسلسل مہنگائی اور عالمی سطح پر طلب میں کمی بنیادی خطرات ہیں۔

MACROECONOMIC REVIEW

FY26 marked a transition from post-stabilization recovery toward a more externally constrained macroeconomic environment. The economy entered the year with materially improved fundamentals, supported by easing inflation, rebuilding foreign exchange buffers, fiscal consolidation and a more accommodative monetary stance. These gains gradually translated into a broader recovery in economic activity, with provisional real GDP growth rebounding to 3.70% from 3.18% in FY25. However, conditions became more challenging toward year-end as escalating geopolitical tensions in the Middle East triggered a sharp rise in global energy prices and associated supply-chain costs. The resulting external shock disrupted the disinflationary trajectory and prompted a reassessment of the monetary policy stance. Consequently, FY26 ended with Pakistan's macroeconomic position more resilient than during the earlier stabilization period, while the outlook remains sensitive to global commodity prices, external financing conditions and persistent inflationary pressures.

Monetary policy remained supportive of the recovery through the first three quarters of FY26. The State Bank of Pakistan (SBP) began the fiscal year with the policy rate at 11.00%, before reducing it by 50 bps to 10.50% in December 2025. The escalation in Middle East tensions subsequently altered the risk assessment, with the Monetary Policy Committee (MPC) highlighting elevated global energy prices, freight and insurance costs, and potential supply-chain disruptions as imminent risks to inflation. Against this backdrop, the SBP raised the policy rate by 100 bps to 11.50% in April 2026 and maintained it at this level through June and subsequent MPC meetings. While the MPC noted signs of moderation in domestic activity amid elevated prices and economic uncertainty, it considered the prevailing monetary policy stance appropriate given moderate external account pressures and continued reserve accumulation. The Committee noted that proactive macroeconomic management, underpinned by forward looking monetary policy and consistent fiscal consolidation, had helped sustain macroeconomic stability despite the notably prolonged Middle East conflict.

Inflation emerged as the principal macroeconomic inflection point during FY26. Headline CPI inflation accelerated sharply in the fourth quarter on a YoY basis, rising from 7.30% in March to 10.89% in April and 11.66% in May, before moderating to 11.07% in June. Average CPI inflation for FY26 stood at 7.05%, compared with 4.49% in the previous year. The acceleration reflected higher domestic energy and transportation costs, fading base effects and the pass-through from elevated global energy prices. Core inflation also remained elevated, reaching 8.7% YoY in June. The inflation outlook consequently became more uncertain, with upside risks stemming from global commodity prices particularly oil prices with supply disruptions, administered energy prices, fiscal developments and weather-related food pressures.

Real economic activity incidentally remained resilient, with provisional real GDP growth rebounding to 3.70% from 3.18% in FY25, although remaining well below the government's 4.20% target. The recovery extended across major sectors, with agriculture, industry and services growing by 2.89%, 6.61% and 4.09% YoY, respectively. The broadening of growth beyond agriculture points to a gradual normalization of economic activity following the stabilization measures undertaken earlier. Nevertheless, the pace of expansion remains moderate, underscoring the need for stronger investment and productivity gains to establish a more durable growth trajectory.

The Large-Scale Manufacturing (LSM) sector grew by 4.98% in FY26, reversing a 0.74% contraction in the preceding year and reflecting a broad-based recovery across key manufacturing segments. The growth was primarily driven by Food (1.21%), Beverages (0.14%), Tobacco (0.19%), Garments (0.91%), Petroleum Products (0.72%), Cement (0.41%), Electrical Equipment (0.37%), Machinery and Equipment (0.01%), Automobiles (1.56%), other transport Equipment (0.27%), and Furniture (0.28%). In contrast, Textile (-0.11%), Chemicals (-0.20%), Pharmaceuticals (-0.54%), and Iron & Steel Products (-0.34%) remained in contraction. The recovery was supported by improved macroeconomic stability, better input availability and a gradual revival in domestic demand. However, the divergence across subsectors indicates that the improvement remains largely recovery-driven, with a sustained structural expansion in manufacturing yet to be firmly established.

Fiscal consolidation it seems remained a key anchor of the stabilization process. During July–May FY26, the fiscal deficit narrowed to 1.6% of GDP from 3.8% of GDP in the previous year. The primary surplus was recorded at 3.3% of GDP, compared to 3.2% of GDP in FY25. The improvement reflected stronger revenue mobilization and lower interest expenditure, with FBR tax collection rising 10.8% YoY to PKR 13.01 tn during FY26. Direct and indirect tax collections increased by 13.7% and 7.9%, respectively, while total expenditure declined by 9.4% to PKR 12.73 tn, primarily driven by a 21.7% reduction in markup payments. The fiscal position remained aligned with the consolidation path under the IMF-supported programme. While the improvement represents a meaningful strengthening of fiscal discipline, sustaining the adjustment will require continued revenue mobilization and expenditure rationalization given Pakistan's elevated debt-servicing burden.

On the external front, the recovery in domestic activity contributed to higher import demand, while the escalation in Middle East tensions and higher oil prices toward the fiscal year-end added further pressure to the import bill. Goods imports increased 9.00% YoY to $64.47 bn, while goods exports declined 4.71% to $30.82 bn, widening the trade deficit in goods to $33.65 bn from $26.80 bn in FY25. Despite the wider trade deficit, the current account remained broadly manageable, recording a deficit of $304 mn, compared with a surplus of $1.84 bn last year, supported by record workers' remittances of $41.59 bn, up 8.58% YoY. The deterioration in the trade balance nevertheless highlights the continued sensitivity of Pakistan's external position to import-led domestic growth and energy prices, while the near balanced current account remains significantly reliant on resilient remittance inflows.

External buffers strengthened materially during FY26, providing greater safeguards against external shocks. SBP foreign exchange reserves reached $18.38 bn by the year ended, while total liquid reserves stood at $23.21 bn. The improvement was supported by strong remittance inflows, continued official financing and progress under the IMF-supported reform programme, including completion of the third review under the EFF and the second review under the RSF. Pakistan also managed significant external repayments during the year, including $3.5 bn of bilateral deposits, while securing replacement bilateral financing and market funding. The Pakistani rupee remained broadly stable, averaging around PKR 280.6/$ during FY26, compared with PKR 279.3/$ in FY25. Stronger reserves and multilateral support have improved external resilience, although sustaining these gains will require prudent policies and stronger external earnings.

In aggregate, FY26 marked meaningful progress in Pakistan's macroeconomic normalization, although the deterioration in inflation and external conditions toward year-end highlighted the economy's continued vulnerability to external shocks. The stabilization process has strengthened fiscal, monetary and external buffers, while Pakistan's expanding diplomatic and strategic engagement in the Middle East—including its facilitative role in US–Iran dialogue and strengthening defence cooperation with key regional partners—has increased its strategic relevance amid heightened regional uncertainty. Going forward, maintaining macroeconomic discipline while supporting productivity and external earnings will remain critical, with global energy prices, geopolitical developments and external financing conditions continuing to shape the outlook.

FIXED INCOME REVIEW

Pakistan's fixed income market underwent a notable shift during FY26, transitioning from an easing environment toward a more cautious rate outlook. The market remained well supported during the first half, as easing inflation and expectations of monetary easing drove a broad based decline in government bond yields. The decline was most pronounced at the shorter end following the December policy rate cut, while strong demand for longer-tenor securities reflected expectations of further easing and supported a decline in yields across the sovereign curve. This environment provided favorable conditions for fixed income investors, with falling yields supporting mark-to-market gains on existing holdings.

Market conditions changed materially toward the end of FY26 as the escalation in Middle East tensions and the resulting surge in global oil prices raised concerns over inflation and the external account. The resulting shift in rate expectations triggered a sharp repricing of government securities, with secondary market yields rising across maturities. By March end, yields had increased by 100 to over 200 bps across tenors, with the adjustment more notable at the longer end, while the April MPC review indicated a cumulative upward shift since the onset of the Middle East conflict. Despite the reversal, the market remained supported by strong domestic liquidity and continued government borrowing requirements, with yields ending the year reflecting a more cautious inflation and interest rate outlook. Overall, the fixed income market transitioned from a duration and capital gain environment toward a more carry focused and selective positioning, with the outlook increasingly dependent on the trajectory of inflation, global commodity prices and the SBP's monetary policy response.

Primary market activity remained robust during the period, reflecting continued reliance on domestic debt markets for fiscal financing. During FY26, the SBP conducted twenty-six (26) Market Treasury Bill (MTB) auctions, through which the government raised PKR 21.64 tn, exceeding the target of PKR 19.53 tn. The weighted average yields for 3-, 6-, and 12-month MTBs stood at 11.00%, 11.00%, and 11.19%, respectively, reflecting significant declines of 297 bps, 277 bps, and 222 bps compared with 13.97%, 13.77%, and 13.42% in the corresponding period last year. The weighted average yield on 1-month MTBs averaged 10.90% during the period.

To meet longer-term funding requirements, the SBP also conducted twelve (12) auctions of fixed-rate Pakistan Investment Bonds (PIBs) and raised PKR 6.24 tn. The weighted average yields for 3-, 5-, and 10-year PIBs declined to 11.35%, 11.56%, and 11.80%, respectively, representing a compression of 165 bps, 155 bps, and 128 bps compared with 13.00%, 13.12%, and 13.08% in the corresponding period last year.

In the Shariah-compliant segment, eighteen (18) GOP Ijara Sukuk auctions were conducted through the Pakistan Stock Exchange, covering Variable Rental Rate (VRR), Fixed Rental Rate (FRR), and Fixed Rate Discounted (FRD) instruments. The auctions raised PKR 3.30 tn against a target of PKR 4.05 tn.

Looking ahead, under the auction target calendars for August–October 2026, the SBP plans to raise PKR 4.10 tn through 1- to 12-month MTBs against maturities of PKR 5.32 tn. In addition, the SBP targets raising PKR 1.30tn through 2- to 15-year fixed-rate PIBs against maturities of PKR 307 bn.

FUTURE OUTLOOK

As Pakistan enters FY27, the macro-financial environment presents a stronger starting point than in recent years, although the recovery remains exposed to a challenging external backdrop. The stabilization achieved during FY26, supported by fiscal consolidation, stronger external buffers, resilient remittances and continued progress under the IMF programme, has materially improved policy credibility and the economy's capacity to absorb external shocks. However, the resurgence in inflation and reversal of the monetary easing cycle highlight that the stabilization process remains vulnerable. Inflation is expected to remain above the SBP's medium-term target range in the near term, while the IMF projects average inflation of around 8.4% in FY27. The policy environment is therefore likely to remain cautious, with the balance between supporting economic activity and preserving price and external stability remaining central to the outlook.

Pakistan's evolving geopolitical role represents an increasingly important strategic dimension of the FY27 outlook. Islamabad's facilitation of US–Iran dialogue, together with its engagement with Saudi Arabia and other regional partners, has elevated Pakistan's diplomatic relevance at a time when regional stability remains critical to global energy markets. This positioning has been reinforced by expanding defence relationships. The Pakistan–Saudi Strategic Mutual Defence Agreement, signed in September 2025, strengthened the bilateral security framework by providing that aggression against either country would be considered aggression against both. Notably, post-year-end developments have further broadened Pakistan's regional defence engagements. On August 7, 2026, Pakistan, Saudi Arabia and Türkiye signed the Makkah Joint Defence Agreement, which provides that an armed attack against any one of the three countries shall be regarded as an attack against all and calls for enhanced defence cooperation among the three states while other regional partners have incidentally indicated their interests for an understanding of joint defence cooperation given the heightened security risks in the region.

These developments could enhance Pakistan's strategic relevance and create longer-term opportunities in defence, investment, energy and regional trade. Kuwait has also completed the ratification of its 2023 Defence Cooperation Agreement with Pakistan, which is now fully operational and provides for closer military cooperation, including training and joint exercises. Nevertheless, the economic benefits of this broader geopolitical positioning should be viewed as a medium-term opportunity rather than an immediate macroeconomic catalyst. Their eventual impact will depend on Pakistan's ability to translate stronger strategic relationships into tangible investment, trade, defence-industry cooperation and external financing flows, while maintaining balanced relations with major regional and global partners.

From a macroeconomic perspective, Pakistan's high dependence on imported energy leaves the economy vulnerable to renewed regional disruptions, while sustained oil price pressures could weigh in on inflation, the current account and corporate margins. Maintaining monetary and fiscal discipline, exchange-rate flexibility and continued reserve accumulation will therefore remain critical to preserving recent stabilization gains. Stronger reserves, continued IMF engagement and improved fiscal fundamentals provide a more credible buffer against external shocks, while the IMF continues to emphasize sound policies and structural reforms to strengthen resilience.

Against this backdrop, we expect financial markets to remain positive but increasingly selective. Equities should benefit from improving earnings visibility, macroeconomic normalization and relatively attractive valuations, although geopolitical and commodity-price risks may sustain intermittent volatility. In fixed income, elevated policy rates and government security yields offer an attractive carry environment, while duration gains will depend on sustained disinflation and greater clarity on the monetary policy cycle. The SBP has maintained the policy rate at 11.50% into FY27 as far, with July money market rates broadly aligned with the prevailing stance. Overall, FY27 is likely to mark a shift toward a more fundamentals-driven investment environment, with earnings growth, carry and security selection becoming increasingly important sources of returns. Key upside catalysts include sustained macroeconomic stability, easing regional tensions, stronger external inflows and translating Pakistan's improving strategic position into tangible economic activity, while renewed energy-price shocks, persistent inflation and weaker external demand remain the principal risks.

INDEPENDENT ASSURANCE REPORT ON COMPLIANCE WITH THE SHARIAH GOVERNANCE REGULATIONS, 2023

TO THE BOARD OF DIRECTORS OF AKD INVESTMENT MANAGEMENT LIMITED

1. INTRODUCTION

We have undertaken a reasonable assurance engagement that the Securities and Exchange Commission of Pakistan (the SECP) has required in terms of its Shariah Governance Regulations, 2023 (the Regulations) - External Shariah Audit of ***AKD Islamic Cash Fund (Formerly AKD Islamic Daily Dividend Fund) (the Fund)*** managed by ***AKD Investment Management Limited (the Management Company)*** for assessing compliance of the Fund financial arrangements, contracts, and transactions having Shariah implications with Shariah principles for the year ended 30 June 2026. This engagement was conducted by a multidisciplinary team including assurance practitioners and independent Shariah scholar

2. APPLICABLE CRITERIA

The criteria for the assurance engagement, against which the underlying subject matter (financial arrangements, contracts, and transactions having Shariah implications for the year ended 30 June 2026) is assessed, comprise of the Shariah principles and rules, as defined in the Regulations and reproduced as under;

1) Essentials, Regulations, Instructions and Guidelines Issued by the SECP;
2) The rulings of Central Shariah Board as notified by the SECP;
3) Requirements of the applicable Islamic Financial Accounting Standards as notified by the SECP;
4) Approvals and rulings given by the Shariah Board (SB) directives, regulations, instructions and guidelines issued in accordance with the rulings of SECP's Shariah Board.

The above criteria were evaluated, for their implications on the financial statements of the Fund for the year ended 30 June 2026.

3. MANAGEMENT'S RESPONSIBILITY FOR SHARIAH COMPLIANCE

Management is responsible to ensure that the financial arrangements, contracts and transactions having Shariah implications, entered into by the Fund with its unitholders, other financial institutions and stakeholders and related policies and procedures are, in substance and in their legal form, in compliance with the requirements of Shariah rules and principles. The management is also responsible for design, implementation and maintenance of appropriate internal control procedures with respect to such compliance and maintenance of relevant accounting records.

4. OUR INDEPENDENCE AND QUALITY MANAGEMENT

We have complied with the independence and other ethical requirements of the Code of Ethics for Chartered Accountants issued by the Institute of Chartered Accountants of Pakistan, which is founded on fundamental principles of integrity, objectivity, professional competence and due care, confidentiality and professional behavior.

The firm applies International Standard on Quality Management (ISQM) 1 "Quality Management for forms that perform Audit or Reviews of Financial Statements, or Other Assurance or Related Services Engagements"

which requires the firm to design, implement and operate a system of quality management including policies or procedures regarding compliance with ethical requirements, professional standards and applicable Legal and regulatory requirements.

5. OUR RESPONSIBILITY AND SUMMARY OF THE WORK PERFORMED

Our responsibility in connection with this engagement is to express an opinion on compliance of the Fund financial arrangements, contracts, and transactions having Shariah implications with Shariah principles, in all material respects, for the year ended 30 June 2026 based on the evidence we have obtained. We conducted our reasonable assurance engagement in accordance with International Standard on Assurance Engagements 3000, ' Assurance Engagements other than audits or reviews of historical financial statements', issued by the International Auditing and Assurance Standards Board. That standard requires that we plan and perform this engagement to obtain reasonable assurance about whether the compliance of the Fund financial arrangements, contracts, and transactions having Shariah implications with Shariah principles is free from material misstatement

The procedures selected by us for the engagement depend on our judgement, including the assessment of the risks of material non-compliance with the Shariah principles. In making those risk assessments, we considered and tested the internal control relevant to the Fund compliance with the Shariah principles in order to design procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund internal control. We have designed and performed necessary verification procedures on various financial arrangements, transactions having Shariah implications and related policies and procedures based on judgmental and systematic samples with regard to the compliance of Shariah principles (criteria specified in para 2 above).

We believe that the evidence we have obtained through performing our procedures were sufficient and appropriate to provide a basis for our opinion.

6. CONCLUSION

Based on our reasonable assurance engagement we report that in our opinion, the Fund overall financial arrangements, contracts, transactions for the year ended 30 June 2026, are in compliance with the Shariah rules and principles, in all material respects.

The engagement partner on the audit resulting in this independent auditors' report is Junaid Ashraf.

INDEPENDENT AUDITOR'S REPORT

To the Unit Holders of AKD Islamic Cash Fund (Formerly AKD Islamic Daily Dividend Fund)

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of AKD Islamic Cash Fund (Formerly AKD Islamic Daily Dividend Fund) ("the Fund"), which comprise the statement of assets and liabilities as at 30 June 2026 and the related income statement, statement of comprehensive income, statement of movement in unit holders' fund and cash flow statement for the year then ended, and notes to the financial statements, including material accounting policy information.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of the Fund as at 30 June 2026 and of its financial performance, and its cash flows for the year then ended in accordance with the approved accounting and reporting standards as applicable in Pakistan.

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs) as applicable in Pakistan. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Fund in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants as adopted by the Institute of Chartered Accountants of Pakistan (the Code) together with the ethical requirements that are relevant to our audit of the financial statements in Pakistan, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matter

Key audit matter is the matter that, in our professional judgment, was of most significance in our audit of the financial statements of the current period. This matter was addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on this matter.

Following is the key audit matter:

S.No	Key audit matter	How the matter was addressed in our audit
1)	**Existence and valuation of investments:**	
	Investment portfolio of the Fund makes up 58% of total assets and of the Fund. Investment portfolio of the Fund comprises of debt investments. For further information, refer to the following:	Our audit procedures included the following, but were not limited to: i) walked through the valuation processes and understood the systems and controls implemented;

S.No	Key audit matter	How the matter was addressed in our audit
	- Investments note 4 to the financial statements. We have identified the existence, rights and valuation of the Fund's investments as a key audit matter as the investment is a significant driver of the net assets value of the Fund and of its total return.	ii) evaluated the Fund's investment valuation policies with reference to the requirements of the applicable accounting and reporting standards; iii) agreed holding of all investments from the account balance report of Central Depository Company of Pakistan Limited; iv) agreed the valuation of all listed debt instruments from prices quoted on Mutual Fund Association of Pakistan (MUFAP); v) performed verification procedures on purchases and disposals on a sample of investments during the year regarding movement of the securities; and vi) any difference identified during the testing that were over acceptable threshold were investigated further.

Information Other than the Financial Statements and Auditor's Report Thereon

Management is responsible for the other information. The other information comprises the information included in the annual report but does not include the financial statements of the Fund and our auditor's report thereon.

Our opinion on the financial statements of the Fund does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements of the Fund, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements of the Fund for our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management Company is responsible for the preparation and fair presentation of the financial statements in accordance with the accounting and reporting standards as applicable in Pakistan and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, Management Company is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going

concern basis of accounting unless the management either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

Those charged with governance of the Management Company are responsible for overseeing the Fund's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs as applicable in Pakistan, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Management Company's internal control.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Management Company.

- Conclude on the appropriateness of Management Company's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance of Management Company regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance of Management Company with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all

relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance of the Management Company, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

In our opinion, the financial statements have been prepared, in all material respect, in accordance with the relevant provisions of the Non-Banking Finance Companies (Establishment and Regulation) Rules, 2003 and Non-Banking Finance Companies and Notified Entities Regulations, 2008.

The engagement partner on the audit resulting in this independent auditor's report is Junaid Ashraf.

AKD ISLAMIC CASH FUND
(FORMERLY AKD ISLAMIC DAILY DIVIDEND FUND)
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2026

1. LEGAL STATUS AND NATURE OF BUSINESS

AKD Islamic Cash Fund (the Fund), formerly known as AKD Islamic Daily Dividend Fund, was established under a Trust Deed executed between AKD Investment Management Limited (AKDIML) as the Management Company and the Central Depository Company of Pakistan Limited (CDC) as the Trustee. During the year, the name of the Fund was changed from AKD Islamic Daily Dividend Fund to AKD Islamic Cash Fund pursuant to the approval of the Securities and Exchange Commission of Pakistan (SECP) dated 17 March 2025. The change in the name of the Fund was incorporated through the First Supplemental Trust Deed.The SECP authorized constitution of the Trust Deed on 10 November 2021 in accordance with the Non-Banking Finance Companies (Establishment and Regulation) Rules, 2003 (NBFC Rules). The Initial Public Offering (IPO) of the Fund was made on 17 February 2023. The Fund commenced operations from 18 February 2023. In accordance with the Trust Deed, the first accounting period of the Fund commenced on the date on which the Fund property was first transferred to the Trustee i.e. 18 February 2023.

1.1 The Management Company of the Fund has been registered as a Non-Banking Finance Company (NBFC) under the NBFC Rules 2003 and has obtained the requisite license from the SECP to undertake Asset Management Services. The registered office of the Management Company is situated at 216-217, Continental Trade Centre, Block-8, Clifton, Karachi, in the province of Sindh.

1.2 The Fund is an open-ended mutual fund and offers units for public subscription on a continuous basis. The units are transferable and can also be redeemed by surrendering to the Fund. The Fund is listed on the Pakistan Stock Exchange Limited.

1.3 The Fund is categorized as 'Money Market Fund' as per circular 7 of 2008 by SECP. The principal activity of the Fund is to make investments in government securities, treasury bills, cash and near cash instruments, money market placements, deposits with banks, certificate of deposits, certificate of musharakas, commercial papers and reverse repos.

1.4 The title to the assets of the Fund are held in the name of Central Depository Company of Pakistan Limited as a Trustee of the Fund.

1.5 The Management Company has been assigned a quality rating of "AM2" by the Pakistan Credit Rating Agency Limited (PACRA) dated 07 May 2026 (30 June 2025: "AM2" dated 7 May 2025). The Fund has maintained stability rating of 'AA(f) by PACRA dated 12 Jun 2026 (30 June 2025: 'AA(f)' dated 18 July 2025).

1.6 The AKD Islamic Cash Fund (the Fund) is established through a Trust Deed (the Deed) registration # KAR/ST/194-2021dated 10 November 2021 under the Sindh Trusts Act, 2020.

1.7 The Fund is categorized as an open ended Shariah Complaint (Islamic) Income Scheme in accordance with Circular 7 of 2009, issued by the Securities and Exchange Commission of Pakistan (SECP). Al-Hilal Shariah Advisors (Private) Limited acts as its Shariah Advisor to ensure that the activities of the Fund are in compliance with the principles of Shariah.

2. MATERIAL ACCOUNTING POLICY INFORMATION

The material accounting policy information applied in the preparation of these financial statements are set our below. These policies have been consistently applied to all years presented, unless otherwise stated:

2.1 BASIS OF PREPARATION

a) Statement of compliance

These financial statements have been prepared in accordance with the accounting and reporting standards as applicable in Pakistan. The accounting and reporting standards applicable in Pakistan comprise of:

- International Financial Reporting Standards (IFRS) issued by the International Accounting Standards Board (IASB) as notified under the Companies Act, 2017;
- Provisions of and directives issued under the Companies Act, 2017; and
- Non-Banking Finance Companies (Establishment and Regulations) Rules, 2003 (the NBFC Rules), Non-Banking Finance Companies and Notified Entities Regulations, 2008 (the NBFC Regulations) and requirements of the Trust Deed.

Where provisions of and directives issued under the Companies Act, 2017, the NBFC Rules, the NBFC Regulations and requirements of the Trust Deed differ from the IFRS, the provisions of and directives issued under the Companies Act, 2017, part VIIIA of the repealed Companies Ordinance 1984, the NBFC Rules, the NBFC Regulation and requirements of the Trust Deed have been followed.

b) Accounting convention

These financial statements have been prepared under the historical cost convention, except for the investments which are measured at fair value.

c) Functional and presentation currency

These financial statements have been presented in Pakistani Rupees, which is the Fund's functional and presentation currency. The amounts are rounded off to the nearest thousand rupees except stated otherwise.

d) Critical accounting estimates and judgments

The preparation of the financial statements in conformity with the accounting and reporting standards as applicable in Pakistan requires the management to make estimates, judgments and assumptions that affect the application of policies and reported amount of assets, liabilities, income and expenses. It also requires the management to exercise judgment in application of its accounting policies. The estimates, judgments and associated assumptions are based on the historical experience and various other factors including expectations of future events that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. The estimates and underlying assumptions are reviewed on an ongoing basis. Actual results may differ from these estimates. Revisions to accounting estimates are recognized in the year in which the estimates are revised if the revision affects only that year, or in the year of revision and future years if the revision affects both current and future years.

The areas involving a higher degree of judgment or complexity, or areas where estimates and assumptions are significant to the financial statements as a whole are as follows:

a) Classification and valuation of financial assets	Note 2.2.1
b) Impairment of financial assets	Note 2.6
c) Provisions	Note 2.12
d) Taxation	Note 2.13
e) Contingencies and commitments	Note 12

e) **Amendments to published approved accounting standards that are effective in current year and are relevant to the Fund**

Following amendments to published approved accounting standards are mandatory for the Fund accounting periods beginning on or after 01 July 2025:

- Amendments to IAS 21 'The Effects of Changes in Foreign Exchange Rates' – Lack of Exchangeability.

The above-mentioned amendments to approved accounting standards did not have any impact on the amounts recognized in prior period and are not expected to significantly affect the current or future periods.

f) **Amendments to published approved accounting standards that are effective in current year but not relevant to the Fund**

There are amendments to published standards that are mandatory for accounting periods beginning on or after 01 July 2025 but are considered not to be relevant or do not have any significant impact on the Fund financial statements and are therefore not detailed in these financial statements.

g) **Standards, amendments and improvements to published approved accounting standards that are not yet effective but relevant to the Fund**

Following standards, amendments and improvements to existing standards have been published and are mandatory for the Fund accounting periods beginning on or after 01 July 2026 or later periods:

IFRS 18 'Presentation and Disclosure in Financial Statements' (effective for annual periods beginning on or after 01 January 2027) with a focus on updates to the statement of profit or loss. The objective of IFRS 18 is to set out requirements for the presentation and disclosure of information in general purpose financial statements to help ensure they provide relevant information that faithfully represents an entity's assets, liabilities, equity, income and expenses. The key new concepts introduced in IFRS 18 relate to: the structure of the statement of profit or loss; required disclosures in the financial statements for certain profit or loss performance measures that are reported outside an entity's financial statements (that is, management-defined performance measures); and enhanced principles on aggregation and disaggregation which apply to the primary financial statements and notes in general. IFRS 18 will replace IAS 1; many of the other existing principles in IAS 1 are retained, with limited changes. IFRS 18 will not impact the recognition or measurement of items in the financial statements, but it might change what an entity reports as its 'operating profit or loss'.

IFRS S1 'General Requirements for Disclosure of Sustainability-related Financial Information'. IFRS S1 sets out overall requirements for sustainability-related financial disclosures with the objective of requiring an entity to disclose information about its sustainability-related risks and opportunities that is useful to primary users of general-purpose financial reports in making decisions relating to providing resources to the entity.

IFRS S2 'Climate-related Disclosures'. IFRS S2 sets out the requirements for identifying, measuring and disclosing information about climate-related risks and opportunities that is useful to primary users of general-purpose financial reports in making decisions relating to providing resources to the entity.

The implementation of IFRS S1 and IFRS S2 will be phased as per the SECP's order dated 31 December 2024, with different effective dates based on annual turnover, number of employees, and total assets (Criteria). Phase I will apply to listed companies having specific Criteria for annual reporting periods beginning on or after 1 July 2026. Phase II will apply to other listed companies having specific Criteria for annual reporting periods beginning on or after 1 July 2026. Phase III will cover non-listed public interest companies and remaining listed companies for annual reporting periods beginning on or after 1 July 2027.

Amendment to IFRS 7 'Financial Instruments: Disclosures' and IFRS 9 'Financial Instruments' – Classification and Measurement of Financial Instruments (effective for annual reporting periods beginning on or after 01 January 2026). These amendments clarify the requirements for the timing of recognition and derecognition of some financial assets and liabilities, with a new exception for some financial liabilities settled through an

electronic cash transfer system; clarify and add further guidance for assessing whether a financial asset meets the SPPI criterion; add new disclosures for certain instruments with contractual terms that can change cash flows; and make updates to the disclosures for equity instruments designated at FVTOCI.

Amendment to IFRS 7 'Financial Instruments: Disclosures' and IFRS 9 'Financial Instruments' – Contracts Referencing Nature-dependent Electricity (effective for annual reporting periods beginning on or after 01 January 2026). These amendments change the 'own use' and hedge accounting requirements of IFRS 9 and include targeted disclosure requirements to IFRS 7.

On 13 November 2025, the International Accounting Standards Board (IASB) issued Translation to a Hyperinflationary Presentation Currency (effective for annual reporting periods beginning on or after 1 January 2027), which amended IAS 21, The Effects of Changes in Foreign Exchange Rates. The amendments specify the translation procedures to be applied by an entity whose presentation currency is the currency of a hyperinflationary economy. The amendments also introduce additional disclosure requirements to enable users of financial statements to understand the effects of translating financial information into a hyperinflationary presentation currency.

The International Accounting Standards Board (IASB) has published 'Annual Improvements to IFRS Accounting Standards — Volume 11'. The amendments are effective for annual reporting periods beginning on or after 01 January 2026. It contains amendments to following five standards as result of the IASB's annual improvements project.

- IFRS 1 *First-time Adoption of International Financial Reporting Standards*;
- IFRS 7 Financial Instruments: Disclosures and its accompanying Guidance on implementing IFRS 7;
- IFRS 9 Financial Instruments.
- IFRS 10 Consolidated Financial Statements; and
- IAS 7 Statement of Cash flows.

The above standards, amendments and improvements are likely to have no significant impact on the financial statements.

h) Standards and amendments to approved published standards that are not yet effective and not considered relevant to the Fund

There are other standards and amendments to published standards that are mandatory for accounting periods beginning on or after 01 July 2026 but are considered not to be relevant or do not have any significant impact on the Fund financial statements and are therefore not detailed in these financial statements.

2.2 Financial instruments

2.2.1 Classification of financial assets

IFRS 9 contains three principal classification categories for financial assets:

- Amortized cost ("AC"),
- Fair value through other comprehensive income ("FVOCI"); and
- Fair value through profit or loss ("FVTPL").

However, IFRS 9 also provides an option whereby securities managed as a portfolio or group of assets and whose performance is measured on a fair value basis, to be recognized at FVTPL. The Fund is primarily focused on fair value information and uses that information to assess the assets' performance and to make decisions. Therefore the management considers its investment in long term debt securities as classified them as FVTPL.

2.2.2 Financial assets at amortized cost

A financial asset is measured at amortized cost if it meets both of the following conditions and is not designated as FVTPL:

1) the asset is held within a business model whose objective is to hold assets to collect contractual cash flows; and

2) the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

2.2.3 Financial assets at FVOCI

A financial asset is measured at FVOCI only if it meets both of the following conditions and is not designated as FVTPL:

1) the asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets; and

2) the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

On initial recognition, for an equity investment that is not held for trading, the Fund may irrevocably elect to present subsequent changes in fair value in Other Comprehensive Income (OCI), only dividend income is recognized in income statement. This election is made on an investment-by-investment basis.

2.2.4 Financial assets at FVTPL

All other financial assets are classified at FVTPL (for example: equity held for trading and debt securities not classified either as AC or FVOCI).

In addition, on initial recognition, the Fund may irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortized cost or at FVOCI as at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

2.2.5 Recognition and initial measurement of financial instruments

Financial assets and financial liabilities are recognised in the Fund's statement of assets and liabilities when the Fund becomes a party to the contractual provisions of the instrument. Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in the income statement.

2.3 Subsequent measurement of financial assets

2.3.1 Financial assets at amortised cost

Financial assets at amortised cost are subsequently measured at amortised cost. Amortised cost is calculated using the effective interest rate method. The effective interest rate is the rate that exactly discounts estimated future cash receipts through the expected life of the financial instrument to the net carrying amount of the financial asset.

2.3.2 Financial assets at FVOCI

All financial assets at FVOCI are subsequently measured at fair value with gains and losses arising due to changes in fair value recognised in other comprehensive income.

For debt instruments classified as financial assets at FVOCI, the amounts already recognised in other comprehensive income are reclassified to income statement on derecognition of financial assets. This treatment is in contrast to equity instruments classified as financial assets at FVOCI, where there is no reclassification on derecognition.

2.3.3 Financial assets at FVTPL

All financial assets designated at fair value through profit or loss are subsequently carried at fair value, with gains and losses arising from changes in fair value recorded in the income statement.

2.4 Fair value measurement principles and provision

The fair value of financial instruments is determined as follows:

2.5 Basis of valuation of equity instruments:

The fair value of shares of listed companies is based on their prices quoted on the Pakistan Stock Exchange Limited at the reporting date without any deduction for estimated future selling costs.

2.6 Impairment of financial assets

Under expected credit loss (ECL) model of IFRS 9, the Fund recognises loss allowances on financial assets other than debt securities. The Fund measures loss allowances at an amount equal to lifetime ECL, except for the following, which are measured at 12-month ECL:

- Financial assets that are determined to have low credit risk at the reporting date; and
- Other financial assets for which credit risk (i.e. the risk of default occurring over the expected life of the asset) has not increased significantly since initial recognition.

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating ECL, the Fund considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Fund's historical experience and informed credit assessment and including forward-looking information.

2.7 Classification and measurement of financial liabilities

Under IFRS 9, financial liabilities initially recognized at amortized cost (AC) are measured at fair value, adjusted for directly attributable transaction costs. For liabilities at fair value through profit or loss (FVTPL), they are recognized at fair value, but any transaction costs are expensed immediately rather than included in the liability's initial value.

2.8 Derecognition

Financial assets are derecognized when the rights to receive cash flows from the financial assets have expired or where the entity has transferred substantially all risks and rewards of ownership.

Financial liability is derecognized when the obligation specified in the contract is discharged, cancelled or expired.

2.9 Regular way contracts

All regular purchases and sales of investments are recognized on the trade date, i.e. the date on which commitment to purchase / sale is made by the Fund. Regular way purchases or sales of investment require delivery of securities within two days after transaction date as required by stock exchange regulations.

2.10 Offsetting of financial assets and liabilities

Financial assets and financial liabilities are offset and the net amount is reported in the statement of assets and liabilities when there is a legally enforceable right to set off the recognized amounts and there is an intention to settle on a net basis, or to realize the assets and settle the liabilities simultaneously.

2.11 Cash and cash equivalents

Cash and cash equivalents comprise of bank balances and short term highly liquid investments with original maturity of three months or less, are readily convertible to known amounts of cash, are subject to an insignificant risk of changes in value, and are held for the purpose of meeting short term cash commitments rather than for investments and other purposes.

2.12 Provisions

Provisions are recognized when the Fund has a present, legal or constructive obligation as a result of past events, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate of the amount of obligation can be made. Provisions are regularly reviewed and adjusted to reflect the current best estimate.

2.13 Taxation

The income of the Fund is exempt from income tax under clause 99 of Part I of the Second Schedule to the Income Tax Ordinance, 2001 subject to the condition that not less than 90% of its accounting income for the year, as reduced by capital gains, whether realized or unrealized, is distributed in cash to the unit holders.

The Fund is also exempt from the provisions of Section 113 (Minimum Tax) under clause 11A of Part IV of the Second Schedule to the Income Tax Ordinance, 2001'.

The Fund does not account for deferred tax in these financial statements as the Fund intends to continue availing the tax exemption in future years by distributing in cash at least 90% of its accounting income for the year as reduced by capital gains, whether realized or unrealized, to its unit holders.

2.14 Dividend distribution and appropriations to unit holder's

Dividend distributions and appropriations are recorded in the year in which these are approved by the Board of Directors of the Management Fund. Based on the Mutual Funds Association of Pakistan's (MUFAP) guidelines (duly consented by the SECP) distribution for the year is deemed to comprise of the portion of income already paid on units redeemed during the year and cash distribution for the year.

Regulation 63 of the NBFC Regulations requires the Fund to distribute at least 90% of the net accounting income other than capital gains to the unit holders.

Distributions declared subsequent to the year end reporting date are considered as non-adjusting events and are recognized in the financial statements of the year in which such distributions are declared and approved by the Board of Directors of the Management Fund.

2.15 Issue and redemption of units

Units issued are recorded at the offer price, determined by the Management Fund for the applications received by the distributors during business hours on that date. The offer price represents the net asset value per unit as of the close of the business day plus the allowable sales load and any provision for duties and charges, if applicable. The sales load is payable to investment facilitators, distributors and the Management Fund.

Units redeemed are recorded at the redemption price, applicable to units for which the distributors receive redemption applications during business hours of that day. The redemption price represents the net asset value per unit as of the close of the business day less any back-end load, any duties, taxes, and charges on redemption, if applicable.

2.16 Element of income / (loss) and capital gains / (losses) included in prices of units issued less those in units redeemed

Element of income represents the difference between net assets value per unit on the issuance or redemption date, as the case may be, of units and the net assets value per unit at the beginning of the relevant accounting year. Further, the element of income is a transaction of capital nature and the receipt and payment of element of income is taken to unit holders' fund. However, to maintain the same ex-dividend net asset value of all units outstanding on the accounting date, net element of income contributed on issue of units lying in unit holders fund is refunded on units in the same proportion as dividend bears to accounting income available for distribution.

2.17 Earnings per unit

Earnings per unit (EPU) has not been disclosed as in the opinion of the management determination of weighted average units for calculating EPU is not practicable.

2.18 Net assets value per unit

The net assets value (NAV) per unit as disclosed in the statement of assets and liabilities is calculated by dividing the net asset of the Fund by the number of units in issue at the year end.

2.19 Revenue recognition

- Capital gain or loss on sale of investments is accounted for in the income statement on the date at which the sale transaction takes place.
- Un-realized gain / loss arising on measurement of investments classified as 'fair value through profit or loss' is included in the income statement in the year in which it arises.
- Dividend income from equity securities is recognized when the right to receive dividend is established.
- Profit on bank deposits is recognized on time proportionate basis using effective yield method.

2.20 Expenses

All expenses including NAV based expenses (namely management fee, trustee fee, annual fee payable to the SECP, and selling and marketing expense) are recognised in the income statement on an accrual basis.

15. TAXATION

The income of the Fund is exempt from income tax under clause (99) of part I of the Second Schedule to the Income Tax Ordinance, 2001 subject to the condition that not less than 90% of the accounting income for the year as reduced by capital gains, whether realised or unrealised, is distributed amongst the unit holders as cash dividend. Furthermore, as per Regulation 63 of the Non-Banking Finance Companies and Notified Entities Regulations, 2008, the Fund is required to distribute not less than 90% of its accounting income for the year derived from sources other than capital gains as reduced by such expenses as are chargeable thereon to the unit holders. Since the management has distributed the required minimum percentage of income earned by the Fund for the year ended June 30, 2026 to the unit holders in the manner as explained above, no provision for taxation has been made in these financial statements during the year.

The Fund is also exempt from the provisions of Section 113 (minimum tax) under clause 11A of part IV of the Second Schedule to the Income Tax Ordinance, 2001.

16. EARNING PER UNIT

Earning / (loss) per unit is calculated by dividing the net profit / (loss) of the year after taxation of the fund by the weighted average number of units outstanding during the year.

Earning per unit (EPU) has not been disclosed as in the opinion of the management, determination of weighted average units for calculating EPU is not practicable.

17. TOTAL EXPENSE RATIO

The total expense ratio of the Fund is 1.64% (2025: 1.25%) and this includes 0.06% (2025: 0.09%) representing Government levy and SECP fee. The ratio of the previous year is within the maximum limit of 1.5% as prescribed under the NBFC Regulations for a collective investment scheme categorised as a 'Shariah Compliant Money Market Scheme'.

The SECP, vide S.R.O. 600(I)/2025 dated 10 April 2025, has removed the Total Expense Ratio (TER) limit with effect from 01 July 2025. The TER limit of 1.5% for a collective investment scheme categorised as 'Money Market Scheme', applicable previously, has been replaced with the management fee cap for a collective investment scheme categorised as 'Shariah Money Market Scheme' as disclosed in note 8.1 to these financial statements.

As per the requirement of Regulation 60(6) of the NBFC regulation, 2008 the total expense ratio is as follows:

The annualized total expense ratio of the Fund as at 30 June 2026 is as follows:

Management Fee	Regulatory Fee	Trustee Fee	Levies and Taxes	Transaction Expenses (Broker, Banks, PSX, CDC, NCCPL, etc.)	Third Party Expenses (Auditor, Rating Agency, Legal, Shariah Advisory)	Other Expenses	TER with Levies	TER without Levies
0.25%	0.075%	0.05%	0.06%	0.04%	0.17%	0.98%	1.64%	1.57%

18. TOTAL DISTRIBUTION

The Fund makes distribution on daily basis as per clause 16.2 of the Trust Deed and clause 5.1 of the Offering Document and re-invests the distributed dividend as per clause 5.1 of the Offering Document for the period from 01 July 2025 to 31 August 2025. During that period, the Management Company on behalf of the Fund, has distributed total profit earned in that period amounting to Rs 4,168 (thousand) as dividend after deducting applicable taxes.

21. FINANCIAL RISK MANAGEMENT

The Fund's overall risk management programme focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the Fund's financial performance.

The fund's activities expose it to a variety of financial risks: market risk (including currency risk, profit rate and other price risk), credit risk and liquidity risk. Risks of the fund are being managed by the management company in accordance with the approved policies of the investment committee which provides broad guidelines for management of above mentioned risks. The Board of Directors of management company has overall responsibility for the establishment and oversight of the fund's risk management framework.

The Fund's financial assets primarily comprise of balances with banks, short term sukkuk classified at 'amortised cost' and GOP Ijara at 'fair value through profit or loss'. The fund also has profit receivable on bank deposit and deposits and dividend. The fund's principal financial liabilities include remuneration payable to the management company, the trustee and accrued and other liabilities.

21.1 Market risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of the changes in market prices.

The management company manages market risk by monitoring exposure in marketable securities by following the internal risk management policies and investment guidelines approved by the investment committee of the fund and the regulations laid down by the SECP, the NBFC Regulations and NBFC Rules.

Market risk comprises three types of risk: currency risk, interest rate risk and price risk.

21.1.1 Currency risk

Currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. The Fund, at present is not exposed to currency risk as its operations are geographically restricted to Pakistan and all transactions are carried out in Pakistan Rupees.

21.1.2 Profit rate risk

Profit rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate as a result of changes in market profit rates. As of 30 June 2026, the Fund is exposed to fair value profit rate risk on its bank balances, investment in short term sukuk, investment in musharakah / modarabah, investment in Bai Muajjal and GOP ijara Sukuks. The Investment Committee of the Fund reviews the portfolio of the Fund on regular basis to ensure risk is managed within the acceptable limits.

As of 30 June 2026, details of Fund's profit bearing financial instruments were as follows:

	2026	2025
	----- (Rupees in '000) -----	
Variable rate instruement (flanancial assets)		
Short term sukuks	**87,000**	43,000
GOP ijara sukuks	**-**	145,014
Cerificate of Musharakah / Mudarabah	**110,000**	-
Bai Muajjal	**424,738**	-
Bank balances - saving accounts	**447,672**	83,167
	1,069,410	271,181

a) Sensitivity analysis for variable rate instrument

At the reporting date the Fund has balances in saving accounts and investment in sukuks, commercial papers, certificates of musharakah / modarabah, investment in Bai Maujjal and Government securities on which profit rate ranges between 5.5% to 13.09% (2025: 6% to 12.12%) that could expose the Fund to cash flow profit rate risk. The net income in the income statement and statement of comprehensive income would have increased / (decreased) by Rs. 10.69 million (2025: Rs. 2.71 million) and consequently statement of of movement in unit holder's fund would be affected by the same amount, had the interest rates on saving accounts with the bank increased/(decreased) by 100 basis points. The analysis assumes that all other variables remain constant.

b) Sensitivity analysis for fixed rate instruments

At reporting date, the Fund does not hold any fixed rate instruments that could expose the Fund to fair value interest rate risk.

The composition of Fund's investment portfolio, KIBOR rates and rates announced by Financia Market Association is expected to change over time. Therefore, the sensitivity analysis prepared as of 30 June 2026 is not necessarily indicative of the effect on the Fund's net assets and net income due to future movements in interest rates.

Exposure to profit rate risk and maturity

Profit rate sensitivity position for on balance sheet financial instruments is based on the earlier of contractual repricing or maturity date and for off-balance sheet instruments is based on the settlement date.

21.1.3 Price risk

Price risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate as result of changes in market prices (other than those arising from profit rate risk or currency risk) whether those changes are caused by the factors specific to the individual financial instrument or its issuer, or factors affecting all similar financial instruments traded in the market. Since the Fund does not have equity securities at year end, therefore the Fund is not exposed to equity price risk.

21.2 Credit risk

Credit risk represents the risk of a loss if the counterparties fail to perform as contracted. The Fund's credit risk mainly arises from Bank Balances, Investments, deposits and profit receivable.

Management of credit risk

The Fund keeps deposits and performs transactions with reputed financial institutions with reasonably high credit ratings. The Fund has adopted a policy of only dealing with creditworthy counterparties as a means of mitigating the risk of financial loss from defaults. This information is supplied by independent rating agencies, where available, and if not available, the Fund uses other publicly available financial information and its own trading records to rate its major customers. The Fund's exposure and the credit ratings of its counterparties are continuously monitored and the aggregate value of transactions concluded is spread amongst approved counterparties.

Credit Risk from bank balances and financial institutions is managed in accordance with the Fund's policy. Investments of surplus funds are made only with approved counterparties and within credit limits assigned to each counterparty. Counterparty credit limits are approved by the Board of Directors of the management Company. The limits are set to minimize the concentration of risk and therefore mitigate financial loss through potential counterparty failure.

The Fund's maximum exposure to credit risk is the carrying amounts of following financial assets.

	2026		2025	
	Balance as per statement of assets and liabilities	Maximum exposure	Balance as per statement of assets and liabilities	Maximum exposure
	(Rupees in '000)			
Bank balances	447,672	447,672	83,167	83,167
Investments	622,701	622,701	188,014	188,014

	1,081,739	1,081,739	280,075	280,075

The analysis below summaries the credit rating quality of the fund's financial assets with banks as at 30 June 2026 and 30 June 2025:

Bank balances by rating category and profit receivable by rating category	Rating Agency	2026		2025	
		Rupees in '000	%	Rupees in '000	%
AA / A1+	VIS	447,627	100%	83,167	100%
AAA / A1+	PACRA	45	0%	-	0%
		447,672	100%	83,167	100%
Profit receivable on bank deposit					
AA / A1+	VIS	434	100%	242	100%

Above ratings are on the basis of available ratings assigned by PACRA & VIS as of 30 June 2026.

Balance with bank is assessed to have low credit risk of default since the bank is highly regulated by the State Bank of Pakistan. Accordingly, management of the fund estimates that loss allowance on balance with bank at the end of the reporting period at an amount equal to 12 month Expected Credit Loss (ECL). None of the balance with bank at the end of the reporting period is past due, and taking into account the historical default experience and the current credit ratings of the bank, the management of the fund have assessed that there is no impairment, and hence have not recorded any loss allowance on this balance.

Concentration of credit risk

Concentration of credit risk exists when changes in economic or industry factors similarly affect groups of counterparties whose aggregate credit exposure is significant in relation to the Fund's total credit exposure. The Fund's portfolio of financial instruments is mainly concentrated in equity securities which are diversified and relate to various sectors. The Fund's portfolio of other financial assets is broadly diversified and transactions are entered into with diverse credit worthy counterparties thereby mitigating any significant concentration of credit risk.

Settlement risk

The Fund's activities may give rise to risk at the time of settlement of transactions. Settlement risk is the risk of loss due to the failure of an entity to honor its obligations to deliver cash, securities or other assets as contractually agreed. For the vast majority of transactions the Fund mitigates this risk by conducting settlements through a broker to ensure that a trade is settled only when both parties have fulfilled their contractual settlement obligations.

21.3 Liquidity risk

Liquidity risk is the risk that the Fund will encounter difficulty in meeting obligations arising from its financial liabilities that are settled by delivering cash or another financial asset or such obligations will have to be settled in a manner disadvantageous to the Fund.

The Fund is exposed to daily cash redemptions, if any, at the option of unit holders. The Fund approach to managing liquidity is to ensure, as far as possible, that the Fund will always have sufficient liquidity to meet its liabilities when due under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Fund's reputation. Its policy is therefore to invest the majority of its assets in investments that are traded in an active market and can be readily disposed and are considered readily realisable.

In order to manage the Fund's overall liquidity, the Fund also has the ability to withhold daily redemption requests in excess of 10% of the units in issue and such requests would be treated as redemption requests qualifying for being processed on the next business day. Such procedure would continue until the outstanding redemption requests come down to a level below 10% of the units then in issue. The Fund did not withhold any redemptions during the current year.

The table below analyses the Fund's financial liabilities into relevant maturity groupings based on the remaining year at the reporting date to the contractual maturity date. The amounts in the table are the contractual undiscounted cash flows.

22. UNIT HOLDERS' FUND (UHF) RISK MANAGEMENT

The unit holders' fund is represented by the net assets attributable to unit holders / redeemable units. The amount of net assets attributable to unit holders can change significantly on a daily basis as the Fund is subject to daily issuance and redemptions at the discretion of unit holders. These unit holders of the Fund are entitled to distributions and to payment of a proportionate share based on the Fund's net asset value per unit on the redemption date. The relevant movements are shown on the statement of movement in unit holders' fund.

The Fund's objective when managing unit holders' fund is to safeguard the Fund's ability to continue as a going concern in order to provide returns for the benefits of the unit holders to maintain a strong base of assets to support the development of the investment activities of the Fund and to meet unexpected losses or opportunities. As required under the NBFC Regulations, every open end scheme shall maintain minimum fund size (i.e. net assets of the Fund) of Rs. 100 million at all times during the life of scheme. In order to comply with the requirement and to maintain or adjust the unit holders' fund, the Fund's policy is to perform the following:

- Monitor the level of daily issuance and redemptions relative to the liquid assets and adjust the amount of distributions the Fund pays to the unit holders;

- Redeem and issue units in accordance with the constitutive documents of the Fund. This includes the Fund's ability to restrict redemptions; and

- The Fund Manager / Investment Committee members and the Chief Executive Officer of the Management Company critically track the movement of 'Assets under Management'. The Board of Directors of the Management Company is updated regarding key performance indicators, e.g., yield and movement of NAV and total Fund size at the end of each quarter

The Fund has maintained and complied with the requirements of minimum fund size during the current year.

23. FAIR VALUE OF FINANCIAL INSTRUMENTS

IFRS 13 - 'Fair Value Measurement' establishes a single source of guidance under IFRS for all fair value measurements and disclosures about fair value measurement where such measurements are required as permitted by other IFRSs. It defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e. an exit price).

Financial assets which are tradable in an open market are revalued at the market prices prevailing on the close of trading i.e. period end date. The estimated fair value of all other financial assets and financial liabilities is considered not significantly different from book value as these are short term in nature.

The following table shows financial instruments recognised at fair value based on:

Level 1: quoted prices in active markets for identical assets or liabilities;

Level 2: those involving inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (as prices) or indirectly (derived from prices); and

Level 3: those with inputs for the asset or liability that are not based on observable market data (unobservable inputs).
