MACRO PERSPECTIVE

Since the onset of FY24, Pakistan's economic growth prospects have shown marked improvement, supported by prudent policy measures enacted by the Government and the successful completion of the IMF Stand-by Arrangement program. This progress has facilitated the resumption of inflows and the rollover of debt from multilateral and bilateral partners, alleviating pressure on the current account. As anticipated, the Country's real GDP growth reached 2.38% in FY24, reflecting ongoing challenges as inflation persisted above the target range and certain monetary and fiscal policy reforms implemented, which were necessary to ensure financial stability amid elevated external and domestic financing needs. This fiscal year also marks the initiation of the monetary easing cycle, following a considerable period

during which the State Bank of Pakistan (SBP) maintained a cautious monetary policy stance, keeping the policy rate at a historically high level of 22%.

In its last meeting on September 12, 2024, the Monetary Policy Committee (MPC) of the State Bank of Pakistan decided to further reduce the policy rate by 200 bps to 17.50%. The SBP premised its decision on sharp decline in inflation over preceding two months, which has somewhat outpaced the Committee's earlier expectations. This decline is primarily attributed to delays in implementing planned increases in administered energy prices, as well as favorable trends in global oil and food prices. In light of recent economic developments and potential risks to the inflation outlook, the MPC assessed that the real interest rate to still be adequately positive, positioning it to guide inflation toward the medium-term target of 5 – 7 percent and help ensure macroeconomic stability.

In August 2024, the National Consumer Price Index (NCPI) fell to a single-digit rate of 9.64% YoY, down from 11.09% in July 2024 and significantly lower than 27.38% in August 2023, taking the average inflation for the first two months of FY25 to 10.36%. On MoM basis, the NCPI increased by 0.39%, driven primarily by a 1.46% rise in the Food Index, attributed to higher prices of food items, and a general rise in prices across other sectors. Regionally, Urban and Rural CPI were recorded at 11.71% and 6.73%, respectively. While prices for food and other essential items saw an increase during the month, the overall CPI declined, influenced by a high base effect and a 1.40% reduction in the Housing Index on a MoM basis. Looking forward, inflation is projected to continue its downward trajectory, supported by a sufficiently tight fiscal and monetary policy.

On the external front, the current account recorded a surplus of USD 75 million in August 2024, compared to a revised deficit of USD 246 million in the previous month. This brings the Current Account Deficit (CAD) for the first two months of FY25 to USD 171 million, reflecting an impressive 81% reduction from USD 893 million during the same period last year. Furthermore, the CAD for FY24 was reported at USD 665 million, down significantly from USD 3.28 billion, marking an 80% YoY reduction. This noteworthy decline in the CAD is primarily driven by a decrease in the trade deficit with a marked increase in overseas workers' remittances and higher other current transfers. Total imports for FY24 amounted to USD 63.28 billion, a 3% increase compared to the previous year. However, this rise was more than offset by a significant increase in total exports, which reached USD 38.90 billion, reflecting a 10% YoY growth.

Moreover, a stable exchange rate has contributed to a boost in workers' remittances, which totaled USD 30.25 billion in FY24, representing an 11% increase from USD 27.33 billion in the same period last year. This improvement in the external sector indicates a positive momentum in trade and remittances, enhancing the country's balance of payments and overall economic stability.

According to the data released by the SBP, the foreign exchange reserves held by the central bank stood at USD 9.39 billion by the end of FY24, with the Country's liquid foreign exchange reserves reaching USD 14.00 billion. This marks a remarkable 53% increase since the beginning of the fiscal year. This surge can be primarily attributed to the disbursement of tranches under the IMF Stand-by Arrangement and other inflows from friendly countries. Additionally, this growth has been bolstered by an uptick in export

earnings and elevated overseas workers' remittances. This increase in reserves not only enhances the Country's ability to meet its external obligations but is also likely to strengthen investor confidence in Pakistan's economic prospects. Currently, the total liquid foreign exchange reserves are USD 14.87 billion as on September 20, 2024.

During FY24, the Federal Board of Revenue (FBR) collected PKR 9,306 billion, surpassing the ambitious assigned target of PKR 9,252 billion by a significant margin of PKR 54 billion, and registering a growth of 30% compared to the same period last year. With a tax collection target of PKR 9,252 trillion for FY24, ~29% higher from the previous year's collection, the FBR has been making continuous efforts such as broadening the tax base and imposing taxes on sectors historically under-taxed to achieve its goal. Meanwhile, the Government's fiscal policy has been centered on maintaining a primary balance surplus, demonstrating fiscal discipline and stability essential for continued support from international financial institutions.

The Government's persistent efforts to attract foreign investment, coupled with the relative stability in exchange rates, have yielded promising results so far, evident by the net foreign investments reaching USD 1,519 million in FY24, a significant growth of 153% YoY. Out of the total foreign inflows USD 2,022 million, China and Hong Kong accounted for USD 927 million, representing 46% of the total. Other significant investments originated from the United Kingdom, amounting to USD 286 million (14%), and the United States, contributing USD 184 million (9%). These figures indicate a diversified investor base and highlight the attractiveness of Pakistan's investment environment to major global players.

EQUITY MARKET REVIEW

During the fiscal year 2023-24, the Equity market delivered exceptional performance, gaining 36,992 points for an impressive return of 89.24%, with the benchmark index closing at 78,445 points. This strong performance was driven by several key factors. The market thrived on improving macroeconomic indicators, including a strengthening currency, amid essential measures taken by the government to ensure the country's long-term sustainability. Bullish sentiment was further fueled by the successful completion of the IMF Stand-by Arrangement, timely formation of a new government, and a notable decline in inflation reaching a 30-month low at 11.76% YoY in May 2024, contributing to a more stable economic environment.

The external account also showed significant improvement, with 80% YoY reduction in the current account deficit, alongside record high overseas workers' remittances of USD 3.24 billion in May 2024. Additionally, a roughly 3% appreciation of the rupee against the US dollar, the initiation of a reversal in the monetary cycle, and albeit tough budgetary measures pathing the way to continuity in IMF funding collectively boded well for the market sentiment.

During the period, investor participation exhibited a substantial increase of 138% YoY, with an average daily traded volume of 455 million shares, compared to 191 million shares in the same period last year. Foreign Investors Portfolio Investment (FIPI) also saw significant growth, recording net inflows of USD

140.77 million, a notable rise from USD 1.57 million in the previous year. Key sectors attracting foreign capital included Commercial Banks (USD 59.81 million), Fertilizer (USD 18.44 million), and Power Generation and Distribution (USD 16.48 million). Domestically, only Insurance Companies and Corporations were net buyers, with net purchases of USD 126.34 million and USD 35.65 million, respectively. Conversely, other domestic participants, including Banks/DFIs, Individuals, and Mutual Funds, emerged as major net sellers, with respective divestments of USD 141.29 million, USD 59.63 million, and USD 46.92 million.

In terms of sector performance, top gainers during the period were led by Commercial Banks (+114.78%), followed by Oil & Gas Exploration Companies (+72.53%), Food & Personal Care Products (+60.40%), Fertilizer (+65.35%), and Cement (+59.27%). Conversely, sectors experiencing declines included Chemical (-49.11%), Modarabas (-42.13%), Property (-6.54%), and Vanaspati & Allied Industries (-1.72%).

Over the past decade, the KSE-100 Index has yielded an annualized return of 10.2%. However, during the same period, the USD appreciated by ~10% annually against PKR, dissuading foreign investors from Pakistan's equity market. This trend shifted in FY24, with the PKR appreciating by ~3% against the USD, closing at 278.34 by the end of June 2024. This relative stability in exchange rates has sparked renewed foreign interest, as evidenced by significant net foreign buying during this period. Therefore, ensuring this exchange rate stability becomes a critical task for the new government, necessitating strategic administrative actions to maintain and enhance this positive trajectory.

Looking ahead, the equity market outlook appears promising, supported by the Country's stable and improving macroeconomic conditions as stock valuations remain attractive. Furthermore, progress in securing approval for a new IMF program and potential inflows from other sources are expected to be a major impetus for the market. However, the political uncertainty remains the most significant downside risk which could lead to policy / reform slippages and delays adversely affecting economic and market performance. While the overall sentiment is optimistic, investors should stay cautious and responsive to these challenges.

FIXED INCOME REVIEW

Throughout the year, the State Bank of Pakistan has consistently adhered to a cautious monetary policy stance, keeping the policy rate at a historically high level of 22% until implementing monetary easing in June 2024. This conservative stance was necessitated by ongoing inflationary pressures, which, despite a notable deceleration in last few months, remained elevated, with the average NCPI for the period at 23.41% YoY as of June 2024.

The decision to maintain the heightened policy rate during the year has resulted in elevated yields on government debt securities. Consequently, these securities have attracted substantial investor interest, as investors seek enhanced returns offered by government debt securities, despite the alternative of a high-performing equity market.

During the period, SBP conducted a total of twenty six (26) Market Treasury Bills (MTB) auctions, where the Government managed to raise PKR 21.68 trillion against the auction target of PKR 21.10 trillion. Notably, the weighted average yields for 3, 6, and 12-month MTB were 21.69%, 21.61%, and 21.41% respectively, up by 362 bps, 358 bps, and 334 bps as compared to 18.07%, 18.03%, and 18.07% during the same period last year.

To further address the need for liquidity, SBP also conducted twelve (12) auctions of fixed-rate Pakistan Investment Bonds (PIB) and was successful in raising PKR 1.49 trillion. The weighted average yield for 3, 5, and 10 years PIB increased by 248 bps, 229 bps, and 134 bps to 17.70%, 15.62%, and 14.28% respectively, as compared to 15.22%, 13.32%, and 12.94% during the same period last year.

In the market for Shariah Compliant instruments, a significant milestone was reached with the decision to conduct primary market auctions of GOP Ijara Sukuk through capital markets. This aims to broaden the investor base, increase transparency, and foster competitive pricing for government debt securities. A total of sixteen (16) auctions were held for GOP Ijara Sukuk, including those conducted through the Pakistan Stock Exchange. These auctions, covering Variable Rental Rate (VRR), Fixed Rental Rate (FRR), and Fixed Rate Discounted (FRD) instruments, successfully raised PKR 1.89 trillion, against the target of PKR 2.00 trillion.

Looking ahead to the auction target calendars for September through November 2024, the State Bank of Pakistan aims to raise PKR 3.48 trillion by issuing 3 to 12-month MTB against the maturing amount of PKR 4.59 trillion. Additionally, the SBP targets to raise PKR 500 billion through 2 to 10-year fixed-rate PIB against maturing amount of PKR 534 billion whereas, PKR 2.32 trillion is targeted to be raised through 2 to 10-year floating-rate PIB. Moreover, the Pakistan Stock Exchange issued a notice announcing auctions for the sale of GOP Ijara Sukuk, with the target of raising PKR 860 billion.

The Board will also like to thank the investors for their confidence in the Company.

FUTURE OUTLOOK

Following the successful completion of the Stand-By Arrangement with the IMF, authorities are in negotiations for a USD 7 billion Extended Fund Facility (EFF), pending approval from the IMF Executive Board, anticipated by the end of September 2024. This EFF program aims to capitalize on the macroeconomic stability achieved over the past year under the SBA by continuing efforts to strengthen public finances, reduce inflation, restore foreign exchange reserves, and eliminate economic distortions to foster growth. Key focus areas of the program includes implementing energy sector reforms, maintain a flexible exchange rate, strengthen fiscal and monetary policy, reforms to broaden the tax base, and improve State Owned Enterprises (SOE) management. Investors are closely watching these developments for insights into the future economic landscape and likewise market performance.

The Monetary Policy Committee embarked on a monetary easing stance in June 2024 and since then has reduced the policy rate by a substantial 450 bps to 17.50%, down from a historical high of 22%. This was in response to better than earlier anticipated decline in inflation which dropped to 9.64% YoY in August 2024, signaling a transition to single-digit inflation for the first time in a considerable period.

This pace of disinflation can be attributed to the impact of contained demand, reinforced by improved supply chain for essential food items, ongoing fiscal and monetary consolidation efforts, favorable global commodity prices, delays in upward adjustments in administered energy prices, and a favorable base effect. While inflation is on a downward trend and is expected to continue this trajectory, it remains vulnerable to risks such as the timing and magnitude of future adjustments in administered energy prices, volatility in global commodity markets, and potential new taxation measures to address revenue shortfalls. SBP projects that average inflation for FY25 will fall below the previously estimated range of 11.5% to 13.5%. However, this outlook is contingent upon achieving targeted fiscal consolidation and the timely realization of anticipated external inflows.

According to the Government's Annual Plan 2024-25, the economy is expected to achieve a growth rate of 3.6%. This growth will be driven by robust performances in the industrial and services sectors, projected to grow by 4.4% and 4.1% respectively, while the agriculture sector is anticipated to grow at 2.0%. Looking ahead, key drivers of market performance that are likely to sustain investor confidence include progress in securing board's approval for a larger IMF program and potential inflows from other sources. However,

political uncertainty and any further delays in inflows from foreign partners pose significant downside risks to the market's performance.

In conclusion, the stock market holds significant potential for future gains, trading at a low forward PE of 3.9x and offers an attractive dividend yield of 11%.

میکرو منظر نامہ

جاری مالی سال 2024 میں حکومت کی طرف سے بھرپور پالیسی اقدامات اور آئی ایم ایف اسٹینڈ بائی ارتھمنٹ پروگرام کی کامیاب تکمیل کی بدولت پاکستان کے اقتصادی منظر نامے نے بہتری دکھائی۔ اس پیش رفت نے سرمایہ کاری کی بحالی میں مدد دی جبکہ کثیر الجہتی اور دو طرفہ شراکت داروں کی طرف سے قرضے رول اوور کرنے سے حسابات جاریہ پر دباؤ ختم ہوا۔ مالی سال 2024 میں پاکستان کی جی ڈی پی کی حقیقی شرح 2.38 فیصد پہنچنے کی توقع ہے۔ مہنگائی کا ہدف سے زیادہ رہنا اور جاری چیلنجز اس بات کی عکاسی کرتے ہیں کہ داخلی اور خارجی مالیاتی ضروریات میں اضافے کے ساتھ مالی استحکام کو یقینی بنانے کے لیے کچھ زری اور مالی پالیسی اصلاحات ضروری تھیں۔

اسٹیٹ بینک آف پاکستان کی طرف سے محتاط زری پالیسی موقف برقرار رکھتے ہوئے پالیسی ریٹ کو 22 فیصد کی تاریخی سطح پر رکھنے کے بعد رواں مالی سال میں زری پالیسی میں بتدریج نرمی کا آغاز ہوا۔

اسٹیٹ بینک آف پاکستان کی زری پالیسی کمیٹی (ایم پی سی) نے 12 ستمبر، 2024 کو اپنے اجلاس میں پالیسی ریٹ میں 200 بی پی ایس کمی کر کے 17.50 فیصد کرنے کا فیصلہ کیا جس سے بعد کے دو ماہ میں افراط زر میں تیزی سے کمی ہوئی جس سے کمیٹی کی توقعات کو پیچھے چھوڑ دیا۔ افراط زر میں کمی کی بنیادی وجہ توانائی کی انتظامی قیمتوں میں مجوزہ اضافہ پر عمل درآمد میں تاخیر کے ساتھ ساتھ عالمی سطح پر آئل اور خوراک کی قیمتوں میں موزوں رجحان ہے۔ حالیہ اقتصادی پیش رفتوں اور افراط زر کے منظر نامے کے ممکنہ خدشات کے پیش نظر زری پالیسی کمیٹی (ایم پی سی) نے اس بات کا جائزہ لیا کہ حقیقی سود کی شرح اب بھی مناسب طور پر مثبت ہے۔ اس سے افراط زر کو درمیانی مدت کے ہدف سات سے پانچ فیصد تک لانے اور مجموعی معاشی استحکام کو یقینی بنانے میں مدد ملے گی۔ کمیٹی کا یہ تجزیہ ملک میں مالیاتی توازن برقرار رکھنے اور مہنگائی کے طویل مدتی اثرات کو قابو میں رکھنے کے لیے اہم ہے۔

اگست 2024 کے لئے قومی سطح پر قیمتوں کا حساس اشاریہ سالانہ بنیاد پر 9.64 فیصد پر آ گیا جبکہ جولائی 2024 میں یہ 11.09 فیصد تھا جو اگست 2023 میں 27.38 فیصد سے نمایاں طور پر کم ترین ہے۔ اس سے مالی سال 2025 کے دو ماہ کے لئے قومی سطح پر قیمتوں کا حساس اشاریہ اوسطاً 10.36 ہو گیا۔

ماہانہ بنیادوں پر این سی پی آئی میں 0.39 فیصد اضافہ ہوا جس کی بنیادی وجہ فوڈ آئٹمز کی بہت زیادہ قیمتوں اور دیگر شعبوں میں قیمتوں میں عمومی اضافہ کی بدولت فوڈ اینڈ ٹیکس میں 1.46 اضافہ ہے۔ شہری اور دیہی علاقوں کیلئے قیمتوں کا حساس اشاریہ بالترتیب 11.71 فیصد اور 6.73 فیصد رہا جبکہ ماہ کے دوران خوراک اور دیگر ضروری اشیاء کی قیمتوں میں اضافہ دیکھنے کو ملا، مجموعی سی پی آئی میں کمی دیکھی گئی، جس کی وجہ ایک بلند بنیاد اثر اور ماہانہ بنیادوں پر ہاؤسنگ اینڈ ٹیکس میں 1.40 فیصد کی کمی تھی۔ مستقبل میں توقع کی جارہی ہے کہ مہنگائی میں کمی کا سلسلہ جاری رہے گا جس کی مدد سخت مالیاتی اور مانیٹری پالیسی سے ہوگی۔

بیرونی سطح پر حسابات جاریہ میں گزشتہ ماہ میں 246 ملین ڈالر کے نظر ثانی شدہ خسارے کے مقابلے میں اگست 2024 میں 75 ملین ڈالر کا سرپلس ریکارڈ کیا گیا۔ اس سے حسابات جاریہ کا خسارہ مالی سال 2025 کے پہلے دو ماہ کیلئے 171 ملین ہو گیا جو گزشتہ سال کی اسی مدت کے دوران 893 ملین ڈالر کے سے 81 فیصد کی شاندار کمی کو ظاہر کرتا ہے۔ حسابات جاریہ کے خسارے میں قابل ذکر کمی کی بنیادی وجہ تجارتی خسارے میں کمی، بیرونی ممالک سے ترسیلات زر میں اضافہ اور دیگر کرنٹ منتقلیاں ہیں۔ مالی سال 2024 میں کل درآمدات 63.28 بلین ڈالر رہی جو گزشتہ سال کے مقابلے میں 3 فیصد زیادہ ہے۔ تاہم اس اضافے کا ازالہ مجموعی برآمدات میں نمایاں اضافے سے ہوا، جو 38.90 ارب امریکی ڈالر تک پہنچ گئیں، جس میں سالانہ بنیادوں پر 10% کی نمو دیکھی گئی۔

اس کے علاوہ مستحکم شرح مبادلہ کے نتیجے میں بیرون ملک سے ترسیلات زر میں اضافہ ہو جو مالی سال 2024 میں 30.25 بلین ڈالر رہے۔ یہ گزشتہ سال کی اسی مدت میں 27.33 بلین ڈالر کے مقابلے میں 11 فیصد زیادہ ہے۔ بیرونی سطح پر بہتری تجارت اور ترسیلات زر میں مثبت رفتار کی طرف اشارہ کرتی ہے جس سے ملک کے ادائیگیوں کے توازن اور مجموعی معاشی استحکام میں مدد ملی۔

ایس بی پی کی طرف سے جاری اعداد و شمار کے مطابق مالی سال 2024 کے اختتام پر مرکزی بینک کے پاس غیر ملکی زرمبادلہ کے 9.39 بلین ڈالر کے ذخائر کے ساتھ ملک کے غیر ملکی زرمبادلہ کے کل ذخائر 14.00 بلین ڈالر ہو گئے جس میں مالی سال کے آغاز میں 53 فیصد کا قابل ذکر اضافہ ہوا۔ یہ اضافہ بنیادی طور پر آئی ایم ایف کے اسٹینڈ بائی آرٹجمنٹ کے تحت قسطوں کی ادائیگی اور دوست ممالک سے موصول ہونے والی رقوم کی بدولت ہوا ہے۔ اس کے علاوہ اس نمونہ کو برآمدی آمدنی اور بیرون ملک مقیم پاکستانیوں کی ترسیلات زر میں اضافے نے بھی مضبوط کیا ہے۔ زرمبادلہ کے ذخائر میں اس اضافے سے نہ صرف ملک کی بیرونی مالیاتی ذمہ داریوں کو پورا کرنے کی صلاحیت میں بہتری آئی ہے بلکہ پاکستان کی معاشی صورتحال پر سرمایہ کاروں کے اعتماد میں بھی اضافہ متوقع ہے۔ فی الحال 20 ستمبر 2024 تک مجموعی زرمبادلہ کے ذخائر 14.87 ارب امریکی ڈالر ہیں۔

مالی سال 2024 کے دوران فیڈرل بورڈ آف ریونیو نے 9,306 ملین روپے کا ٹیکس اکٹھا کیا جو ٹیکس وصولی کے مقرر کردہ ہدف 9,252 ملین روپے سے 54 ملین روپے زیادہ ہے جبکہ گزشتہ سال کی اسی مدت کے مقابلے میں 30 فیصد کی نمو کو ظاہر کرتا ہے۔ مالی سال 2024 کے لیے 9,252 ٹریلین روپے کا ٹیکس وصولی کا ہدف مقرر کیا گیا ہے، جو پچھلے سال کے مقابلے میں تقریباً 29 فیصد زیادہ ہے۔ اس ہدف کو حاصل کرنے کے لیے ایف بی آر مسلسل کوششیں کر رہا ہے جن میں ٹیکس کے دائرہ کار کو وسیع کرنا اور ان شعبوں پر ٹیکس عائد کرنا شامل ہے جو روایتی طور پر کم ٹیکس ادا کرتے رہے ہیں۔ اس دوران حکومت کی مالیاتی پالیسی کا مرکز بنیادی توازن کے اضافے کو برقرار رکھنا رہا ہے جو مالیاتی نظم و نسق اور استحکام کا مظہر ہے۔ یہ نظم و نسق بین الاقوامی مالیاتی اداروں سے

مسلل حمایت حاصل کرنے کے لیے ضروری ہے۔

حکومت کی طرف سے غیر ملکی سرمایہ کاری کو ملک میں راغب کرنے کیلئے مسلسل کوششیں، شرح مبادلہ میں استحکام نے اب تک حوصلہ افزاء نتائج دیئے ہیں جس کا ثبوت مالی سال 2024 میں 1,519 ملین ڈالر کی خالص غیر ملکی سرمایہ کاریاں ہیں جس میں سالانہ بنیادوں پر 153 فیصد اضافہ ہوا۔ 2,022 کی کل غیر ملکی سرمایہ کاری میں چین اور ہانگ کانگ کی سرمایہ کاری 927 ملین ڈالر رہی جو کل سرمایہ کاری کا 46 فیصد ہے۔ دیگر نمایاں سرمایہ کار ملکوں میں برطانیہ اور امریکہ ہے جنہوں نے 286 ملین ڈالر (14 فیصد) اور 184 ملین ڈالر (9 فیصد) سرمایہ کاری کی۔ یہ اعداد و شمار متنوع سرمایہ کاروں کی نشاندہی کرتے ہیں اور بڑے عالمی کمپنیوں کیلئے پاکستان کے سازگار سرمایہ کاری ماحول کو اجاگر کرتے ہیں۔

ایکویٹی مارکیٹ کا جائزہ

مالی سال 2023-2024 کے دوران ایکویٹی مارکیٹ نے غیر معمولی کارکردگی کا مظاہرہ کرتے ہوئے 78,445 کے اختتامی بیچ مارک انڈیکس کے ساتھ 89.24 فیصد کے شاندار ریٹرن کیلئے 36,992 پوائنٹس حاصل کئے۔ اس ترقی کے بہت ساری بنیادی عوامل ہیں۔ مارکیٹ میں ترقی کے رجحان کی بنیاد بہتر ہونے والے میکرو اکنامک اشاریوں پر تھی جن میں کرنسی کی مضبوطی شامل ہے جبکہ حکومت کی جانب سے ملک کی طویل مدتی پائیداری کو یقینی بنانے کے لیے اہم اقدامات کیے گئے۔ سرمایہ کاروں کے مثبت رجحانات کو مزید تقویت آئی ایم ایف اسٹینڈ بائی arrangement کی کامیابی سے تکمیل، نئی حکومت کے بروقت قیام اور مہنگائی میں نمایاں کمی سے ملی جو مئی 2024 میں 30 ماہ کی کم ترین سطح 11.76 فیصد سالانہ پر پہنچ گئی۔ اس سے ملک میں مزید مستحکم اقتصادی ماحول کی تشکیل میں مدد ملی۔

حسابات جاریہ کے خسارے میں سالانہ بنیادوں پر 80 فیصد کی اور مئی 2024 میں بیرون ملک سے 3.24 بلین ڈالر کے ترسیلات زر کے ساتھ بیرونی کھاتوں میں بھی نمایاں بہتر دیکھنے کو ملی۔ اس کے علاوہ پاکستانی روپے کی امریکی ڈالر کے مقابلے میں قدر میں 3 فیصد کی بہتری، مالیاتی سائیکل میں واپسی کا آغاز اور سخت بجٹ اقدامات جو آئی ایم ایف فنڈنگ کے تسلسل کی راہ ہموار کر رہے ہیں، مجموعی طور پر مارکیٹ کے رجحانات کیلئے مثبت ثابت ہوئے۔

مدت کے دوران سرمایہ کاروں کی شراکت میں سالانہ بنیادوں میں 138 فیصد کا نمایاں اضافہ ہوا۔ گزشتہ سال کی اسی مدت کے 191 ملین حصص کے مقابلے میں یومیہ کاروباری حجم 455 ملین حصص رہا۔ غیر ملکی انویسٹرز پورٹ فولیو انویسٹمنٹ (ایف آئی پی آئی) میں نمایاں نمو ہوئی۔ غیر ملکی سرمایہ کاروں نے 140.77 ملین ڈالر کی سرمایہ کاری کی گئی جو گزشتہ سال میں 1.57 ڈالر کا قابل ذکر اضافہ ظاہر کرتا ہے۔ غیر ملکی سرمایہ کاروں کی طرف سے کمرشل بینکوں (59.81 ملین ڈالر)، فریٹلائزر (18.44 ملین ڈالر) اور پاور جنریشن اینڈ ڈسٹری بیوشن (16.48 ملین ڈالر) میں نمایاں سرمایہ کاری کی گئی۔ مقامی سطح پر سے زیادہ خرید صرف بیمہ کمپنیوں اور کارپوریشن رہی جن میں 126.34 ملین ڈالر اور 35.65 ملین ڈالر کے حصص خریدے گئے۔ اسی طرح بینکوں/ڈی ایف آئی، انفرادی کمپنیوں اور میوچل فنڈز میں حصص فروخت کئے گئے جو بلترتیب 141.29 ملین ڈالر، 59.63 ملین ڈالر اور 46.92 ملین ڈالر رہی۔

مدت کے دوران جن شعبوں نے بہتر کارکردگی دکھائی ان میں کمرشل بینک (114.78 فیصد)، آئل اینڈ گیس ایکسپلوریشن کمپنیز (72.53 فیصد) فوڈ اینڈ پرسنل کیئر پروڈکٹس (60.40 فیصد)، فریٹلائزر (65.35 فیصد) اور سیمنٹ (59.27 فیصد) شامل ہے جبکہ منڈی کا شکار رہنے والی کمپنیوں میں کیمیکل (

منفی 49.11 فیصد) مضاربہ (منفی 42.13 فیصد)، پراپرٹی (منفی 6.54 فیصد) اور وانا سیتی اینڈ الائیڈ انڈسٹریز (منفی 1.72 فیصد) شامل ہیں۔

دس سالہ مدت کے دوران کے ایس ای۔ 100 انڈیکس کا سالانہ منافع 10.2 فیصد رہا۔ تاہم اسی مدت کے دوران امریکی ڈالر کی قدر میں سالانہ بنیادوں پر 10 فیصد اضافہ ہوا جس نے غیر ملکی سرمایہ کاروں نے پاکستان کی ایکویٹی مارکیٹ سے سرمایہ لگانے سے روک رکھا۔ مالی سال 2024 میں اس رجحان میں تبدیلی آئی، پاکستانی روپے کی قدر میں امریکی ڈالر کے مقابلے میں 3 فیصد بہتر ہوئی جو جون 2024 کے اختتام پر 278.34 رہا۔ کرنسی کے استحکام سے غیر ملکی سرمایہ کاری میں نئی دلچسپی پیدا ہوئی جس کا ثبوت اس مدت کے دوران غیر ملکی سرمایہ کاروں کی طرف سے حصص کی خریداری ہے۔ اس لیے اس کرنسی کی استحکام کو یقینی بنانا نئی حکومت کے لیے ایک اہم کام بن جاتا ہے جس کے لیے اس مثبت رجحان کو برقرار رکھنے اور بڑھانے کے لیے حکمت عملی کے تحت انتظامی اقدامات کی ضرورت ہے۔ یہ اقدامات نہ صرف معاشی ترقی میں مدد کریں گے بلکہ سرمایہ کاروں کے اعتماد کو بھی مستحکم کریں گے۔

آگے بڑھتے ہوئے ایکویٹی مارکیٹ کا آؤٹ لک ملک کے مستحکم اور بہتر ہوتے میکرو اکنامک حالات کی وجہ سے حوصلہ افزاء ہے۔ اس کے علاوہ آئی ایم ایف کے نئے پروگرام کی منظوری میں پیش رفت اور دیگر ذرائع سے ممکنہ مالی معاونت سے مارکیٹ کیلئے بڑا محرک ثابت ہو سکتا ہے۔ تاہم سیاسی غیر یقینی صورتحال پالیسیوں یا اصلاحات میں سست روی اور تاخیر کا باعث اور اقتصادی اور مارکیٹ کی کارکردگی پر منفی اثرات مرتب کر سکتی ہے۔ اگرچہ عمومی رجحانات حوصلہ افزاء ہیں لیکن سرمایہ کاروں کو ان چیلنجز کے حوالے سے محتاط اور متوجہ رہنا چاہیے۔ ان خطرات کے باوجود محتاط سرمایہ کاری اور موجودہ حالات پر نظر رکھنا سرمایہ کاروں کے لیے اہم ہے تاکہ وہ ممکنہ منفی اثرات سے بچ سکیں۔

فلسڈ انکم کا جائزہ

سال کے دوران اسٹیٹ بینک آف پاکستان نے تسلسل کے ساتھ محتاط زرعی پالیسی موقف اختیار کئے رکھا اور پالیسی ریٹ کو 22 فیصد کی تاریخی بلند ترین سطح پر برقرار رکھا تاہم جون 2024 میں اس میں کمی کی گئی۔ یہ محتاط رویہ جاری مہنگائی کے دباؤ کی وجہ سے ناگزیر تھا جو کہ حالیہ چند ماہ میں نمایاں کمی کے باوجود بلند رہی۔ اس مدت کے لیے اوسط قیمتوں کا احساس اشاریہ جون 2024 کے مطابق 23.41 فیصد سالانہ رہا۔

سال کے دوران پالیسی ریٹ کو بلند ترین سطح پر رکھنے کا نتیجہ حکومتی ڈیپٹ سیکورٹیز پر بہت زیادہ منافع کی صورت میں نکلا۔ نتیجتاً ان سیکورٹیز نے سرمایہ کاروں کو بڑی حد تک راغب کیا کیونکہ سرمایہ کار حکومتی ڈیپٹ سیکورٹیز پر زیادہ منافع چاہتے ہیں۔

مدت کے دوران ایس بی پی نے مارکیٹ ٹریڈری بل (ایم ٹی بی) کی 26 نیلامیاں کی جس سے حکومت 21.10 ٹریلین روپے کے ہدف کے مقابلے میں 21.68 ٹریلین روپے حاصل کرنے کے میں کامیاب ہوئی۔ قابل ذکر بات ہے کہ 6، 3، 12 ماہ کے ایم ٹی بی کی اوسط آمدن گزشتہ سال کی اسی مدت کے 18.07 فیصد، 18.03 فیصد اور 18.07 فیصد کے مقابلے میں 21.69 فیصد، 21.61 فیصد اور 21.41 فیصد رہی جو اسی ترتیب کے ساتھ 362 بی پی ایس، 358 بی پی ایس اور 334 بی پی ایس زیادہ تھی۔

سرمائے کی ضرورت پر مزید توجہ دیتے ہوئے سٹیٹ بینک آف پاکستان نے فلسڈ ریٹ پاکستان انویسٹمنٹ بانڈ (پی آئی بی) کی 12 نیلامیاں منعقد کرائیں

اور ان کے ذریعے 1.49 ٹریلین روپے جمع کرنے میں کامیاب ہوا۔ 3، 5 اور 10 سال کی پی آئی بی کی حقیقی اوسط آمدن گزشتہ سال کی اس مدت کی آمدن 15.22 فیصد، 13.22 فیصد اور 12.94 فیصد کے مقابلہ میں 17.70 فیصد، 15.62 فیصد اور 14.28 فیصد رہی جو اسی ترتیب کے ساتھ 248 بی پی ایس 229 بی پی ایس اور 134 فیصد زیادہ تھی۔

شریعہ کمپلائنٹ انسٹرومنٹ کیلئے مارکیٹ میں کمپنٹل مارکیٹس کے ذریعے حکومتی اجارہ سکوک کی بنیادی مارکیٹ نیلامیاں کرنے کے فیصلہ کے ساتھ سنگ میل عبور کیا گیا۔ اس اقدام کا مقصد حکومتی ڈیپٹ سیکورٹیز کیلئے سرمایہ کاروں کی تعداد بڑھانا، شفافیت میں اضافہ اور مسابقتی قیمتوں کو فروغ دینا ہے۔ حکومتی اجارہ سکوک کیلئے 16 نیلامیاں منعقد کی گئیں جن میں پاکستان اسٹاک ایکس چینج کے ذریعے بھی منعقد کی گئیں۔ ویراہیل رینٹل ریٹ (وی آر آر) اور فکسڈ رینٹل ریٹ (ایف آر آر) پر مشتمل نیلامیوں سے 2 ٹریلین روپے کے ہدف کے برخلاف 1.89 ٹریلین روپے اکٹھے کرنے میں کامیاب حاصل ہوئی۔

آگے بڑھتے ہوئے ستمبر تا نومبر 2024 کے نیلامی کیلینڈر کے مطابق سٹیٹ بینک آف پاکستان 3 سے 12 ماہ کی مدت کے ایم ٹی بی کے اجرا سے 4.59 ٹریلین روپے کی رقم میچور کرنے کے برخلاف 3.48 ٹریلین روپے حاصل کرنے کا ہدف رکھتا ہے۔ اس کے علاوہ سٹیٹ بینک آف پاکستان اسی مدت کے دوران 2 سے 10 سال کی مدت کے فکسڈ ریٹ پی آئی بی کے ذریعے 534 بلین روپے کے میچورنگ رقم کے برخلاف 500 ارب روپے اور 2 سے 10 سال کی مدت کے فلوئنگ ریٹ پی آئی بی کے ذریعے 2.32 ٹریلین روپے بھی جمع کرنے کا ہدف رکھتا ہے۔ اس کے علاوہ پاکستان اسٹاک ایکس چینج نے حکومتی اجارہ سکوک کی فروخت کیلئے نیلامیوں کے اعلان کا نوٹس جاری کیا ہے جس میں 860 بلین روپے کے حصول کا ہدف ہے۔

اظہار تشکر

ڈائریکٹرز اس موقع پر سکیورٹیز اینڈ ایکسچینج کمیشن آف پاکستان، وزارت خزانہ، اسٹیٹ بینک آف پاکستان اور پاکستان سٹاک ایکسچینج کی انتظامیہ کی طرف سے مسلسل معاونت اور تعاون پر ان کا شکریہ ادا کرتے ہیں۔ بورڈ اے کے ڈی انویسٹمنٹ مینجمنٹ لمیٹڈ کے عملہ اور افسران کی مخلصانہ کارکردگی کو بھی سراہتا ہے۔ بورڈ کمپنی پر اعتماد کا اظہار کرنے والے سرمایہ کاروں کا بھی شکر گزار ہے۔

مستقبل کی پیش بینی

آئی ایف ایم کے 7 بلین ڈالر کے توسیع فنڈ سہولت پروگرام کا مقصد سال کے دوران ایس بی اے کے تحت حاصل ہونے والے معاشی استحکام سے فائدہ اٹھانا ہے جس میں سرکاری مالیات کو مضبوط بنانا، افراط زر کو کم کرنا، غیر ملکی زرمبادلہ کے ذخائر کو بحال کرنا اور معاشی بگاڑ کو ختم کر کے ترقی کے لئے راہیں ہموار کرنا ہے۔ پروگرام کے کلیدی شعبوں میں توانائی کے شعبے میں اصلاحات، پکدار زر مبادلہ کی شرح کو برقرار رکھنا، مالی اور مانیٹری پالیسی کو مضبوط کرنا، ٹیکس کے دائرے کو وسیع کرنا اور سرکاری ملکیتی اداروں کی مینجمنٹ کو بہتر بنانا شامل ہیں۔ سرمایہ کاران اصلاحات کو گہری نظر سے دیکھ رہے ہیں تاکہ مستقبل کے معاشی منظر نامے اور مارکیٹ کی کارکردگی کے بارے میں رہنمائی اور معلومات حاصل کی جاسکے۔

جون 2024 میں زری پالیسی کمیٹی نے زری پالیسی اقدامات میں نرمی کرتے ہوئے شرح سود میں مجموعی طور پر 450 بیس پوائنٹس کی کمی کی جو 22 فیصد کی تاریخی بلند ترین شرح سے کم ہو کر 17.50 فیصد پر آگئی ہے۔ یہ فیصلہ افراط زر میں توقع سے زیادہ تیزی سے کمی کے بعد کیا گیا جو اگست 2024 میں سالانہ بنیاد پر 9.64 فیصد پر آگئی۔

محدود طلب، ضروری اشیاء کیلئے سپلائی چین میں بہتری، مالی اور زری اقدامات کو مربوط بنانے کیلئے جاری کوششیں، عالمی سطح پر اجناس کی موزوں قیمتیں، توانائی کی انتظامی قیمتوں میں ایڈجسٹمنٹ میں تاخیر اور موزوں بنیادی اثرات افراط زر میں کمی سے منسوب کیے جاسکتے ہیں۔ افراط زر میں کمی کا رجحان جاری ہے اور امید ہے اس میں مزید کمی ہوگی۔ تاہم اسے مستقبل میں توانائی کی قیمتوں میں انتظامی تبدیلیوں کے وقت اور حجم، عالمی کموڈٹی مارکیٹس میں اتار چڑھا اور محصولات کی کمی کو پورا کرنے کے لیے ممکنہ نئے ٹیکس اقدامات سے خطرات درپیش ہیں۔

حکومت کے سالانہ منصوبہ 2024-2024 کے مطابق معاشی شرح نمو 3.6 فیصد ہونے کی توقع ہے۔ یہ شرح نمو انڈسٹری اور خدمات کے شعبوں اور زرعی شعبہ کی مضبوط کارکردگی کی بنا پر ممکن ہوئی جن کی شرح نمو بالترتیب 4.4 فیصد اور 4.1 فیصد جبکہ زرعی شعبہ کی نمو 2.0 فیصد تک ہونے کی توقع ہے۔ آگے بڑھتے ہوئے مارکیٹ کی کارکردگی کے اہم عوامل میں آئی ایم ایف کے بڑے پروگرام کی منظوری کے لیے بورڈ سے پیشرفت اور دیگر ذرائع سے ممکنہ مالی معاونت شامل ہیں جو سرمایہ کاروں کے اعتماد کو برقرار رکھنے کا باعث بن سکتے ہیں۔ تاہم سیاسی غیر یقینی صورتحال اور غیر ملکی شراکت داروں کی طرف سے مالی معاونت میں مزید تاخیر مارکیٹ کی کارکردگی کے لیے نمایاں منفی خطرات پیدا کرتی ہے۔

نتیجتاً، اسٹاک مارکیٹ مستقبل میں نمایاں منافع کے امکانات رکھتی ہے، کیونکہ یہ 3.9x کے کم فارورڈ پی ای پر ٹریڈ ہو رہی ہے اور 11 فیصد کی پرکشش منافع منقسمہ فراہم کر رہی ہے۔

MACRO PERSPECTIVE

Since the onset of FY24, Pakistan's economic growth prospects have shown marked improvement, supported by prudent policy measures enacted by the Government and the successful completion of the IMF Stand-by Arrangement program. This progress has facilitated the resumption of inflows and the rollover of debt from multilateral and bilateral partners, alleviating pressure on the current account. As anticipated, the Country's real GDP growth reached 2.38% in FY24, reflecting ongoing challenges as inflation persisted above the target range and certain monetary and fiscal policy reforms implemented, which were necessary to ensure financial stability amid elevated external and domestic financing needs. This fiscal year also marks the initiation of the monetary easing cycle, following a considerable period during which the State Bank of Pakistan (SBP) maintained a cautious monetary policy stance, keeping the policy rate at a historically high level of 22%.

In its last meeting on September 12, 2024, the Monetary Policy Committee (MPC) of the State Bank of Pakistan decided to further reduce the policy rate by 200 bps to 17.50%. The SBP premised its decision on sharp decline in inflation over preceding two months, which has somewhat outpaced the Committee's earlier expectations. This decline is primarily attributed to delays in implementing planned increases in administered energy prices, as well as favorable trends in global oil and food prices. In light of recent economic developments and potential risks to the inflation outlook, the MPC assessed that the real interest rate to still be adequately positive, positioning it to guide inflation toward the medium-term target of 5 – 7 percent and help ensure macroeconomic stability.

In August 2024, the National Consumer Price Index (NCPI) fell to a single-digit rate of 9.64% YoY, down from 11.09% in July 2024 and significantly lower than 27.38% in August 2023, taking the average inflation for the first two months of FY25 to 10.36%. On MoM basis, the NCPI increased by 0.39%, driven primarily by a 1.46% rise in the Food Index, attributed to higher prices of food items, and a general rise in prices across other sectors. Regionally, Urban and Rural CPI were recorded at 11.71% and 6.73%, respectively. While prices for food and other essential items saw an increase during the month, the overall CPI declined, influenced by a high base effect and a 1.40% reduction in the Housing Index on a MoM basis. Looking forward, inflation is projected to continue its downward trajectory, supported by a sufficiently tight fiscal and monetary policy.

On the external front, the current account recorded a surplus of USD 75 million in August 2024, compared to a revised deficit of USD 246 million in the previous month. This brings the Current Account Deficit (CAD) for the first two months of FY25 to USD 171 million, reflecting an impressive 81% reduction from USD 893 million during the same period last year. Furthermore, the CAD for FY24 was reported at USD 665 million, down significantly from USD 3.28 billion, marking an 80% YoY reduction. This noteworthy decline in the CAD is primarily driven by a decrease in the trade deficit with a marked increase in overseas workers' remittances and higher other current transfers. Total imports for FY24 amounted to USD 63.28 billion, a 3% increase compared to the previous year. However, this rise was more than offset by a significant increase in total exports, which reached USD 38.90 billion, reflecting a 10% YoY growth.

Moreover, a stable exchange rate has contributed to a boost in workers' remittances, which totaled USD 30.25 billion in FY24, representing an 11% increase from USD 27.33 billion in the same period last year. This improvement in the external sector indicates a positive momentum in trade and remittances, enhancing the country's balance of payments and overall economic stability.

According to the data released by the SBP, the foreign exchange reserves held by the central bank stood at USD 9.39 billion by the end of FY24, with the Country's liquid foreign exchange reserves reaching USD 14.00 billion. This marks a remarkable 53% increase since the beginning of the fiscal year. This surge can be primarily attributed to the disbursement of tranches under the IMF Stand-by Arrangement and other inflows from friendly countries. Additionally, this growth has been bolstered by an uptick in export earnings and elevated overseas workers' remittances. This increase in reserves not only enhances the Country's ability to meet its external obligations but is also likely to strengthen investor confidence in Pakistan's economic prospects. Currently, the total liquid foreign exchange reserves are USD 14.87 billion as on September 20, 2024.

During FY24, the Federal Board of Revenue (FBR) collected PKR 9,306 billion, surpassing the ambitious assigned target of PKR 9,252 billion by a significant margin of PKR 54 billion, and registering a growth of 30% compared to the same period last year. With a tax collection target of PKR 9,252 trillion for FY24, ~29% higher from the previous year's collection, the FBR has been making continuous efforts such as broadening the tax base and imposing taxes on sectors historically under-taxed to achieve its goal. Meanwhile, the Government's fiscal policy has been centered on maintaining a primary balance surplus, demonstrating fiscal discipline and stability essential for continued support from international financial institutions.

The Government's persistent efforts to attract foreign investment, coupled with the relative stability in exchange rates, have yielded promising results so far, evident by the net foreign investments reaching USD 1,519 million in FY24, a significant growth of 153% YoY. Out of the total foreign inflows USD 2,022 million, China and Hong Kong accounted for USD 927 million, representing 46% of the total. Other significant investments originated from the United Kingdom, amounting to USD 286 million (14%), and the United States, contributing USD 184 million (9%). These figures indicate a diversified investor base and highlight the attractiveness of Pakistan's investment environment to major global players.

EQUITY MARKET REVIEW

During the fiscal year 2023-24, the Equity market delivered exceptional performance, gaining 36,992 points for an impressive return of 89.24%, with the benchmark index closing at 78,445 points. This strong performance was driven by several key factors. The market thrived on improving macroeconomic indicators, including a strengthening currency, amid essential measures taken by the government to ensure the country's long-term sustainability. Bullish sentiment was further fueled by the successful completion of the IMF Stand-by Arrangement, timely formation of a new government, and a notable decline in inflation reaching a 30-month low at 11.76% YoY in May 2024, contributing to a more stable economic environment.

The external account also showed significant improvement, with 80% YoY reduction in the current account deficit, alongside record high overseas workers' remittances of USD 3.24 billion in May 2024. Additionally, a roughly 3% appreciation of the rupee against the US dollar, the initiation of a reversal in the monetary cycle, and albeit tough budgetary measures pathing the way to continuity in IMF funding collectively boded well for the market sentiment.

During the period, investor participation exhibited a substantial increase of 138% YoY, with an average daily traded volume of 455 million shares, compared to 191 million shares in the same period last year. Foreign Investors Portfolio Investment (FIPI) also saw significant growth, recording net inflows of USD 140.77 million, a notable rise from USD 1.57 million in the previous year. Key sectors attracting foreign capital included Commercial Banks (USD 59.81 million), Fertilizer (USD 18.44 million), and Power Generation and Distribution (USD 16.48 million). Domestically, only Insurance Companies and Corporations were net buyers, with net purchases of USD 126.34 million and USD 35.65 million, respectively. Conversely, other domestic participants, including Banks/DFIs, Individuals, and Mutual Funds, emerged as major net sellers, with respective divestments of USD 141.29 million, USD 59.63 million, and USD 46.92 million.

In terms of sector performance, top gainers during the period were led by Commercial Banks (+114.78%), followed by Oil & Gas Exploration Companies (+72.53%), Food & Personal Care Products (+60.40%), Fertilizer (+65.35%), and Cement (+59.27%). Conversely, sectors experiencing declines included Chemical (-49.11%), Modarabas (-42.13%), Property (-6.54%), and Vanaspati & Allied Industries (-1.72%).

Over the past decade, the KSE-100 Index has yielded an annualized return of 10.2%. However, during the same period, the USD appreciated by ~10% annually against PKR, dissuading foreign investors from Pakistan's equity market. This trend shifted in FY24, with the PKR appreciating by ~3% against the USD, closing at 278.34 by the end of June 2024. This relative stability in exchange rates has sparked renewed foreign interest, as evidenced by significant net foreign buying during this period. Therefore, ensuring this exchange rate stability becomes a critical task for the new government, necessitating strategic administrative actions to maintain and enhance this positive trajectory.

Looking ahead, the equity market outlook appears promising, supported by the Country's stable and improving macroeconomic conditions as stock valuations remain attractive. Furthermore, progress in securing approval for a new IMF program and potential inflows from other sources are expected to be a major impetus for the market. However, the political uncertainty remains the most significant downside risk which could lead to policy / reform slippages and delays adversely affecting economic and market performance. While the overall sentiment is optimistic, investors should stay cautious and responsive to these challenges.

FUTURE OUTLOOK:

Following the successful completion of the Stand-By Arrangement with the IMF, authorities are in negotiations for a USD 7 billion Extended Fund Facility (EFF), pending approval from the IMF Executive Board, anticipated by the end of September 2024. This EFF program aims to capitalize on the

macroeconomic stability achieved over the past year under the SBA by continuing efforts to strengthen public finances, reduce inflation, restore foreign exchange reserves, and eliminate economic distortions to foster growth. Key focus areas of the program includes implementing energy sector reforms, maintain a flexible exchange rate, strengthen fiscal and monetary policy, reforms to broaden the tax base, and improve State Owned Enterprises (SOE) management. Investors are closely watching these developments for insights into the future economic landscape and likewise market performance.

The Monetary Policy Committee embarked on a monetary easing stance in June 2024 and since then has reduced the policy rate by a substantial 450 bps to 17.50%, down from a historical high of 22%. This was in response to better than earlier anticipated decline in inflation which dropped to 9.64% YoY in August 2024, signaling a transition to single-digit inflation for the first time in a considerable period.

This pace of disinflation can be attributed to the impact of contained demand, reinforced by improved supply chain for essential food items, ongoing fiscal and monetary consolidation efforts, favorable global commodity prices, delays in upward adjustments in administered energy prices, and a favorable base effect. While inflation is on a downward trend and is expected to continue this trajectory, it remains vulnerable to risks such as the timing and magnitude of future adjustments in administered energy prices, volatility in global commodity markets, and potential new taxation measures to address revenue shortfalls. SBP projects that average inflation for FY25 will fall below the previously estimated range of 11.5% to 13.5%. However, this outlook is contingent upon achieving targeted fiscal consolidation and the timely realization of anticipated external inflows.

According to the Government's Annual Plan 2024-25, the economy is expected to achieve a growth rate of 3.6%. This growth will be driven by robust performances in the industrial and services sectors, projected to grow by 4.4% and 4.1% respectively, while the agriculture sector is anticipated to grow at 2.0%. Looking ahead, key drivers of market performance that are likely to sustain investor confidence include progress in securing board's approval for a larger IMF program and potential inflows from other sources. However, political uncertainty and any further delays in inflows from foreign partners pose significant downside risks to the market's performance.

In conclusion, the stock market holds significant potential for future gains, trading at a low forward PE of 3.9x and offers an attractive dividend yield of 11%.

INDEPENDENT AUDITOR'S REPORT

To the Unit Holders of AKD Islamic Stock Fund

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of AKD Islamic Stock Fund ("the Fund"), which comprise the statement of assets and liabilities as at 30 June 2024 and the related income statement, statement of comprehensive income, statement of movement in unit holders' fund and cash flow statement for the year then ended, and notes to the financial statements, including material accounting policy information.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of the Fund as at 30 June 2024 and of its financial performance, and its cash flows for the year then ended in accordance with the approved accounting and reporting standards as applicable in Pakistan.

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs) as applicable in Pakistan. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Fund in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants as adopted by the Institute of Chartered Accountants of Pakistan (the Code) together with the ethical requirements that are relevant to our audit of the financial statements in Pakistan, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Following is the key audit matter:

	Key audit matter	How the matter was addressed in our audit
1)	Existence and valuation of investments:	
	Refer to Note 4 of the financial statements. As of 30 June 2024, the Fund's investment portfolio includes equity instruments carried at fair value through profit or loss.	Our audit procedures included the following, but were not limited to: i) walked through the valuation processes and understood the systems and controls implemented;

These investments represent approximately 89.19% % of the Fund's total assets. Due to the significance of these investments to the financial statements and the inherent complexity in determining their fair value at year-end, we have identified this matter to be communicated as a key audit matter.	ii) evaluated the Fund's investment valuation policies with reference to the requirements of the applicable accounting and reporting standards; iii) agreed holding of all investments from the Account Balance Report of Central Depository Company of Pakistan Limited; iv) agreed the valuation of all listed equity securities from prices quoted on the Pakistan Stock Exchange Limited; v) performed verification procedures on purchased and sales on a sample of trades made during the year regarding movement of the securities; and vi) any difference identified during the testing that were over acceptable threshold were investigated further.

Information Other than the Financial Statements and Auditor's Report Thereon

Management Company is responsible for the other information. The other information comprises the information included in the annual report, but does not include the financial statements of the Fund and our auditor's report thereon.

Our opinion on the financial statements of the Fund does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements of the Fund, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements of the Fund for our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Board of Directors of the Management Company for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with the accounting and reporting standards as applicable in Pakistan, and for such internal

control as Management Company determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, Management Company is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Management Company either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

Board of Directors of the Management Company are responsible for overseeing the Fund's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs as applicable in Pakistan will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs as applicable in Pakistan, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Management Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Management Company.
- Conclude on the appropriateness of Management Company's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.

Riaz Ahmad & Company

Chartered Accountants

- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with Board of Directors of the Management Company regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide Board of Directors of the Management Company with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with Board of Directors of the Management Company, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

In our opinion, the financial statements have been prepared, in all material respects, in accordance with the relevant provisions of the Non-Banking Finance Companies (Establishment and Regulation) Rules, 2003 and Non-Banking Finance Companies and Notified Entities Regulations, 2008.

The engagement partner on the audit resulting in this independent auditor's report is Junaid Ashraf.

**AKD ISLAMIC STOCK FUND
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2024**

1. LEGAL STATUS AND NATURE OF BUSINESS

- 1.1** AKD Islamic Stock Fund (the Fund) was established under a Trust Deed, executed between AKD Investment Management Limited (AKDIML) as the Management Company and Digital Custodian Company Limited (DCCL) as the Trustee. The Fund was authorized by the Securities and Exchange Commission of Pakistan (SECP) as a unit trust scheme on 30 May 2017. The Initial Public Offering (IPO) of the Fund was made during the year from 19 February 2018 to 20 February 2018 and the Fund commenced operations from 21 February 2018. In accordance with the Trust Deed, the first accounting year of the Fund commenced on the date on which the Fund property was first transferred to the Trustee i.e. 19 February 2018.
- 1.2** The Management Company of the Fund has been registered as a Non-Banking Finance Company (NBFC) under the NBFC Rules, 2003 and has obtained the requisite license from the SECP to undertake Asset Management Services. The registered office of the Management Company is situated at 216-217, Continental Trade Centre, Block-8, Clifton, Karachi, in the province of Sindh.
- 1.3** The objective of the Fund is to earn a potentially high return through asset allocation between shariah compliant equity instruments and any other instruments as permitted by the SECP and shariah advisor.
- 1.4** The Fund is an open-ended collective investment scheme and offers units for public subscription on a continuous basis. The units are transferable and can also be redeemed by surrendering to the Fund. The Fund is listed on the Pakistan Stock Exchange Limited.
- 1.5** The Fund is categorized as an open-end Shariah Compliant (Islamic) Equity Scheme in accordance with Circular 7 of 2009, issued by the Securities and Exchange Commission of Pakistan (SECP). Al-Hilal Shariah Advisors (Private) Limited acts as its Shariah Advisor to ensure that the activities of the Fund are in compliance with the principles of Shariah.
- 1.6** Title to the assets of the Fund are held in the name of Digital Custodian Company Limited as trustee of the Fund.
- 1.7** The Pakistan Credit Rating Company Limited (PACRA) has assigned asset manager rating of 'AM3++' to the Management Company dated 27 June 2024. PACRA has also assigned long term / short term performance ranking of the Fund "2-star / 4-star" as on 15 August 2024.
- 1.8** The Fund is registered on 23 August 2021 with Assistant Director of Industries and Commerce (Trust Wing) Government of Sindh under Section 12 of the Sindh Trusts Act, 2020.

2. MATERIAL ACCOUNTING POLICY INFORMATION

The material accounting policy information applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all years presented, unless otherwise stated:

2.1 BASIS OF PREPARATION

a) Statement of compliance

These financial statements have been prepared in accordance with the accounting and reporting standards as applicable in Pakistan. The accounting and reporting standards applicable in Pakistan comprise of:

- International Financial Reporting Standards (IFRS) issued by the International Accounting Standards Board (IASB) as notified under the Companies Act, 2017;
- Provisions of and directives issued under the Companies Act, 2017; and
- Non-Banking Finance Companies (Establishment and Regulations) Rules, 2003 (the NBFC Rules), Non-Banking Finance Companies and Notified Entities Regulations, 2008 (the NBFC Regulations) and requirement of the Trust Deed.

Where provisions of and directives issued under the Companies Act, 2017, the NBFC Rules, the NBFC Regulations and requirements of the Trust Deed differ from the IFRS, the provisions of and directives issued under the Companies Act, 2017, part VIIIA of the repealed Companies Ordinance 1984, the NBFC Rules, the NBFC Regulation and requirements of the Trust Deed have been followed.

The SECP through its letter no. SCD/AMCW/RS/MUFAP/2017-148 dated 21 November 2017 has deferred the applicability of the impairment requirements of IFRS 9 for debt securities on mutual funds. Currently, the Asset Management Companies are required to continue to follow the requirements of Circular 33 of 2012 for impairment of debt securities.

b) Accounting convention

These financial statements have been prepared under the historical cost convention, except the certain investments which are measured at fair value.

c) Functional and presentation currency

These financial statements have been presented in Pak Rupees, which is the Fund's functional and presentation currency. The amounts are rounded off to the nearest thousand rupees except stated otherwise.

d) Critical accounting estimates and judgments

The preparation of these financial statements in accordance with the accounting and reporting standards as applicable in Pakistan requires the management to make judgements, estimates and assumptions that affect the application of policies and reported amounts of assets and liabilities, income and expenses. The estimates, judgements and associated assumptions are based on historical experience and various other factors including expectations of future events that are believed to be reasonable under the circumstances, the results of which form the basis of making judgements about carrying values of assets and liabilities. The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the year in which the estimate is revised if the revision affects only that year, or in the year of revision and future years if the revision affects both current and future years.

The areas involving a higher degree of judgement or complexity, or areas where estimates and assumptions are significant to the financial statements as a whole are as follows:

a) Classification and valuation of financial assets	Note 2.2.1
b) Impairment of financial assets	Note 2.6
c) Provisions	Note 2.13

e) Amendments to published approved accounting standards that are effective in current year and are relevant to the Fund

Following amendments to published approved accounting standards are mandatory for the Fund's accounting periods beginning on or after 01 July 2023:

- Disclosure of Accounting Policies (Amendments to IAS 1 'Presentation of Financial Statements' and IFRS Practice Statement 2 'Making Materiality Judgement').
- Deferred Tax related to Assets and Liabilities arising from a Single Transaction (Amendments to IAS 12 'Income Taxes').
- Change in definition of Accounting Estimate (Amendments to IAS 8 'Accounting Policies, Changes in Accounting Estimates and Errors').
- Amendments to IAS 12 'Income Taxes' - International Tax Reform — Pillar Two Model Rules.

The above-mentioned amendments to approved accounting standards did not have any impact on the amounts recognized in prior period and are not expected to significantly affect the current or future periods.

f) Amendments to published approved accounting standards that are effective in current year but not relevant to the Fund

There are other standards and amendments to published approved accounting standards that are mandatory for accounting periods beginning on or after 01 July 2023 but are considered not to be relevant or do not have any significant impact on the Fund's financial statements and are therefore not detailed in these financial statements.

g) Amendments to published approved accounting standards that are not yet effective but relevant to the Fund

Following standards and amendments to published approved accounting standards have been made and are mandatory for the Fund's accounting periods beginning on or after 01 July 2024 or later periods:

- Classification of liabilities as current or non-current (Amendments to IAS 1 'Presentation of Financial Statements') effective for the annual period beginning on or after 01 January 2023. These amendments in the standards have been added to further clarify when a liability is classified as current. The standard also amends the aspect of classification of liability as non-current by requiring the assessment of the entity's right at the end of the reporting period to defer the settlement of liability for at least twelve months after the reporting period. An entity shall apply those amendments retrospectively in accordance with IAS 8 'Accounting Policies, Changes in Accounting Estimates and Errors'.
- On 31 October 2022, the IASB issued 'Non-current Liabilities with Covenants (Amendments to IAS 1)' to clarify how conditions with which an entity must comply within twelve months after the reporting period affect the classification of a liability. The amendments are effective for reporting periods beginning on or after 01 January 2024.

- Lack of Exchangeability (Amendments to IAS 21 'The Effects of Changes in Foreign Exchange Rates'). The amendments contain guidance to specify when a currency is exchangeable and how to determine the exchange rate when it is not. The amendments are effective for annual reporting periods beginning on or after 01 January 2025.
- IFRS 18 'Presentation and Disclosure in Financial Statements' (effective for annual periods beginning on or after 01 January 2027) with a focus on updates to the statement of profit or loss. The objective of IFRS 18 is to set out requirements for the presentation and disclosure of information in general purpose financial statements to help ensure they provide relevant information that faithfully represents an entity's assets, liabilities, equity, income and expenses. The key new concepts introduced in IFRS 18 relate to: the structure of the income statement; required disclosures in the financial statements for certain profit or loss performance measures that are reported outside an entity's financial statements (that is, management-defined performance measures); and enhanced principles on aggregation and disaggregation which apply to the primary financial statements and notes in general. IFRS 18 will replace IAS 1; many of the other existing principles in IAS 1 are retained, with limited changes. IFRS 18 will not impact the recognition or measurement of items in the financial statements, but it might change what an entity reports as its 'operating profit or loss'.

The above amendments and improvements are likely to have no significant impact on the financial statements.

h) Standards and amendments to approved published standards that are not yet effective and not considered relevant to the Fund

There are other standards and amendments to published approved accounting standards that are mandatory for accounting year beginning on or after 01 July 2024 but are considered not to be relevant or do not have any significant impact on the Fund's financial statements and are therefore not detailed in these financial statements.

2.2 Financial instruments

2.2.1 Classification of financial assets

IFRS 9 contains three principal classification categories for financial assets:

- Amortized cost ("AC"),
- Fair value through other comprehensive income ("FVOCI"); and
- Fair value through profit or loss ("FVTPL").

However, IFRS 9 also provides an option whereby securities managed as a portfolio or group of assets and whose performance is measured on a fair value basis, to be recognized at FVTPL. The Fund is primarily focused on fair value information and uses that information to assess the assets' performance and to make decisions. Therefore, the management considers its investment in long term debt securities as classified them as FVTPL.

2.2.2 Financial assets at amortized cost

A financial asset is measured at amortized cost if it meets both of the following conditions and is not designated as FVTPL:

- 1) the asset is held within a business model whose objective is to hold assets to collect contractual cash flows; and

- 2) the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

2.2.1 Financial assets at FVOCI

A financial asset is measured at FVOCI only if it meets both of the following conditions and is not designated as FVTPL:

- 1) the asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets; and
- 2) the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

On initial recognition, for an equity investment that is not held for trading, the Fund may irrevocably elect to present subsequent changes in fair value in Other Comprehensive Income (OCI), only dividend income is recognized in income statement. This election is made on an investment-by-investment basis.

2.2.1 Financial assets at FVTPL

All other financial assets are classified at FVTPL (for example: equity held for trading and debt securities not classified either as AC or FVOCI).

In addition, on initial recognition, the Fund may irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortized cost or at FVOCI as at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

2.2.1 Recognition and initial measurement of financial instruments

Financial assets and financial liabilities are recognized in the Fund's statement of assets and liabilities when the Fund becomes a party to the contractual provisions of the instrument. Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognized immediately in the income statement.

2.3 Subsequent measurement of financial assets

2.3.1 Financial assets at amortized cost

Financial assets at amortized cost are subsequently measured at amortized cost. Amortized cost is calculated using the effective interest rate method. The effective interest rate is the rate that exactly discounts estimated future cash receipts through the expected life of the financial instrument to the net carrying amount of the financial asset.

2.3.2 Financial assets at FVOCI

All financial assets at FVOCI are subsequently measured at fair value with gains and losses arising due to changes in fair value recognized in other comprehensive income.

For debt instruments classified as financial assets at FVOCI, the amounts already recognized in other comprehensive income are reclassified to income statement on derecognition of financial assets. This treatment is in contrast to equity instruments classified as financial assets at FVOCI, where there is no reclassification on derecognition.

2.3.3 Financial assets at FVTPL

All financial assets designated at fair value through profit or loss are subsequently carried at fair value, with gains and losses arising from changes in fair value recorded in the income statement.

2.4 Fair value measurement principles and provision

The fair value of financial instruments is determined as follows:

2.5 Basis of valuation of equity instruments:

The fair value of shares of listed companies is based on their prices quoted on the Pakistan Stock Exchange Limited at the reporting date without any deduction for estimated future selling costs.

2.6 Impairment of financial assets

Under expected credit loss (ECL) model of IFRS 9, the Fund recognizes loss allowances on financial assets other than debt securities. The Fund measures loss allowances at an amount equal to lifetime ECL, except for the following, which are measured at 12-month ECL:

- Financial assets that are determined to have low credit risk at the reporting date; and
- Other financial assets for which credit risk (i.e. the risk of default occurring over the expected life of the asset) has not increased significantly since initial recognition.

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating ECL, the Fund considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Fund's historical experience and informed credit assessment and including forward-looking information.

As disclosed in note 2.1(a) of these financial statements, the Fund follows requirements of circular No: 33 of 2012 (the circular) for impairment of debt securities. Under the circular, provision for non-performing debt securities is made on the basis of time-based criteria as prescribed under the circular. Impairment loss recognized on debt securities can be reversed through the income statement.

As allowed under circular No. 33 of 2012 dated 24 October 2012 issued by the SECP, the Management Fund may also make provision against debt securities over and above minimum provision requirement prescribed in aforesaid circular, in accordance with the provisioning policy approved by the Board of Directors and disseminated by the Management Fund on its website.

2.7 Classification and measurement of financial liabilities

Under IFRS 9, financial liabilities initially recognized at amortized cost (FVAC) are measured at fair value, adjusted for directly attributable transaction costs. For liabilities at fair value through profit or loss (FVTPL), they are recognized at fair value, but any transaction costs are expensed immediately rather than included in the liability's initial value.

2.8 Derecognition

Financial assets are derecognized when the rights to receive cash flows from the financial assets have expired or where the entity has transferred substantially all risks and rewards of ownership.

A financial liability is derecognized when the obligation specified in the contract is discharged, cancelled or expired.

2.9 Regular way contracts

All purchases and sales of securities that require delivery within the time frame established by regulation or market convention are recognized at the trade date. Trade date is the date on which the Fund commits to purchase or sell assets.

2.10 Offsetting of financial assets and liabilities

Financial assets and financial liabilities are offset and the net amount is reported in the statement of assets and liabilities when there is a legally enforceable right to set off the recognized amounts and there is an intention to settle on a net basis, or to realize the assets and settle the liabilities simultaneously.

2.11 Cash and cash equivalents

Cash and cash equivalents comprise of bank balances and short term highly liquid investments with original maturity of three months or less, are readily convertible to known amounts of cash, are subject to an insignificant risk of changes in value, and are held for the purpose of meeting short term cash commitments rather than for investments and other purposes.

2.12 Provisions

Provisions are recognized when the Fund has a present, legal or constructive obligation as a result of past events, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate of the amount of obligation can be made. Provisions are regularly reviewed and adjusted to reflect the current best estimate.

2.13 Taxation

The income of the Fund is exempt from income tax under clause 99 of Part I of the Second Schedule to the Income Tax Ordinance, 2001 subject to the condition that not less than 90% of its accounting income for the year, as reduced by capital gains, whether realized or unrealized, is distributed in cash to the unit holders.

'The Fund is also exempt from the provisions of Section 113 (Minimum Tax) under clause 11A of Part IV of the Second Schedule to the Income Tax Ordinance, 2001'.

'The Fund does not account for deferred tax in these financial statements as the Fund intends to continue availing the tax exemption in future years by distributing in cash at least 90% of its accounting income for the year as reduced by capital gains, whether realized or unrealized, to its unit holders.

2.14 Dividend distribution and appropriations to unit holder's

Dividend distributions and appropriations are recorded in the year in which these are approved by the Board of Directors of the Management Fund. Based on the Mutual Funds Association of Pakistan's (MUFAP) guidelines (duly consented by the SECP) distribution for the year is deemed to comprise of the portion of income already paid on units redeemed during the year and cash distribution for the year.

Regulation 63 of the NBFC Regulations requires the Fund to distribute at least 90% of the net accounting income other than capital gains to the unit holders.

Distributions declared subsequent to the year-end reporting date are considered as non-adjusting events and are recognized in the financial statements of the year in which such distributions are declared and approved by the Board of Directors of the Management Fund.

2.15 Issue and redemption of units

Units issued are recorded at the offer price, determined by the Management Fund for the applications received by the distributors during business hours on that date. The offer price represents the net asset value per unit as of the close of the business day plus the allowable sales load and any provision for duties and charges, if applicable. The sales load is payable to investment facilitators, distributors and the Management Company.

Units redeemed are recorded at the redemption price, applicable to units for which the distributors receive redemption applications during business hours of that day. The redemption price represents the net asset value per unit as of the close of the business day less any back-end load, any duties, taxes, and charges on redemption, if applicable.

2.16 Element of income / (loss) and capital gains / (losses) included in prices of units issued less those in units redeemed

Element of income represents the difference between net assets value per unit on the issuance or redemption date, as the case may be, of units and the net assets value per unit at the beginning of the relevant accounting year. Further, the element of income is a transaction of capital nature and the receipt and payment of element of income is taken to unit holders' fund. However, to maintain the same ex-dividend net asset value of all units outstanding on the accounting date, net element of income contributed on issue of units lying in unit holders fund is refunded on units in the same proportion as dividend bears to accounting income available for distribution.

2.17 Earnings per unit

Earnings per unit (EPU) has not been disclosed as in the opinion of the management determination of weighted average units for calculating EPU is not practicable.

2.18 Net assets value per unit

The net assets value (NAV) per unit as disclosed in the statement of assets and liabilities is calculated by dividing the net asset of the Fund by the number of units in issue at the year end.

2.19 Revenue recognition

- Capital gain or loss on sale of investments is accounted for in the income statement on the date at which the sale transaction takes place.

- Unrealized gain / loss arising on measurement of investments classified as 'fair value through profit or loss' is included in the income statement in the year in which it arises.
- Dividend income from equity securities is recognized when the right to receive dividend is established.
- Profit on bank deposits is recognized on time proportionate basis using effective yield method.

2.20 Expenses

All expenses including NAV based expenses (namely management fee, trustee fee, annual fee payable to the SECP, and selling and marketing expense) are recognized in the income statement on an accrual basis.

6.1 As per Regulation 61 of the NBFC Regulations, 2008, the Management Company is entitled to a remuneration equal to an amount not exceeding the maximum rate of management fee as disclosed in the offering document subject to the total expense ratio limit. Keeping in view the maximum allowable threshold, the Management Company has charged its remuneration at the rate of 2% (2023: 2%) per annum of the average annual net assets of the Fund during the year ended 30 June 2024. The remuneration is payable to the Management Company monthly in arrears.

6.2 Sindh sales tax at the rate of 13% (2023: 13%) on gross value of management fee is charged under the provisions of Sindh Sales Tax on Services Act, 2011.

6.3 In accordance with Regulation 60 of the NBFC Regulations, 2008, the Management Company is entitled to charge fees and expenses for registrar services, accounting, operation and valuation services, related to a Collective Investment Scheme (CIS).

'The Management Company has charged expenses at the rate of 0.6% (2023: 0.5% 1st quarter & 0.6% in 2nd, 3rd, and 4th quarter) per annum of the average annual net assets of the Fund.

The Finance Act, 2013 enlarged the scope of Federal Excise Duty (FED) on financial services to include Asset Management Companies (AMCs) as a result of which FED at the rate of 16 percent on the remuneration of the Management Company and sales load was applicable with effect from 13 June 2013. The Management Company was of the view that since the

remuneration was already subject to provincial sales tax, further levy of FED would result in double taxation which did not appear to be the spirit of the law. Hence, on 4 September 2013 a constitutional petition was filed with the Sindh High Court (SHC) by the Management Company together with various other asset management companies challenging the levy of FED.

With effect from 1 July 2016, FED on services provided or rendered by non-banking financial institutions dealing in services which are subject to provincial sales tax has been withdrawn by the Finance Act, 2016.

During the year ended 30 June 2017, the SHC passed an order whereby all notices, proceedings taken or pending, orders made, duty recovered or actions taken under the Federal Excise Act, 2005 in respect of the rendering or providing of services (to the extent as challenged in any relevant petition) were set aside. In response to this, the Deputy Commissioner Inland Revenue has filed a Civil Petition for leave to appeal in the Supreme Court of Pakistan which is pending adjudication.

13. TAXATION

The income of the Fund is exempt from income tax under clause (99) of part I of the Second Schedule to the Income Tax Ordinance, 2001 subject to the condition that not less than 90% of the accounting income for the year as reduced by capital gains, whether realised or unrealised, is distributed amongst the unit holders as cash dividend. Furthermore, as per Regulation 63 of the Non-Banking Finance Companies and Notified Entities Regulations, 2008, the Fund is required to distribute not less than 90% of its accounting income for the year derived from sources other than capital gains as reduced by such expenses as are chargeable thereon to the unit holders. Since the management has distributed the required minimum percentage of income earned by the Fund for the year ended 30 June 2024 to the unit holders in the manner as explained above, no provision for taxation has been made in these financial statements during the year.

The Fund is also exempt from the provisions of Section 113 (minimum tax) under clause 11A of Part IV of the Second Schedule to the Income Tax Ordinance, 2001.

14. EARNINGS PER UNIT

Earnings / (loss) per unit is calculated by dividing the net profit / (loss) of the year after taxation of the Fund by the weighted average number of units outstanding during the year.

Earnings per unit (EPU) has not been disclosed as in the opinion of the management, determination of weighted average units for calculating EPU is not practicable.

15. TOTAL EXPENSE RATIO

The total expense ratio of the Fund is 4.41% (2023: 4.39%) and this includes 0.40% (2023: 0.35%) representing Government levy and SECP fee. This ratio is within the maximum limit of 4.5% (2023: 4.5%) prescribed under the NBFC Regulations for a collective investment scheme categorised as a " Shariah Compliant Equity Scheme".

16. TRANSACTIONS WITH CONNECTED PERSONS / RELATED PARTIES

Related parties / connected persons of the Fund include the Management Company, other collective investment schemes managed by the Management Company, the Trustee, AKD Securities Limited, directors, officers, key management personnel, other associated undertakings and unit holders holding more than 10% units of the Fund.

The transactions with connected persons / related parties are in the normal course of business and are carried out on agreed terms at contracted rates.

Remuneration payable to the Management Company and the Trustee is determined in accordance with the provision of the NBFC Regulations, 2008 and Constitutive documents of the Fund.

18 FINANCIAL RISK MANAGEMENT

The Fund's overall risk management program focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the Fund's financial performance.

The Fund's activities expose it to a variety of financial risks: market risk (including currency risk, profit rate and other price risk), credit risk and liquidity risk. Risks of the Fund are being managed by the Management Company in accordance with the approved policies of the Investment Committee which provides broad guidelines for management of above mentioned risks. The Board of Directors of Management Company has overall responsibility for the establishment and oversight of the Fund's risk management framework.

The Fund's financial assets primarily comprise of balances with banks and investment in equity securities classified at 'fair value through profit or loss'. The Fund also has dividend, profit receivable on bank deposits, receivable against sale of securities and deposits. The Fund's principal financial liabilities include remuneration payable to the Management Company, payable to the Trustee, payable against purchase of securities and other liabilities.

18.1 Market risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices.

The Management Company manages market risk by monitoring exposure in marketable securities by following the internal risk management policies and investment guidelines approved by the Investment Committee of the Fund and the regulations laid down by the Securities and Exchange Commission of Pakistan.

Market risk comprises of three types of risk; currency risk, profit rate risk and other price risk.

18.1.1 Currency risk

Currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. The Fund, at present is not exposed to currency risk as its operations are geographically restricted to Pakistan and all transactions are carried out in Pak Rupees.

18.1.2 Yield / interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate as a result of changes in market profit rates. As of 30 June 2023, the Fund is exposed to fair value profit rate risk on its bank balances.

a) Sensitivity analysis for variable rate instruments

At the reporting date, the Fund has balances in savings accounts on which profit rate is 19% (2023: 19.75%) that could expose the Fund to cash flow profit rate risk. The net loss for the year would have increased by Rs. 0.177 million (2023: Rs. 0.010 million) had the profit rates on saving accounts with the banks increased / (decreased) by 100 basis points.

b) Sensitivity analysis for fixed rate instruments

At the reporting date, the Fund does not hold any fixed rate instruments that could expose the Fund to fair value profit rate risk.

Exposure to profit rate risk and maturity

Interest rate sensitivity position for on balance sheet financial instruments is based on the earlier of contractual repricing or maturity date and for off-balance sheet instruments is based on the settlement date.

18.1.3 Price risk

Other price risk is the risk that the fair value of the financial instrument will fluctuate as a result of changes in market prices (other than those arising from profit rate risk or currency risk), whether caused by factor specific to an individual investment, its issuer or factors affecting all instruments traded in the market.

The Fund has exposure to equity price risk arising from its investments in equity securities. The Fund manages its price risk arising from investment in the equity securities by diversifying its portfolio within the eligible limits prescribed in the Fund's Constitutive Documents, the NBFC Regulations and circulars issued by SECP from time to time. The Fund's equity investments are concentrated in the sectors given in note 6.1.

At 30 June 2024, the fair value of equity securities exposed to price risk is disclosed in note 6.1.

The following table illustrates the sensitivity of the profit for the year and the unit holders' fund to an increase or decrease of 5% in the fair values of the Fund's equity securities. This level of change is considered to be reasonably possible based on observation of current market conditions. The sensitivity analysis is based on the Fund's equity securities at each reporting date, with all other variables held constant.

	2024	2023
	----- (Rupees in '000) -----	----- (Rupees in '000) -----
Effect due to increase / decrease in index		
Investment and net assets	10,686	5,141
Income statement	10,686	5,141

18.2 Credit risk

Credit risk represents the risk of a loss if the counterparties fail to perform as contracted. The Fund's credit risk mainly arises from deposits with banks and financial institutions and credit exposure arising as a result of dividend receivable (if any) on equity securities.

Management of credit risk

For banks and financial institutions, the Fund keeps deposits with reputed financial institutions with reasonably high credit ratings. Credit risk on account of profit receivable is minimal due to the statutory protection. All transactions in listed securities are settled / paid for upon delivery using the system of National Clearing Company of Pakistan Limited. The risk of default in these transactions is considered minimal due to inherent systematic measures taken therein. The Fund's policy is to enter into financial contracts in accordance with the investment guidelines approved by the Investment Committee, its Trust Deed and the requirements of the NBFC Rules and the Regulations and the guidelines given by the SECP from time to time.

The maximum exposure to credit risk before considering any collateral as at 30 June 2024 is the carrying amount of the financial assets. None of these assets are 'impaired' as at reporting nor 'past due but not impaired'.

	2024		2023	
	Balance as per statement of assets and liabilities	Maximum exposure	Balance as per statement of assets and liabilities	Maximum exposure

The maximum exposure to credit risk before any credit enhancement as at 30 June 2024 is the carrying amount of the financial assets.

The analysis below summaries the credit rating quality of the Fund's financial assets with banks as at 30 June 2024.

AA- / A1---	Bankislami Pakistan Limited	PACRA	424	100%	9	100%
-------------	-----------------------------	-------	-----	------	---	------

Above ratings are on the basis of latest available ratings at 30 June 2024 assigned by PACRA and VIS Credit Rating Company Limited.

Balance with bank is assessed to have very low expectation of credit risk of default since the banks are highly regulated by the State Bank of Pakistan. None of the balance with banks at the end of the reporting year is past due, and taking into account the historical default experience and the current credit ratings of the banks, the management of the Fund have assessed that there is no impairment, and hence have not recorded any loss allowance on this balance.

Concentration of credit risk

Concentration of credit risk exists when changes in economic or industry factors similarly affect groups of counterparties whose aggregate credit exposure is significant in relation to the Fund's total credit exposure. The Fund's portfolio of financial instruments is mainly concentrated in equity securities which are diversified and relate to various sectors. The Fund's portfolio of other financial assets is broadly diversified and transactions are entered into with diverse credit worthy counterparties thereby mitigating any significant concentration of credit risk.

Settlement risk

The Fund's activities may give rise to risk at the time of settlement of transactions. Settlement risk is the risk of loss due to the failure of an entity to honor its obligations to deliver cash, securities or other assets as contractually agreed.

For the vast majority of transactions the Fund mitigates this risk by conducting settlements through a broker to ensure that a trade is settled only when both parties have fulfilled their contractual settlement obligations.

18.3 Liquidity risk

Liquidity risk is the risk that the Fund will encounter difficulty in meeting obligations arising from its financial liabilities that are settled by delivering cash or another financial asset or such obligations will have to be settled in a manner disadvantageous to the Fund.

The Fund is exposed to daily settlement of equity securities and daily cash redemptions, if any, at the option of unit holders. The Fund approach to managing liquidity is to ensure, as far as possible, that the Fund will always have sufficient liquidity to meet its liabilities when due under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Fund's reputation. Its policy is therefore to invest the majority of its assets in investments that are traded in an active market and can be readily disposed and are considered readily realisable.

In order to manage the Fund's overall liquidity, the Fund also has the ability to withhold daily redemption requests in excess of 10% of the units in issue and such requests would be treated as redemption requests qualifying for being processed on the next business day. Such procedure would continue until the outstanding redemption requests come down to a level below ten percent of the units then in issue. The Fund did not withhold any redemptions during the current year.

The table below analyses the Fund's financial liabilities into relevant maturity groupings based on the remaining year at the reporting date to the contractual maturity date. The amounts in the table are the contractual undiscounted cash flows.

19. UNIT HOLDERS' FUND (UHF) RISK MANAGEMENT

The unit holders' fund is represented by the net assets attributable to unit holders / redeemable units. The amount of net assets attributable to unit holders can change significantly on a daily basis as the Fund is subject to daily issuance and redemptions at the discretion of unit holders. These unit holders of the Fund are entitled to distributions and to payment of a proportionate share based on the Fund's net asset value per unit on the redemption date. The relevant movements are shown on the statement of movement in unit holders' fund.

The Fund's objective when managing unit holders' fund is to safeguard the Fund's ability to continue as a going concern in order to provide returns for the benefits of the unit holders to maintain a strong base of assets to support the development of the investment activities of the Fund and to meet unexpected losses or opportunities. As required under the NBFC Regulations, every open end scheme shall maintain minimum fund size (i.e. net assets of the Fund) of Rs. 100 million at all times during the life of scheme. In order to comply with the requirement and to maintain or adjust the unit holders' fund, the Fund's policy is to perform the following:

- Monitor the level of daily issuance and redemptions relative to the liquid assets and adjust the amount of distributions the Fund pays to the unit holders;
- Redeem and issue units in accordance with the constitutive documents of the Fund. This includes the Fund's ability to restrict redemptions; and
- The Fund Manager / Investment Committee members and the Chief Executive Officer of the Management Company critically track the movement of 'Assets under Management'. The Board of Directors of the Management Company is updated regarding key performance indicators, e.g., yield and movement of NAV and total Fund size at the end of each quarter.

The Fund has maintained and complied with the requirements of minimum fund size during the current year.

20. FAIR VALUE OF FINANCIAL INSTRUMENTS

IFRS 13 - 'Fair Value Measurement' establishes a single source of guidance under IFRS for all fair value measurements and disclosures about fair value measurement where such measurements are required as permitted by other IFRS. It defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e. an exit price).

Financial assets which are tradable in an open market are revalued at the market prices prevailing on the close of trading i.e. year end date. The estimated fair value of all other financial assets and financial liabilities is considered not significantly different from book value as these are short term in nature.

The following table shows financial instruments recognised at fair value based on:

- Level 1:** quoted prices in active markets for identical assets or liabilities;
- Level 2:** those involving inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (as prices) or indirectly (derived from prices); and
- Level 3:** those with inputs for the asset or liability that are not based on observable market data (unobservable inputs).
