Message from CIO's Desk

After an eventful first half of FY24 in which the index KSE 100 increased by 20,998 points, generating a huge return of 50.66% and the market trading at elevated levels of 476.60 million average daily volume, the first month of 2HFY24 was characterized by relative caution and uncertainty. The market remained volatile with bullish sentiment during the first few weeks of the month in which KSE 100 gained 2,371 points to close at month high level of 64,822.43, on the back of improving macro indicators and seamless talks with the IMF. However, as general elections drew closer, political uncertainty came into mainstream investor focus and with significant foreign selling; the tail end of the month turned sentiment bearish as the KSE 100 shed 2,843 points to close at 61,979.18 level (MTD -0.76% / YTD 49.52%).

Bucking the trend of previous months, investor participation saw a significant decline of 52% as well, with average daily volume falling to 491 million shares in Jan 24 compared to 1.031 billion shares the previous month. After months of accumulation, since the start of FY24 in which Foreign Portfolio Investment increased by USD 71 million, January 2024 saw huge net selling of USD 37.22 million by foreign investors. Major sell-off were recorded in Commercial Banks--USD 13.58 M, Oil and Gas Exploration Companies -- USD 8.75 M and Cement -- USD 5.50 M. While on the local front Insurance & Corporates were major net buyers with buying of USD 28.93 M and USD 11.66 M respectively.

Other significant developments which influenced the markets included:

- During January 2024, SBP conducted 2 MTB auctions with a realized amount of PKR 0.40 trillion. The Weighted average yield for 3 months decreased by 85bps, 6 months by 97bps and 12 months by 120ps to 20.4745%, 20.3951% and 20.1411% respectively; signaling a prospective cut in interest rates going forward.

- The NCPI during January 2024 clocked in at 28.34% YoY as compared to 29.66% in December 2023 and 27.55% in January 2023, taking 7MFY24 average NCPI to 28.73% compared to 25.40% during the SPLY. On a regional basis, Urban and Rural CPI clocked in at 30.23% and 25.69% respectively. The slow pace of decline in inflation can be attributed to frequent and sizeable adjustments in administered energy prices which has also impeded expectations of a sustained decrease in inflation. On the other hand, the non-energy inflation continues to moderate, in line with SBP's projections.

- During the first seven months of FY24, the FBR collected PKR 5.150 trillion, exceeding the PKR 5.115 trillion target by PKR 35 billion. The government has projected a revenue collection target of PKR 9.415 trillion for FY24 as against the revised collection of PKR 7.2 trillion in FY23, an increase of PKR 2.219 trillion (30%.)

- The Current Account recorded a surplus for the month of Dec 2023 of USD 397 million, the first since Jun 23, compared to a deficit of USD 15 million (revised) in Nov 2023 taking the HFY24 Current Account Deficit (CAD) to USD 831 million against CAD of USD 3.63 billion SPLY, down 77% on the back of decline in imports, increase in exports and other current transfers. The HFY24 total Imports stood at 30.44 billion USD down by 10% SPLY, total exports stood at 19.06 billion USD up by 10% SPLY, while steady exchange rates also boosted workers' remittances as the 2nd QFY24 recorded remittances of 7.10 billion USD up by 10% when compared to the corresponding quarter last year.

- The prolonged monetary and fiscal tightening took its toll on the real sector with LSMI output for Jul to Nov 23 declining by 0.8% compared to SPLY. The sectors majorly contributing to the overall decline included Textile, Automobiles, Furniture and Tobacco. Agriculture output, however, saw some positive developments as yield on Kharif crops turned out better than last year while the prospects for Rabi crops also appeared promising amid better input conditions.

- The federal government's total debt (domestic and external) at the end of Nov 23 stood at PKR 63.4 Trillion with a YOY increase of 24.39% while MoM increase stood at 1.5%. The federal government has accrued an incremental debt of PKR 2.5 Trillion since the start of Fiscal Year 2024.
