MACRO PERSPECTIVE

Pakistan's economy continued to witness robust growth as the pace of the economy exceeded expectations of the State Bank of Pakistan (SBP), albeit coming at the expense of an elevated Current Account Deficit (CAD) amid rising inflation fueled by a significant currency devaluation and an unprecedented increase in international commodity prices. During FY22, the SBP remained prudent given the inflationary pressures; hence, increasing the policy rate by 675 basis points to 13.75%.

The CAD for FY22 clocked in at USD 17.32 billion as compared to USD 2.82 billion reported during the same period last year (SPLY) owing mainly to an increase in commodity prices, import of plants and machineries under TERF/LTFF loan facilities provided by the SBP and import of COVID vaccines. The Balance of Trade in Goods and Services recorded a deficit of USD 44.71 billion, adding another USD 13.56 billion as imports increased by 34% YoY to USD 84.13 billion. However, exports also posted growth of 25% YoY to stand at USD 39.42 billion. Foreign workers continued to support the external account as workers' remittances surged by 6% YoY to USD 31.24 billion. The Government's continued efforts to attract investments from Non-Resident Pakistanis also paid off, with an impressive inflow of USD 4.61 billion through Roshan Digital Accounts (RDA) from more than 420,000 accounts till June 2022.

According to the press release, the Federal Board of Revenue (FBR) made a net revenue collection of PKR 6.13 trillion during FY22 exceeding the target of PKR 6.10 trillion and increasing 29% over revenues of PKR 4.74 trillion during the same period last year. We believe, record tax collection was on the back of strong economic growth and progressive tax policies of the previous government during the fiscal year. Notably however, tax collection growth came at a cost with major growth in revenue collection was naturally due to an unprecedented growth in imports (customs duty, sales tax, withholding tax) in FY22. Also, the gross collection, including refunds and rebate payments, increased by 29% from PKR 4.89 trillion during FY21 to PKR 6.31 trillion in FY22.

As per the Pakistan Bureau of Statistics (PBS), the average National Consumer Price Index (NCPI) in FY22 was recorded at 12.15% YoY as compared to 8.90% YoY recorded during FY21 primarily due to the removal of fuel subsidies, steadfast food inflation, high transport and electricity costs. Average Core Inflation (measured by excluding food and energy prices) clocked in at 8.12% YoY and 8.98% YoY for Urban and Rural areas respectively, as compared to 5.98% YoY and 7.61% YoY during the SPLY.

The Large Scale Manufacturing (LSM) sector witnessed an increase of 11.7% YoY for FY22 as compared to 11.2% YoY reported during SPLY. During the period under review, major contribution towards the growth came from Textile, Food, Coke and Petroleum products, chemicals and Wearing Apparel.

Likewise, sectors that contributed negative growth included transport equipment, fabricated materials, and Rubber products.

EQUITY MARKET REVIEW

The tumultuous FY22 ended with the KSE-100 index recording a decline of 12.3% YoY to settle at 41,541 points as widespread political and economic uncertainty took a heavy toll on the market. The FY22 started with rising tensions, as the US announced an end of military aggression in Afghanistan, coupled with geopolitical turmoil triggered monetary tightening at home as the policy rate was jacked up by 650bps to 13.75% to address inflation. Investors' sentiment was further jolted following Russia's full-scale invasion into Ukraine which led to a further surge in international commodity prices. Positive investor sentiment on the back of hope of political stability following the former PM Khan's ouster was short-lived as economic realities kicked in with an unsustainable current account deficit and depleting foreign exchange reserves; sovereign default seemed imminent without IMF support. Without say, averting a sovereign default through an IMF program kept confidence in check as harsh economic decisions by the new ruling government were unavoidable. The average daily turnover decreased by 45% YoY to 291.47 million shares during FY22. Similarly, during 4QFY22, the average daily turnover clocked in at 249.45 million shares which declined/increased by 63% YoY / 8% QoQ.

Despite very cheap equity valuations, the market participants remained bearish as the economic outlook seemed bleak with cash constraints as immediate relief through an IMF program was arguably unlikely. Also, the new incumbent government was expected to take unprecedented and unpopulous economic measures including removal of oil subsidies, curtailment of imports, and imposition of heavy taxation on corporate sectors to curb the twin deficits as a pre-requisite to discussions with the IMF.

Some of the news flow that weighed on investor sentiments included:

1. Soaring international energy prices following the Russia-Ukraine war.
2. CAD in May 2022 declined significantly by USD 1.43 billion taking the 11MFY22 CAD to USD 15.20 billion.
3. The State Bank of Pakistan (SBP) in its last monetary policy meeting raised the policy rate by 250 bps to 13.75% in order to reduce external account pressures and improve the deteriorating inflation outlook.
4. The provisional growth rate for the year 2021-22 was estimated at 5.97% according to Ministry of Finance which was relatively higher than the estimates of both the IMF and World Bank.
5. Pakistan forex reserves dwindled to USD 14.21 billion on the back of debt repayments, but then notably increased to USD 16.20 billion albeit delayed after receipt of PKR 2.3 billion from China.
6. Moody's rating agency downgraded Pakistan's outlook to negative from stable on the back of heightened external vulnerability risks and uncertainty about the Government's ability to secure additional external financing.

7. The Government decided to impose additional 10% super tax on high income earning sectors including Fertilizer, Steel, Sugar, Cement, Textiles, Banking, Oil and Gas etc. in order expand the tax ambit to reach the IMF agreed tax collection target of PKR 7.42 trillion.
8. FBR collected revenues worth PKR 6.13 trillion during FY22 exceeding the target of PKR 6.10 trillion and increasing 29% over revenues of PKR 4.74 trillion during same period last year.

Foreign investors continued to remain net sellers with net outflows of USD 297.51 million. Individuals, Banks / DFIs, and Corporates were major buyers with net inflows of USD 157.19 million, USD 115.18 million, and USD 111.01 million, respectively. Whereas, Mutual Funds, Brokers, and Insurance were net sellers with net outflows of USD 128.23 million, USD 20.17 million, and USD 1.15 million, respectively.

The sectors that dragged the KSE-100 down the most included Cement (-41%), Commercial Banks (-14%), Tobacco (-33%), Oil & Gas Exploration (-9%) and Engineering (-41%). However, some of the losses were compensated by Miscellaneous (28%), Fertilizer (4%), Chemicals (2%), Modarabas (59%), and Real Estate Investment Trust (23%).

In terms of valuation, the KSE-100 Index closed at a forward Price to Earnings multiple of 3.88x, which is a 61% discount as compared to MSCI Frontier Markets P/E of 9.97x and offering a healthy dividend yield of 9.83% still illustrating a compelling case to invest.

MONEY MARKET REVIEW

During FY22, twenty six (26) Market Treasury Bill (MTB) auctions were conducted by the State Bank of Pakistan, where the government managed to raise PKR 17.13 trillion. Weighted average yields of 3, 6 and 12 months MTBs were 10.16%, 10.54% and 10.53% respectively, up by 3.01%, 3.25% and 3.11% as compared to 7.15%, 7.29% and 7.42% same period last year.

To further address the need of liquidity, SBP also conducted twelve (12) auctions of fixed rate Pakistan Investment Bond (PIB) and was successful in raising PKR 1.84 trillion. The weighted average yield for 3, 5 and 10 year PIBs increased by 2.23%, 1.77% and 1.61% to 10.67%, 10.70% and 11.06% respectively, as compared to 8.44%, 8.93% and 9.45% same period last year.

The Monetary Policy Committee (MPC) cognizant of external account vulnerabilities and inflationary pressures remained prudent and announced eight (8) Monetary Policy Statements during FY22, increasing the policy rate by 675 basis points to 13.75% to address foreseeable risks. Furthermore, SBP also conducted 104 Open Market Operations (OMO) of different maturities and injected average amount of PKR 1.14 trillion at an average cut off yield of 9.42% and mopped-up average amount of PKR 0.10 trillion at an average cut off yield of 7.22%.

As per the auction target calendar for August – October 2022, the SBP targets to raise PKR 5.35 trillion by issuing 3 to 12 months tenor MTB against maturing amount of PKR 5.73 trillion. In addition, SBP also targets to raise PKR 525 billion through 3 to 30 years tenor fixed rate PIB during the period.

FUTURE OUTLOOK

With the IMF executive board approval of the disbursement of a USD 1.1 billion tranche has in retrospect been viewed positively to the stringent conditions linked with the program, has visibly begun

to bear fruit as the economy has been slowing down amid several measures taken by the government to ensure fiscal discipline and much needed stability. However, the catastrophic flooding in July and August 2022 would further slowdown the economy as the agriculture sector is expected to be hit severely with major crop losses (especially cotton) with immense damage to infrastructure and homes. As the government scrambles to address the devastation, the fiscal loss of the floods is estimated at USD 10 billion reportedly, approximately 3.0% of GDP. The uncertainty related to the estimated loss to the economy and the likelihood of a further downward revision of GDP growth for the current year, coupled with heightened commodity prices internationally; will keep investor sentiment in check.

That said, the resumption of the IMF loan program is likely to pave the way to additional external funding avenues from multilateral lenders and global funding providing much needed support to the external account and reducing exchange rate volatility. More importantly, in the wake of the current floods, further support from international donors and with domestic charity is indeed encouraging which can provide liquidity for rehabilitation efforts and hence economic activity. It is expected that during 4QCY22, Pakistan's external debt servicing liability (*interest component*) stands at USD 862 million and the payment of USD 1 billion for international Sukuk in December is expected to keep the PKR volatile. Moreover, the economic stabilization and eventual ease in international commodity prices amid global recessionary fears is expected to contain inflationary pressures in 2HFY23.

The KSE-100 index is currently trading at an attractive PER of 4.3x compared to the regional average of 12.8x while offering a dividend yield of 8.5% vs. 2.9% offered by the region.

We remain selective for stocks that are relatively immune to higher interest rates and PKR depreciation while the rehabilitation process will keep the cyclical sectors in limelight.

During FY22, the SBP remained prudent given the inflationary pressures; hence, increasing the policy rate by 675 basis points to 13.75%.

The CAD for FY22 clocked in at USD 17.32 billion as compared to USD 2.82 billion reported during the same period last year (SPLY) owing mainly to an increase in commodity prices, import of plants and machineries under TERF/LTFF loan facilities provided by the SBP and import of COVID vaccines. The Balance of Trade in Goods and Services recorded a deficit of USD 44.71 billion, adding another USD 13.56 billion as imports increased by 34% YoY to USD 84.13 billion. However, exports also posted growth of 25% YoY to stand at USD 39.42 billion. Foreign workers continued to support the external account as

workers' remittances surged by 6% YoY to USD 31.24 billion. The Government's continued efforts to attract investments from Non-Resident Pakistanis also paid off, with an impressive inflow of USD 4.61 billion through Roshan Digital Accounts (RDA) from more than 420,000 accounts till June 2022.

According to the press release, the Federal Board of Revenue (FBR) made a net revenue collection of PKR 6.13 trillion during FY22 exceeding the target of PKR 6.10 trillion and increasing 29% over revenues of PKR 4.74 trillion during the same period last year. We believe, record tax collection was on the back of strong economic growth and progressive tax policies of the previous government during the fiscal year. Notably however, tax collection growth came at a cost with major growth in revenue collection was naturally due to an unprecedented growth in imports (customs duty, sales tax, withholding tax) in FY22. Also, the gross collection, including refunds and rebate payments, increased by 29% from PKR 4.89 trillion during FY21 to PKR 6.31 trillion in FY22.

As per the Pakistan Bureau of Statistics (PBS), the average National Consumer Price Index (NCPI) in FY22 was recorded at 12.15% YoY as compared to 8.90% YoY recorded during FY21 primarily due to the removal of fuel subsidies, steadfast food inflation, high transport and electricity costs. Average Core Inflation (measured by excluding food and energy prices) clocked in at 8.12% YoY and 8.98% YoY for Urban and Rural areas respectively, as compared to 5.98% YoY and 7.61% YoY during the SPLY.

The Large Scale Manufacturing (LSM) sector witnessed an increase of 11.7% YoY for FY22 as compared to 11.2% YoY reported during SPLY. During the period under review, major contribution towards the growth came from Textile, Food, Coke and Petroleum products, chemicals and Wearing Apparel. Likewise, sectors that contributed negative growth included transport equipment, fabricated materials, and Rubber products.

EQUITY MARKET REVIEW

The tumultuous FY22 ended with the KSE-100 index recording a decline of 12.3% YoY to settle at 41,541 points as widespread political and economic uncertainty took a heavy toll on the market. The FY22 started with rising tensions, as the US announced an end of military aggression in Afghanistan, coupled with geopolitical turmoil triggered monetary tightening at home as the policy rate was jacked up by 650bps to 13.75% to address inflation. Investors' sentiment was further jolted following Russia's full-scale invasion into Ukraine which led to a further surge in international commodity prices. Positive investor sentiment on the back of hope of political stability following the former PM Khan's ouster was short-lived as economic realities kicked in with an unsustainable current account deficit and depleting foreign exchange reserves; sovereign default seemed imminent without IMF support. Without say, averting a sovereign default through an IMF program kept confidence in check as harsh economic decisions by the new ruling government were unavoidable. The average daily turnover decreased by 45% YoY to 291.47 million shares during FY22. Similarly, during 4QFY22, the average daily turnover clocked in at 249.45 million shares which declined/increased by 63% YoY / 8% QoQ.

Despite very cheap equity valuations, the market participants remained bearish as the economic outlook seemed bleak with cash constraints as immediate relief through an IMF program was arguably unlikely. Also, the new incumbent government was expected to take unprecedented and unpopular economic

measures including removal of oil subsidies, curtailment of imports, and imposition of heavy taxation on corporate sectors to curb the twin deficits as a pre-requisite to discussions with the IMF.

Some of the news flow that weighed on investor sentiments included:

1. Soaring international energy prices following the Russia-Ukraine war.
2. CAD in May 2022 declined significantly by USD 1.43 billion taking the 11MFY22 CAD to USD 15.20 billion.
3. The State Bank of Pakistan (SBP) in its last monetary policy meeting raised the policy rate by 250 bps to 13.75% in order to reduce external account pressures and improve the deteriorating inflation outlook.
4. The provisional growth rate for the year 2021-22 was estimated at 5.97% according to Ministry of Finance which was relatively higher than the estimates of both the IMF and World Bank.
5. Pakistan forex reserves dwindled to USD 14.21 billion on the back of debt repayments, but then notably increased to USD 16.20 billion albeit delayed after receipt of PKR 2.3 billion from China.
6. Moody's rating agency downgraded Pakistan's outlook to negative from stable on the back of heightened external vulnerability risks and uncertainty about the Government's ability to secure additional external financing.
7. The Government decided to impose additional 10% super tax on high income earning sectors including Fertilizer, Steel, Sugar, Cement, Textiles, Banking, Oil and Gas etc. in order expand the tax ambit to reach the IMF agreed tax collection target of PKR 7.42 trillion.
8. FBR collected revenues worth PKR 6.13 trillion during FY22 exceeding the target of PKR 6.10 trillion and increasing 29% over revenues of PKR 4.74 trillion during same period last year.

Foreign investors continued to remain net sellers with net outflows of USD 297.51 million. Individuals, Banks / DFIs, and Corporates were major buyers with net inflows of USD 157.19 million, USD 115.18 million, and USD 111.01 million, respectively. Whereas, Mutual Funds, Brokers, and Insurance were net sellers with net outflows of USD 128.23 million, USD 20.17 million, and USD 1.15 million, respectively.

The sectors that dragged the KSE-100 down the most included Cement (-41%), Commercial Banks (-14%), Tobacco (-33%), Oil & Gas Exploration (-9%) and Engineering (-41%). However, some of the losses were compensated by Miscellaneous (28%), Fertilizer (4%), Chemicals (2%), Modarabas (59%), and Real Estate Investment Trust (23%).

In terms of valuation, the KSE-100 Index closed at a forward Price to Earnings multiple of 3.88x, which is a 61% discount as compared to MSCI Frontier Markets P/E of 9.97x and offering a healthy dividend yield of 9.83% still illustrating a compelling case to invest.

FUTURE OUTLOOK

With the IMF executive board approval of the disbursement of a USD 1.1 billion tranche has in retrospect been viewed positively to the stringent conditions linked with the program, has visibly begun to bear fruit as the economy has been slowing down amid several measures taken by the government to ensure fiscal discipline and much needed stability. However, the catastrophic flooding in July and August

22 would further slowdown the economy as the agriculture sector is expected to be hit severely with major crop losses (especially cotton) with immense damage to infrastructure and homes. As the government scrambles to address the devastation, the fiscal loss of the floods is estimated at USD 10 billion reportedly, approximately 3.0% of GDP. The uncertainty related to the estimated loss to the economy and the likelihood of a further downward revision of GDP growth for the current year, coupled with heightened commodity prices internationally; will keep investor sentiment in check.

That said, the resumption of the IMF loan program is likely to pave the way to additional external funding avenues from multilateral lenders and global funding providing much needed support to the external account and reducing exchange rate volatility. More importantly, in the wake of the current floods, further support from international donors and with domestic charity is indeed encouraging which can provide liquidity for rehabilitation efforts and hence economic activity. It is expected that during 4QCY22, Pakistan's external debt servicing liability (*interest component*) stands at USD 862 million and the payment of USD 1 billion for international Sukuk in December is expected to keep the PKR volatile. Moreover, the economic stabilization and eventual ease in international commodity prices amid global recessionary fears is expected to contain inflationary pressures in 2HFY23.

The KSE-100 index is currently trading at an attractive PER of 4.3x compared to the regional average of 12.8x while offering a dividend yield of 8.5% vs. 2.9% offered by the region.

We remain selective for stocks that are relatively immune to higher interest rates and PKR depreciation while the rehabilitation process will keep the cyclical sectors in limelight.

INDEPENDENT AUDITOR'S REPORT

To the Unit Holders of AKD Opportunity Fund

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of **AKD Opportunity Fund** (the Fund), which comprise the statement of assets and liabilities as at June 30, 2022, and the related income statement, the statement of comprehensive income, statement of movement in unit holders' fund and cash flow statement for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of the Fund as at June 30, 2022, and of its financial performance, cash flows for the year then ended in accordance with accounting and reporting standards as applicable in Pakistan.

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs) as applicable in Pakistan. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Fund and Management Company in accordance with the International Ethics Standards Board for Accountants' *Code of Ethics for Professional Accountants (IESBA Code)* as adopted by the Institute of Chartered Accountants of Pakistan together with the ethical requirements that are relevant to our audit of the financial statements in Pakistan, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matter

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Following is the key audit matter:

S. No.	Key audit matter	How the matter was addressed in our audit
1	Valuation and existence of investment As disclosed in note 6 to the financial statements, investments carried at fair value through profit or loss amounted to Rs. 1,363.915 million as at June 30, 2022. These investments represent a significant item on the statement of assets and liabilities. The Fund invests principally in listed equity securities which is the main driver of the Fund's performance.	In response to this matter, our key audit procedures included the following: - obtained understanding of relevant controls placed by the Management Company applicable to the balances; - traced securities held by the Fund with the securities appearing in the Central Depository Company account statement to verify existence; - independently tested valuations by tracing the prices quoted on Pakistan Stock Exchange;

S. No.	Key audit matter	How the matter was addressed in our audit
	Further, the Fund may have included investments in its financial statements which were not owned by the Fund. Considering the above factors, the valuation and existence of investments are significant areas during our audit due to which, we have considered this as a key audit matter.	- performed verification procedures on purchases and sales on a sample of trades made during the year regarding movement of the securities; and - any differences identified during our testing that were over our acceptable threshold were investigated further.

Information Other than the Financial Statements and Auditor's Report Thereon

Management is responsible for the other information. The other information comprises the information included in the annual report in respect of the Fund but does not include the financial statements and our auditor's report thereon and the information related to any other fund.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Board of Directors of the Management Company for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting and reporting standards as applicable in Pakistan, and for such internal control as the Management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, Management Company is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless Management Company either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

Board of Directors of the Management Company is responsible for overseeing the Fund's financial reporting process

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs as applicable in Pakistan will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs as applicable in Pakistan, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Management Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by Management Company.
- Conclude on the appropriateness of Management Company's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with Board of Directors of Management Company regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide to the Board of Directors of the Management Company with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the Board of Directors of the Management Company, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

In our opinion, the financial statements have been prepared in accordance with the relevant provisions of the Non-Banking Finance Companies (Establishment and Regulation) Rules, 2003 and Non-Banking Finance Companies and Notified Entities Regulations, 2008.

The engagement partner on the audit resulting in this independent auditor's report is Shafqat Ali.

AKD OPPORTUNITY FUND
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2022

1. LEGAL STATUS AND NATURE OF BUSINESS

AKD Opportunity Fund (the Fund) was established under Trust deed, dated December 19, 2005 executed between AKD Investment Management Limited as the Management Company and Central Depository Company of Pakistan Limited as the Trustee. The Trust Deed was executed and was approved by the Securities and Exchange Commission of Pakistan (SECP) on December 7, 2005 in accordance with the requirements of the Non-Banking Finance Companies (Establishment and Regulation) Rules, 2003 (the NBFC Rules) as an open-ended mutual fund. The Fund commenced its operations from April 01, 2006.

The Management Company of the Fund has been registered as a Non-Banking Finance Company (NBFC) under the NBFC Rules and has obtained a requisite license from SECP to undertake Asset Management services. The registered office of the Management Company is situated at 216-217, Continental Trade Centre, Block-8, Clifton, Karachi, in the province of Sindh.

The Fund is an open ended Collective Investment Scheme and offers units for public subscription on a continuous basis. The units are transferrable and can also be redeemed by surrendering to the Fund. The Fund is listed on Pakistan Stock Exchange Limited.

The Fund is categorised as Equity Scheme as per circular 7 of 2009 by SECP. The principal activity of the Fund is to make investments in listed securities and deposits with banks.

The title to the assets of the Fund are held in the name of the Central Depository Company of Pakistan Limited as Trustee of the Fund.

The Management Company has been assigned a quality rating of "AM3++" by the Pakistan Credit Rating Agency Limited (PACRA) on June 30, 2022. The Fund has been given performance ranking of '4-Star' / '5-Star' in Short Term / Long Term by PACRA on February 04, 2022.

The Fund has registered on August 23, 2021 with Assistant Director of Industries and Commerce (Trust Wing) Government of Sindh under Section 12 of the Sindh Trusts Act, 2020.

2. BASIS OF PREPARATION

2.1 Statement of compliance

2.1.1 These financial statements have been prepared in accordance with the accounting and reporting standards as applicable in Pakistan. The accounting and reporting standards applicable in Pakistan comprise of:

- International Financial Reporting Standards (IFRS) issued by the International Accounting Standards Board (IASB) as notified under the Companies Act, 2017;
- Provisions of and directives issued under the Companies Act, 2017 along with part VIII A of the repealed Companies ordinance, 1984; and
- Non-Banking Finance Companies (Establishment and Regulations) Rules, 2003 (the NBFC Rules), Non-Banking Finance Companies and Notified Entities Regulations, 2008 (the NBFC Regulations) and requirements of the Trust Deed.

Where provisions of and directives issued under the Companies Act, 2017, part VIIIA of the repealed Companies Ordinance 1984, the NBFC Rules, the NBFC Regulations and requirements of the Trust Deed differ from the IFRS Standards, the provisions of and directives issued under the Companies Act, 2017, part VIIIA of the repealed Companies Ordinance 1984, the NBFC Rules, the NBFC Regulations and requirements of the Trust Deed have been followed.

2.1.2 The SECP through its letter no. SCD/AMCW/RS/MUFAP/2017-148 dated November 21, 2017 has deferred the applicability of the impairment requirements of IFRS 9 for debt securities on mutual funds. Currently, the Asset Management Companies are required to continue to follow the requirements of Circular 33 of 2012 for impairment of debt securities.

2.2 Basis of measurement

These financial statements have been prepared under the historical cost convention, except the investments which are measured at fair value.

2.3 Functional and presentation currency

These financial statements have been presented in Pakistani Rupees, which is the Fund's functional and presentation currency. The amounts are rounded off to the nearest thousand rupees except stated otherwise.

2.4 Critical accounting estimates and judgements

The preparation of the financial statements in conformity with the accounting and reporting standards requires the management to make estimates, judgements and assumptions that affect the reported amount of assets, liabilities, income and expenses. It also requires the management to exercise judgement in application of its accounting policies. The estimates, judgements and associated assumptions are based on the historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgements about the carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates. Revisions to accounting estimates are recognised in the year in which the estimates are revised if the revision affects only that year, or in the year of revision and future years if the revision affects both current and future years.

The areas involving a higher degree of judgement or complexity, or areas where estimates and assumptions are significant to the financial statements as a whole are as follows:

- (i) Classification and valuation of financial assets (notes 4.1.1);
- (ii) Impairment of financial assets (note 4.1.5); and
- (iii) Provisions (note 4.3)

3. AMENDMENTS TO ACCOUNTING STANDARDS

3.1 Amendments to accounting standards that are effective for the year ended June 30, 2022

The following amendments to accounting standards are effective for the year ended June 30, 2022. These amendments are either not relevant to the Fund's operations or are not expected to have significant impact on the Fund's financial statements other than certain additional disclosures.

4. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies set out below have been applied consistently to all periods presented in these financial statements.

4.1 Financial instruments

4.1.1 Classification of financial assets

IFRS 9 contains three principal classification categories for financial assets:

- Amortised cost ("AC");
- Fair value through other comprehensive income ("FVOCI"); and
- Fair value through profit or loss ("FVTPL").

Financial assets at amortised cost

A financial asset is measured at amortised cost if it meets both of the following conditions and is not designated as FVTPL:

- 1) the asset is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- 2) the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

MA

Financial assets at FVOCI

A financial asset is measured at FVOCI only if it meets both of the following conditions and is not designated as FVTPL:

- 1) the asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets; and
- 2) the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

On initial recognition, for an equity investment that is not held for trading, the Fund may irrevocably elect to present subsequent changes in fair value in Other Comprehensive Income (OCI), only dividend income is recognised in the income statement. This election is made on an investment-by-investment basis.

Financial assets at FVTPL

All other financial assets are classified at FVTPL (for example: equity held for trading and debt securities not classified either as AC or FVOCI).

In addition, on initial recognition, the Fund may irrevocably designate a financial asset that otherwise meets the requirement to measure at amortised cost or at FVOCI as at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

4.1.2 Recognition and initial measurement of financial instruments

Financial assets and financial liabilities are recognised in the Fund's statement of assets and liabilities when the Fund becomes a party to the contractual provisions of the instrument. Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in the income statement.

4.1.3 Subsequent measurement of financial assets

Financial assets at amortised cost

Financial assets at amortised cost are subsequently measured at amortised cost. Amortised cost is calculated using the effective interest rate method. The effective interest rate is the rate that exactly discounts estimated future cash receipts through the expected life of the financial instrument to the net carrying amount of the financial asset.

Financial assets at FVOCI

All financial assets at FVOCI are subsequently measured at fair value with gains and losses arising due to changes in fair value recognised in other comprehensive income.

For debt instruments classified as financial assets at FVOCI, the amounts already recognised in other comprehensive income are reclassified to the income statement on derecognition of financial assets. This treatment is in contrast to equity instruments classified as financial assets at FVOCI, where there is no reclassification on derecognition.

Financial assets at FVTPL

All financial assets designated at fair value through profit or loss are subsequently carried at fair value, with gains and losses arising from changes in fair value recorded in the income statement.

4.1.4 Fair value measurement principles and provision

The fair value of financial instruments is determined as follows:

Basis of valuation of equity securities:

The fair value of shares of listed companies is based on their prices quoted on the Pakistan Stock Exchange Limited at the reporting date without any deduction for estimated future selling costs.

MP

4.1.5 Impairment

Under expected credit loss (ECL) model of IFRS 9, the Fund recognises loss allowances on financial assets other than debt securities. The Fund measures loss allowances at an amount equal to lifetime ECL, except for the following, which are measured at 12-month ECL:

- Financial assets that are determined to have low credit risk at the reporting date; and
- Other financial assets for which credit risk (i.e. the risk of default occurring over the expected life of the asset) has not increased significantly since initial recognition.

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating ECL, the Fund considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Fund's historical experience and informed credit assessment and including forward-looking information.

As disclosed in note 2.1.2 of these financial statements, the Fund follows requirements of circular 33 of 2012 (the circular) for impairment of debt securities. Under the circular, provision for non performing debt securities is made on the basis of time based criteria as prescribed under the circular. Impairment loss recognised on debt securities can be reversed through the income statement.

As allowed under circular no. 33 of 2012 dated October 24, 2012 issued by the SECP, the Management Company may also make provision against debt securities over and above minimum provision requirement prescribed in aforesaid circular, in accordance with the provisioning policy approved by the Board of Directors and disseminated by the Management Company on its website.

4.1.6 Classification and measurement of financial liabilities

All financial liabilities are measured subsequently at amortised cost using the effective interest method or at FVTPL. The effective interest method is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments (including all fees paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial liability, or (where appropriate) a shorter period, to the amortised cost of a financial liability.

4.1.7 Derecognition

Financial assets are derecognised when the rights to receive cash flows from the financial assets have expired or where the entity has transferred substantially all risks and rewards of ownership.

A financial liability is derecognised when the obligation specified in the contract is discharged, cancelled or expired.

4.1.8 Regular way contracts

All purchases and sales of securities that require delivery within the time frame established by regulation or market convention are recognised at the trade date. Trade date is the date on which the Fund commits to purchase or sell assets.

4.1.9 Offsetting of financial assets and liabilities

Financial assets and financial liabilities are offset and the net amount is reported in the statement of assets and liabilities when there is a legally enforceable right to set off the recognised amounts and there is an intention to settle on a net basis, or to realise the assets and settle the liabilities simultaneously.

4.2 Cash and cash equivalents

Cash and cash equivalents comprise balances with banks and short-term highly liquid investments with original maturities of three months or less. Cash and cash equivalents are carried in the statement of assets and liabilities at cost.

4.3 Provisions

Provisions are recognised when the Fund has a present, legal or constructive obligation as a result of past events, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate of the amount of obligation can be made. Provisions are regularly reviewed and adjusted to reflect the current best estimate.

4.4 Taxation

The income of the Fund is exempt from income tax under clause 99 of Part I of the Second Schedule to the Income Tax Ordinance, 2001, subject to the condition that not less than ninety percent of its accounting income for the year, as reduced by capital gains, whether realized or unrealised, is distributed to the unit holders as cash dividend.

The Fund is also exempt from the provisions of Section 113 (minimum tax) and section 113C (Alternative Corporate Tax) under clause 11A of Part IV of the Second Schedule to the Income Tax Ordinance, 2001.

The Fund does not account for deferred tax in these financial statements as the Fund intends to continue availing the tax exemption in future years by distributing in cash at least ninety percent of its accounting income for the year as reduced by capital gains, whether realised or unrealised, to its unit holders.

4.5 Dividend distribution and appropriations

Dividend distributions and appropriations are recorded in the period in which these are approved by the Board of Directors of the Management Company. Based on Mutual Funds Association of Pakistan's (MUFAP) guidelines duly consented by the SECP, distribution for the year also includes portion of income already paid on units redeemed during the year.

Regulation 63 of the NBFC Regulations requires the Fund to distribute 90% of the net accounting income other than capital gains to the unit holders.

Distributions declared subsequent to the year end reporting date are considered as non-adjusting events and are recognised in the financial statements of the period in which such distributions are declared and approved by the Board of

4.6 Issue and redemption of units

Units issued are recorded at the offer price, determined by the Management Company, for the applications received by the distributors during business hours on that date. The offer price represents the net asset value per unit as of the close of the business day plus the allowable sales load and any provision for duties and charges, if applicable. The sales load is payable to investment facilitators, distributors and the Management Company.

Units redeemed are recorded at the redemption price, applicable to units for which the distributors receive redemption applications during business hours of that day. The redemption price represents the net asset value per unit as of the close of the business day less any back-end load, any duties, taxes, and charges on redemption, if applicable.

4.7 Element of income / loss included in prices of units issued less those in units redeemed

Element of income represents the difference between net assets value per unit on the issuance or redemption date, as the case may be, of units and the net assets value per unit at the beginning of the relevant accounting period. Further, the element of income is a transaction of capital nature and the receipt and payment of element of income is taken to unit holders' fund. However, to maintain the same ex-dividend net asset value of all units outstanding on the accounting date, net element of income contributed on issue of units lying in unit holders fund is refunded on units in the same proportion as dividend bears to accounting income available for distribution.

NPX

4.8 Net assets value per unit

The net asset value (NAV) per unit as disclosed in the statement of assets and liabilities is calculated by dividing the net assets of the Fund by the number of units in issue at the year end.

4.9 Revenue recognition

- Capital gain or loss on sale of investment is accounted for in the income statement on the date at which the sale transaction takes place.
- Unrealised gain / loss arising on remeasurement of investments classified as 'fair value through profit or loss' is included in the income statement in the period in which it arises.
- Dividend income from equity securities is recognised when the right to receive dividend is established.
- Profit on bank deposits is recognised on time proportionate basis using effective yield method.

4.10 Expenses

All expenses including NAV based expenses (namely management fee, trustee fee, annual fee payable to the SECP, and selling and marketing expense) are recognised in the income statement on an accrual basis.

8.1 As per the offering document the Management Company charged remuneration at the rate of 2% (2021: 2%) per annum of the average net assets of the Fund. The remuneration is paid to the Management Company on a monthly basis in arrears.

8.2 Sindh Sales Tax on services at the rate of 13% (2021: 13%) on gross value of management fee under the provisions of Sindh Sales Tax on Services Act, 2011.

8.3 As per the requirements of the Finance Act, 2013, Federal Excise Duty (FED) at the rate of 16% (2021: 16%) on the remuneration of the Management Company was applied with effect from June 13, 2013. The Management Company is of the view that since the remuneration is already subject to the provincial sales tax, further levy of FED results in double taxation, which does not appear to be the spirit of the law. The matter was collectively taken up by the Management Company jointly with other Asset Management Companies and Trustees of respective Collective Investment Schemes (CISs), through a Constitutional Petition filed in the Sindh High Court (SHC) during September 2013. In this respect, the SHC had issued a stay order against the recovery of FED due to which the Fund has not made any payments for FED since June 13, 2013.

On June 30, 2016, the Sindh High Court had passed a judgment that after 18th amendment in the Constitution of Pakistan, the Provinces alone have the legislative power to levy a tax on rendering or providing services, therefore, chargeability and collection of FED after July 01, 2011 is ultra vires to the Constitution of Pakistan. On September 23, 2016, the Federal Board of Revenue (FBR) filed an appeal in the Supreme Court of Pakistan (SCP) against above judgement, which is pending adjudication. Management Company, as a matter of abundant caution, has maintained full provision for FED aggregating to Rs. 10.092 million (2021: Rs. 10.092 million) until the matter is resolved. Had the provision not been retained, the net asset value per unit of the Fund as at June 30, 2022 would have been higher by Re. 0.7504 per unit (2021: Re. 0.3912 per unit).

MA

Through Finance Act, 2016, FED on services rendered by Non-Banking Financial Institutions (NBFIs) including Asset Management Companies, which are already subject to provincial sales tax, has been withdrawn.

Therefore, provision for FED has not been recorded in these financial statements from July 01, 2016 onwards.

- 8.4 The Management Company has charged expenses at the rate of 0.45% (2021: 0.35%) per annum of the average annual net assets of the Fund.

11.1 Provision for Sindh Workers' Welfare Fund (SWWF)

During the year, Sindh Revenue Board (SRB) through its letter dated August 12, 2021, has clarified the legal status of applicability of Sindh Workers' Welfare Fund (SWWF).

As per the said letter, having reference no. SRB/TP/70/2013/8772, the Asset Management Companies (AMC) are covered under the term "financial institutions" as per the section 2(g)(v) of the SWWF Act, 2014 and are therefore, subject to SWWF charge, whereas, the Mutual Funds / Pension Funds managed by those AMCs do not qualify as "Financial Institutions / Industrial Establishments" as per the SWWF Act, 2014 and are therefore, not liable to pay SWWF contributions.

The development was discussed at MUFAP level and has also been taken up with the SECP and all the AMCs, in consultation with SECP, have reversed the cumulative provision for SWWF recognised in the financial statements of the Funds.

Consequently, the management has reversed all the provision recognised in respect of SWWF amounting to Rs. 61.066 million.

12. CONTINGENCIES AND COMMITMENTS

15. TAXATION

The Fund's income is exempt from Income Tax as per clause (99) of part I of the Second Schedule to the Income Tax Ordinance, 2001 subject to the condition that atleast 90% of the accounting income for the year as reduced by capital gains whether realised or unrealised is distributed to the unit holders in cash dividend. Furthermore, as per regulation 63 of the Non-Banking Finance Companies and Notified Entities Regulations, 2008, the Fund is required to distribute atleast 90% of the net accounting income other than unrealised capital gain to the unit holders in cash. However, there is no income of the fund if reduced by capital gains, therefore there is no distribution for the year ended. Accordingly, no provision for current tax has been made in these financial statements. The Fund is also exempt from the provisions of section 113 (minimum tax) under clause 11A of Part IV of the Second Schedule to the Income Tax Ordinance, 2001.

16. EARNINGS PER UNIT

Earnings per unit (EPU) has not been disclosed as in the opinion of the management, determination of weighted average units for calculating EPU is not practicable.

17. TOTAL EXPENSE RATIO

The total expense ratio of the Fund is 3.27% (2021: 4.63%) and this includes 0.33% (2021: 1.68%) representing government levies on the Fund such as sales taxes, annual fee payable to the SECP, etc. This ratio is within the maximum limit of 4.5% prescribed under the NBFC Regulations for a Collective Scheme categorised as an "Equity Scheme".

18. TRANSACTIONS WITH CONNECTED PERSONS / RELATED PARTIES

Related parties / connected persons of the Fund include the Management Company, other collective investment schemes managed by the Management Company, the Trustee, AKD Securities Limited, directors, officers, key management personnel, other associated undertakings and unit holders holding more than 10% units of the Fund.

The transactions with connected persons / related parties are in the normal course of business and are carried out on agreed terms at contracted rates.

Remuneration payable to the Management Company and the Trustee is determined in accordance with the provision of the NBFC Regulations, 2008 and Constitutive documents of the Fund.

Details of transactions and balances at period end with related parties / connected persons, other than those which have been disclosed elsewhere in these financial statements, are as follows:

20. FINANCIAL RISK MANAGEMENT

The Fund's overall risk management programme focuses on the unpredictability of financial markets and seeks to minimize potential adverse effects on the Fund's financial performance.

The Fund's activities expose it to a variety of financial risks: market risk (including currency risk, profit rate and other price risk), credit risk and liquidity risk. Risks of the Fund are being managed by the Management Company in accordance with the approved policies of the investment committee which provides broad guidelines for management of above mentioned risks. The Board of Directors of Management Company has overall responsibility for the establishment and oversight of the Fund's risk management framework.

The Fund's financial assets primarily comprise of balances with banks and investment in equity securities of listed companies classified at 'fair value through profit or loss'. The Fund also has dividend, profit receivable on bank deposit, receivable against sale of investment and deposits and other receivables. The Fund's principal financial liabilities include remuneration payable to the Management Company, the Trustee and accrued and other liabilities.

20.1 Market risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices.

The Management Company manages market risk by monitoring exposure in marketable securities by following the internal risk management policies and investment guidelines approved by the Investment Committee of the Fund and the regulations laid down by the Securities and Exchange Commission of Pakistan.

Market risk comprises of three types of risk; currency risk, interest rate risk and other price risk.

20.1.1 Currency risk

Currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. The Fund, at present is not exposed to currency risk as its operations are geographically restricted to Pakistan and all transactions are carried out in Pak Rupees.

20.1.2 Yield / interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate as a result of changes in market interest rates. As of June 30, 2022, the Fund is exposed to fair value interest rate risk on its bank balances.

a) Sensitivity analysis for variable rate instruments

At the reporting date the Fund has balances in saving accounts on which interest rate is 13% (2021: 5.5%) that could expose the Fund to cash flow interest rate risk. The net loss for the year would have increased / (decreased) by Rs. 0.129 million (2021: Rs. 0.335 million) had the interest rates on profit and loss sharing account increased / (decreased) by 100 basis points.

b) Sensitivity analysis for fixed rate instruments

At the reporting date, the Fund does not hold any fixed rate instruments that could expose the Fund to fair value interest rate risk.

Exposure to interest rate risk and maturity

Interest rate sensitivity position for on balance sheet financial instruments is based on the earlier of contractual repricing or maturity date and for off-balance sheet instruments is based on the settlement date.

20.1.3 Price risk

Other price risk is the risk that the fair value of the financial instruments will fluctuate as a result of changes in market prices (other than those arising from interest rate risk or currency risk), whether caused by factor specific to an individual investment, its issuer or factors affecting all instruments traded in the market.

The Fund has exposure to equity price risk arising from its investments in equity securities. The Fund manages its price risk arising from investment in the equity securities by diversifying its portfolio within the eligible limits prescribed in the Fund's Constitutive Documents, the NBFC Regulations and circulars issued by SECP from time to time. The Fund's equity investments are concentrated in the sectors given in note 6.1.

At June 30, 2022, the fair value of equity securities exposed to price risk is disclosed in note 6.1.

The sensitivity of the loss for the year and the unit holders' fund to an increase or decrease of 5% in the fair values of the Fund's equity securities is disclosed below. This level of change is considered to be reasonably possible based on observation of current market conditions. The sensitivity analysis is based on the Fund's equity securities at each reporting date, with all other variables held constant.

20.2 Credit risk

Credit risk represents the risk of a loss if the counterparties fail to perform as contracted. The Fund's credit risk mainly arises from deposits with banks and financial institutions and credit exposure arising as a result of dividend receivable (if any) on equity securities and other receivables.

Management of credit risk

For banks and financial institutions, the Fund keeps deposits with reputed financial institutions with reasonably high credit ratings. Credit risk on account of dividend receivable is minimal due to the statutory protection. All transactions in listed securities are settled / paid for upon delivery using the system of National Clearing Company of Pakistan Limited. The risk of default in these transactions is considered minimal due to inherent systematic measures taken therein. The Fund's policy is to enter into financial contracts in accordance with the investment guidelines approved by the Investment Committee, its Trust Deed and the requirements of the NBFC rules and the regulations and the guidelines given by the SECP from time to time.

The maximum exposure to credit risk before considering any collateral as at June 30, 2022 and June 30, 2021 is the carrying amount of the financial assets. None of these assets are 'impaired' nor 'past due but not impaired'.

Above ratings are on the basis of latest available ratings at June 30, 2022 assigned by PACRA and VIS Credit Rating Company Limited.

Balance with banks is assessed to have low credit risk of default since the banks are highly regulated by the State Bank of Pakistan. Accordingly, the Fund estimates that loss allowance on balance with banks at the end of the reporting period at an amount equal to 12 month Expected Credit Loss (ECL). None of the balance with bank at the end of the reporting period is past due, and taking into account the historical default experience and the current credit ratings of the bank, the Fund have assessed that there is no impairment, and hence have not recorded any loss allowance on this balance.

MA

Concentration of credit risk

Concentration of credit risk exists when changes in economic or industry factors similarly affect groups of counterparties whose aggregate credit exposure is significant in relation to the Fund's total credit exposure. The Fund's portfolio of financial instruments is mainly concentrated in equity securities which are diversified and relate to various sectors. The Fund's portfolio of other financial assets is broadly diversified and transactions are entered into with diverse credit worthy counterparties thereby mitigating any significant concentration of credit risk.

Settlement risk

The Fund's activities may give rise to risk at the time of settlement of transactions. Settlement risk is the risk of loss due to the failure of an entity to honor its obligations to deliver cash, securities or other assets as contractually agreed.

For the vast majority of transactions the Fund mitigates this risk by conducting settlements through a broker to ensure that a trade is settled only when both parties have fulfilled their contractual settlement obligations.

20.3 Liquidity risk

Liquidity risk is the risk that the Fund will encounter difficulty in meeting obligations arising from its financial liabilities that are settled by delivering cash or another financial asset or such obligations will have to be settled in a manner disadvantageous to the Fund.

The Fund is exposed to daily settlement of equity securities and daily cash redemptions, if any, at the option of unit holders. The Fund approach to managing liquidity is to ensure, as far as possible, that the Fund will always have sufficient liquidity to meet its liabilities when due under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Fund's reputation. Its policy is therefore to invest the majority of its assets in investments that are traded in an active market and can be readily disposed and are considered readily realisable.

In order to manage the Fund's overall liquidity, the Fund also has the ability to withhold daily redemption requests in excess of 10% of the units in issue and such requests would be treated as redemption requests qualifying for being processed on the next business day. Such procedure would continue until the outstanding redemption requests come down to a level below 10% of the units then in issue. The Fund did not withhold any redemptions during the current year.

The table below analyses the Fund's financial liabilities into relevant maturity groupings based on the remaining period at the reporting date to the contractual maturity date. The amounts in the table are the contractual undiscounted cash flows.

21. UNIT HOLDERS' FUND (UHF) RISK MANAGEMENT

The unit holders' fund is represented by the net assets attributable to unit holders / redeemable units. The amount of net assets attributable to unit holders can change significantly on a daily basis as the Fund is subject to daily issuance and redemptions at the discretion of unit holders. These unit holders of the Fund are entitled to distributions and to payment of a proportionate share based on the Fund's net asset value per unit on the redemption date. The relevant movements are shown on the statement of movement in unit holders' fund.

The Fund's objective when managing unit holders' fund is to safeguard the Fund's ability to continue as a going concern in order to provide returns for the benefits of the unit holders to maintain a strong base of assets to support the development of the investment activities of the Fund and to meet unexpected losses or opportunities. As required under the NBFC Regulations, 2008 every open end scheme shall maintain minimum fund size (i.e. net assets of the Fund) of Rs. 100 million at all times during the life of scheme. In order to comply with the requirement and to maintain or adjust the Unit Holders' Fund, the Fund's policy is to perform the following:

- Monitor the level of daily issuance and redemptions relative to the liquid assets and adjust the amount of distributions the Fund pays to the unit holders;
- Redeem and issue units in accordance with the constitutive documents of the Fund. This includes the Fund's ability to restrict redemptions; and
- The Fund Manager / Investment Committee members and the Chief Executive Officer of the Management Company critically track the movement of 'Assets under Management'. The Board of Directors of the Management Company is updated regarding key performance indicators, e.g., yield and movement of NAV and total Fund size at the end of each quarter.

The Fund has maintained and complied with the requirements of minimum fund size during the current year.

22. FAIR VALUE OF FINANCIAL INSTRUMENTS

IFRS 13 - 'Fair Value Measurement' establishes a single source of guidance under IFRS for all fair value measurements and disclosures about fair value measurement where such measurements are required as permitted by other IFRSs. It defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e. an exit price).

Financial assets which are tradable in an open market are revalued at the market prices prevailing on the close of trading i.e. reporting date. The estimated fair value of all other financial assets and financial liabilities is considered not significantly different from book value as these are short term in nature.

The following table shows financial instruments recognised at fair value based on:

- Level 1:** quoted prices in active markets for identical assets or liabilities;
- Level 2:** those involving inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (as prices) or indirectly (derived from prices); and
- Level 3:** those with inputs for the asset or liability that are not based on observable market data (unobservable inputs).

میکرو منظر نامہ

(1) عالمی سطح پر اشیاء ضروریہ کی قیمتوں میں غیر معمولی اضافے اور کرنسی کی قدر میں نمایاں کمی کے باعث افراط زر کی بڑھتی ہوئی شرح کے دوران حسابات جاریہ کے بڑھتے ہوئے خسارے کے باوجود پاکستان کی معیشت کی نمو کی رفتار مسلسل تیز رہی اور یہ سٹیٹ بینک آف پاکستان کی توقعات سے بڑھ گئی۔ مالی سال ۲۰۲۲ کے دوران سٹیٹ بینک آف پاکستان افراط زر کے دباؤ کی وجہ سے محتاط رہا اور پالیسی ریٹ کو 675 بیس پوائنٹ بڑھا کر 13.75 فیصد تک لے گیا۔

(2) مالی سال ۲۰۲۲ کے لئے حسابات جاریہ کا خسارہ بڑھ کر 17.32 بلین امریکی ڈالر ہو گیا جو گزشتہ سال کی اسی مدت (ایس پی ایل وائی) کے دوران 2.82 بلین امریکی ڈالر پر پورٹ کیا گیا تھا۔ اس اضافے کی بڑی وجوہات اشیاء ضروریہ کی قیمتوں میں اضافہ، سٹیٹ بینک آف پاکستان کی جانب سے قرضوں کی سہولیات ٹی ای آر ایف ریل ٹی ایف ایف کے تحت پلانٹس اور مشینری کی درآمد اور کووڈ ویکسینز کی درآمد تھیں۔

اشیاء اور خدمات کی تجارت کے توازن میں 44.71 بلین ڈالر کا خسارہ ریکارڈ کیا گیا۔ مزید یہ کہ درآمدات سالانہ 34 فیصد یعنی 13.56 بلین امریکی ڈالر کے اضافے کے ساتھ 84.13 بلین امریکی ڈالر تک پہنچ گئیں۔ تاہم برآمدات بھی 25 فیصد سالانہ اضافہ کے ساتھ 39.42 بلین ڈالر ہو گئیں۔

بیرون ملک مقیم کارکنوں نے بیرونی حسابات کی معاونت جاری رکھی اور ان کی ترسیلات زر سالانہ بنیادوں پر 6 فیصد اضافے کے ساتھ 31.24 بلین ڈالر تک پہنچ گئیں۔ نان ریزیڈنٹ پاکستانیوں کی طرف سے سرمایہ کاری کے حصول کی تسلسل کے ساتھ حکومتی کوششوں کے نتائج بھی سامنے آئے چنانچہ جون ۲۰۲۲ تک روشن ڈیجیٹل اکاؤنٹس کے ذریعے 4 لاکھ 20 ہزار اکاؤنٹس سے 4.61 بلین امریکی ڈالر کی متاثر کن رقم کی ترسیل ہوئی۔

(3) پریس ریلیز کے مطابق فیڈرل بورڈ آف ریونیو (ایف بی آر) نے مالی سال ۲۰۲۲ کے دوران 6.13 ٹریلین روپے کے محصولات جمع کئے جو گزشتہ سال کی اسی مدت کے دوران جمع کئے گئے محصولات 4.74 ٹریلین روپے سے 29 فیصد زیادہ تھے۔

ہمیں یقین ہے ریکارڈ محصولات اس مالی سال کے دوران مستحکم اقتصادی نمو اور سابق حکومت کی ترقی پسند ٹیکس پالیسیوں کا نتیجہ تھے۔ خاص طور سے تاہم ٹیکس جمع کرنے میں نمو محصولات جمع کرنے میں بڑے اضافے کی قیمت پر تھی اور یہ قدرتی طور پر مالی سال ۲۰۲۲ کے دوران درآمدات میں غیر معمولی اضافے کی وجہ سے تھی (کسٹمر ڈیوٹی، سیلز ٹیکس، ود ہولڈنگ ٹیکس)۔ علاوہ ازیں مالی سال ۲۰۲۲ کے دوران مجموعی وصولی بشمول ریفرنڈز اور ری بیٹ ادائیگیاں 29 فیصد اضافے کے ساتھ 6.31 ٹریلین روپے تک پہنچ گئیں جو مالی سال ۲۰۲۱ کے دوران 4.89 ٹریلین روپے تھیں۔

(4) ادارہ برائے شماریات پاکستان (پی بی ایس) کے مطابق مالی سال ۲۰۲۲ میں صارفین کے لئے قیمتوں کا اعشاریہ (این سی پی آئی) سالانہ بنیادوں پر 12.15 فیصد ریکارڈ کیا گیا جو مالی سال ۲۰۲۱ میں سالانہ بنیادوں پر 8.90 فیصد تھا۔ اس کی بنیادی وجوہات میں ایندھن پر سبسڈیز کا خاتمہ، مستقل غذائی افراط زر اور بجلی کی قیمت اور ٹرانسپورٹ کے کرایوں میں اضافہ شامل تھا۔

اوسط بنیادی افراط زر (خوراک اور توانائی کے نرخوں کے علاوہ) کی شرح بڑھ کر شہری علاقوں میں سالانہ بنیادوں پر 8.12 فیصد اور دیہی علاقوں میں بڑھ کر 8.98 ہو گئی جو گزشتہ سال کی اسی مدت کے لئے اسی ترتیب سے 5.98 فیصد اور 7.61 فیصد تھی۔

(5) لارج سکیل مینوفیکچرنگ (ایل ایس ایم) کے شعبے کی نمو مالی سال ۲۰۲۲ میں سالانہ بنیادوں پر 11.7 فیصد رہی جو گزشتہ سال اسی مدت میں 11.2 فیصد ریکارڈ کی گئی تھی۔ زیر جائزہ مدت کے دوران نمو میں بڑا حصہ ٹیکسٹائل، فوڈ، کوک اور پٹرولیم مصنوعات، کیمیکلز اور ملبوسات کا تھا۔ اسی طرح جن شعبوں کی نمو منفی رہی ان میں

ٹرانسپورٹ کے آلات، فہر یکلیڈ میٹر بلیز اور بڑی مصنوعات شامل تھیں۔

ایکویٹی مارکیٹ کا جائزہ

ہنگامہ خیز مالی سال ۲۰۲۲ کے اختتام پر کے ایس ای۔ 100 انڈیکس میں سالانہ بنیادوں پر 12.3 فیصد کمی دیکھی گئی اور یہ بڑے پیمانے پر سیاسی اور معاشی غیر یقینی کے دباؤ میں 41,541 پوائنٹس پر بند ہوا۔ مالی سال ۲۰۲۲ کا آغاز تناؤ میں اضافے کے ساتھ ہوا، جیسا کہ امریکا نے افغانستان میں فوجی جارحیت کے خاتمے کا اعلان کیا، اس کے ساتھ جیو پالیٹیکل بحران نے مقامی سطح پر مالیاتی مشکلات پیدا کیں اور افراط زر سے نمٹنے کے لئے پالیسی ریٹ 13.75 فیصد اضافے کے ساتھ 650 بیس پوائنٹس تک چلا گیا۔ یوکرین پر روس کے بڑے حملے جس سے عالمی سطح پر اشیاء ضروریہ کے نرخ مزید بڑھ گئے، کے نتیجے میں سرمایہ کاروں کے اعتماد کو مزید دھچکا لگا۔ عمران خان کی حکومت کے خاتمے کے بعد سیاسی استحکام کی امید کے پیچھے پایا جانے والا سرمایہ کاروں کا مثبت اعتماد عارضی ثابت ہوا اور حسابات جاریہ کے ناپائیدار خسارے اور غیر ملکی ذرمبادلہ کے ذخائر میں تیزی سے کمی جیسے معاشی حقائق سامنے آئے اور ایسا دکھائی دیا کہ آئی ایم ایف کی معاونت کے بغیر ملک دیوالیہ ہو جائے گا۔ یہ کہنے کی ضرورت نہیں کہ آئی ایم ایف پروگرام کے ذریعے دیوالیہ ہونے سے بچ جانے کے اعتماد کو کچھ حد تک بحال رکھا جبکہ نئی حکومت کی طرف سے مشکل اقتصادی فیصلے ناگزیر تھے۔ مالی سال ۲۰۲۲ کے دوران حصص کا اوسط یومیہ کاروبار سالانہ بنیادوں پر 45 فیصد کمی کے ساتھ 291.47 ملین حصص پر آ گیا۔ اسی طرح، مالی سال ۲۰۲۲ کی چوتھی سہ ماہی کے دوران یومیہ ٹرن اوور 249.45 ملین حصص رہا جو سالانہ بنیادوں پر 63 فیصد کم اور سہ ماہی بنیادوں پر 8 فیصد کم تھا۔

بہت کم ایکویٹی ویلیوایشنز کے باوجود تاریک معاشی منظر نامے اور سرمائے کے حصول میں مشکلات کے باعث مارکیٹ کے شرکاء میں مندی کا رجحان رہا اور آئی ایم ایف پروگرام کے ذریعے فوری ریلیف کا بھی کوئی خاص امکان نہیں تھا۔ مزید یہ کہ نئی حکومت سے آئی ایم ایف کے ساتھ بات چیت کی شرائط کے تحت دونوں خساروں پر قابو پانے کے لئے سبسڈیز کو ختم کرنے، درآمدات کو محدود کرنے اور کارپوریٹ شعبوں پر بھاری ٹیکس عائد کرنے جیسے غیر معمولی اور غیر مقبول اقتصادی اقدامات متوقع تھے۔

کچھ ایسی خبریں آنا شروع ہو گئیں جن سے سرمایہ کاروں کے اعتماد پر دباؤ پڑا

1. روس یوکرین جنگ کے بعد بین الاقوامی سطح پر توانائی کی قیمتوں اضافہ۔
2. مئی ۲۰۲۲ کے دوران حسابات جاریہ کا خسارہ 1.43 بلین امریکی ڈالر کی نمایاں کمی کے ساتھ 15.20 بلین امریکی ڈالر ہو گیا۔
3. سٹیٹ بینک آف پاکستان (ایس بی پی) نے زری پالیسی کے حوالے سے اپنے تازہ ترین اجلاس میں پالیسی ریٹ میں 250 بیس پوائنٹس اضافہ کر کے اسے 13.75 فیصد کر دیا تاکہ بیرونی حسابات پر دباؤ کم کیا جاسکے اور افراط زر کی بگڑتی صورتحال کو بہتر بنایا جاسکے۔
4. وزارت خزانہ کے مطابق سال ۲۰۲۲-۲۰۲۱ کے لئے شرح نمو میں اضافے کا تخمینہ 5.97 فیصد لگایا گیا تھا جو آئی ایم ایف اور عالمی بینک دونوں کے تخمینوں سے زیادہ تھا۔
5. قرضوں کی ادائیگی کی وجہ سے پاکستان کے غیر ملکی زرمبادلہ کے ذخائر کم ہو کر 14.21 فیصد رہ گئے تاہم چین کی طرف سے 2.3 بلین روپے موصول ہونے کے بعد تاخیر کے ساتھ ہی لیکن یہ قابل ذکر طور پر یہ بڑھ کر 16.20 بلین امریکی ڈالر ہو گئے۔
6. ریٹنگ ایجنسی موڈیز نے پاکستان کی آؤٹ لک بیرونی صورتحال سے متاثر ہونے کے خطرات اور حکومت کی طرف سے اضافی بیرونی مالی معاونت کے حصول کی صلاحیت کے غیر یقینی ہونے کی وجہ سے مستحکم سے پھر منفی کر دی۔
7. حکومت نے زیادہ آمدن والے شعبوں بشمول فریلاؤرز، سٹیل، چینی، سیمنٹ، ٹیکسٹائل، بینکنگ، آئل اینڈ گیس وغیرہ پر 10 فیصد اضافی سپر ٹیکس عائد کرنے کا فیصلہ کیا تاکہ آئی ایم ایف کے ساتھ طے پانے والا ٹیکس جمع کرنے کا 7.42 ٹریلین روپے کا ہدف حاصل کرنے کے لئے ٹیکس کا دائرہ کار بڑھایا جاسکے۔

8 ایف بی آر نے مالی سال ۲۰۲۲ کے دوران 6.13 ٹریلین روپے کے محصولات جمع کئے جو 6.10 ٹریلین روپے کے مقررہ ہدف سے زیادہ تھے اور گزشتہ سال کی اسی مدت میں جمع کئے جانے والے محصولات 4.74 ٹریلین روپے سے 29 فیصد زیادہ تھے۔

غیر ملکی سرمایہ کاروں نے اثاثوں کی فروخت پر زور رکھا اور اس کے نتیجے میں 297.52 ملین امریکی ڈالر مارکیٹ سے نکل گئے۔ افراد، بینکس، ڈی ایف آئیز اور کارپوریٹس بڑے خریدار رہے اور ان کی وجہ سے بالترتیب 157.19 ملین امریکی ڈالر، 115.18 ملین امریکی ڈالر اور 111.01 ملین امریکی ڈالر مارکیٹ میں آئے۔ جبکہ میوچل فنڈز، بروکرز اور انشورنس نے حصص فروخت کئے اور اس سے بالترتیب 128.23 ملین امریکی ڈالر، 20.17 ملین امریکی ڈالر اور 1.15 ملین امریکی ڈالر مارکیٹ سے نکل گئے۔

جوشعے کے ایس ای۔ 100 انڈیکس کو سب سے زیادہ نیچے لے کر آئے ان میں سیمنٹ (41- فیصد)، کمرشل بینک (14- فیصد)، تہباکو (33- فیصد)، آئل اینڈ گیس ایکسپلوریشن (9- فیصد) اور انجینئرنگ (41- فیصد) شامل تھے۔ لیکن کچھ نقصانات پورے بھی ہوئے جن میں متفرق (28 فیصد)، فریٹ لائزر (4 فیصد)، کیمیکل (2 فیصد) مضاربہ جات (59 فیصد) اور رینیل اسٹیٹ انویسٹمنٹ ٹرسٹ (23 فیصد) شامل ہیں۔

ویلیویشن کے لحاظ سے، کے ایس ای۔ 100 انڈیکس فاروڈ پرائس ٹوارنگ ملٹی پل کے 3.88 گنا پر بند ہوا جو ایم ایس سی آئی فرنٹیر مارکیٹس پی راری کے 9.97 گنا کے مقابلہ میں 61 فیصد ڈسکاؤنٹ تھا اور اس کے نتیجے میں حصص کی قیمت 9.83 فیصد بڑھ گئی جو سرمایہ کاری کے لئے ایک پرکشش صورتحال ہے۔

مالیاتی مارکیٹ کا جائزہ

مالی سال ۲۰۲۲ کے دوران سٹیٹ بینک آف پاکستان نے مارکیٹ ٹریڈری بل (ایم ٹی بی) کی 26 نیلامیاں منعقد کروائیں۔

جس سے حکومت 17.13 کھرب روپے کا انتظام کرنے کے قابل ہوئی۔ 3، 6 اور 12 ماہ کے ایم ٹی بیز سے حاصل ہونے والی اوسط رقم بالترتیب 10.16 فیصد، 10.54 فیصد اور 10.53 فیصد تھی جو اسی ترتیب کے ساتھ گزشتہ سال کی اسی مدت کے 7.15 فیصد، 7.29 فیصد اور 7.42 فیصد کے مقابلہ میں 3.01 فیصد، 3.25 فیصد اور 3.11 فیصد زیادہ تھی۔

سرمائے کی ضرورت پر مزید توجہ دیتے ہوئے سٹیٹ بینک آف پاکستان نے فکسڈ ریٹ پاکستان انویسٹمنٹ بانڈ (پی آئی بی) کی 12 نیلامیاں منعقد کرائیں اور ان کے ذریعے 1.84 ٹریلین روپے جمع کرنے میں کامیاب ہوا۔ 3، 5 اور 10 سال کی پی آئی بی کی حقیقی اوسط آمدن گزشتہ سال کی اس مدت کی آمدن 8.44 فیصد، 8.93 فیصد اور 9.45 فیصد کے مقابلہ میں 0.67 فیصد، 10.70 فیصد اور 11.06 فیصد رہی جو اسی ترتیب کے ساتھ 2.23 فیصد، 1.77 فیصد اور 1.61 فیصد زیادہ تھی۔

مانیٹری پالیسی کمیٹی (ایم پی سی) نے بیرونی حسابات کو لاحق خطرات اور افراط زر کے دباؤ کا ادراک کرتے ہوئے دانش مندی کا مظاہرہ کیا اور مالی سال ۲۰۲۲ کے دوران آٹھ (8) مانیٹری پالیسی سٹیٹمنٹس کا اعلان کرتے ہوئے پالیسی ریٹ کو 675 پیس پوائنٹس بڑھا دیا جو 13.75 فیصد اضافے کے برابر تھا۔ اس کا مقصد نظر آنے والے خطرات پر توجہ دینا تھا۔

اس کے علاوہ سٹیٹ بینک آف پاکستان نے مختلف میچورٹیز کے 104 اوپن مارکیٹ آپریشن کئے اور اوسطاً 1.14 کھرب روپے کی رقم اوسطاً 9.42 فیصد کی کٹوتی شدہ آمدن کے ساتھ مارکیٹ میں شامل کی اس کے ساتھ اوسطاً 0.10 ٹریلین روپے اوسطاً 7.22 فیصد کی کٹوتی شدہ آمدن کے ساتھ حاصل کئے۔

اگست تا اکتوبر ۲۰۲۲ کے نیلامی کیلیڈنڈر کے مطابق، سٹیٹ بینک آف پاکستان 3 سے 12 ماہ کی مدت کے ایم ٹی بی کے اجرا سے 5.73 کھرب روپے کی رقم میچور کرنے کے برخلاف 5.35 کھرب روپے حاصل کرنے کا ہدف رکھتا ہے۔ اس کے علاوہ، سٹیٹ بینک آف پاکستان اسی مدت کے دوران 3 سے 30 سال کی مدت کے فکسڈ ریٹ پی آئی بی کے ذریعے 525 ارب روپے بھی جمع کرنے کا ہدف رکھتا ہے۔

اظہار تشکر

ڈائریکٹر صاحبان اس موقع پر سکیورٹیز اینڈ ایکسچینج کمیشن آف پاکستان، وزارت خزانہ، سٹیٹ بینک آف پاکستان اور پاکستان سٹاک ایکسچینج کی انتظامیہ کی طرف سے مسلسل معاونت اور تعاون پر ان کا شکریہ ادا کرتے ہیں۔ بورڈ اے کے ڈی انویسٹمنٹ مینجمنٹ لمیٹڈ کے عملہ اور افسران کی مخلصانہ کارکردگی کو بھی سراہتا ہے۔ بورڈ کمپنی پر اعتماد کا اظہار کرنے والے سرمایہ کاروں کا بھی شکریہ ادا کرتے ہیں۔

مستقبل کی پیش بینی

آئی ایم ایف کے بورڈ آف ڈائریکٹرز کی طرف سے 1.1 بلین امریکی ڈالر کی قسط کے اجرا کی منظوری جسے پروگرام سے منسلک سخت شرائط کے جائزے میں مثبت انداز سے دیکھا گیا، کے مثبت نتائج ایک ایسے وقت سامنے آنا شروع ہو گئے ہیں جب سست روی کا شکار معیشت کے پس منظر میں حکومت کی طرف سے مالیاتی نظم کو یقینی بنانے اور ناگزیر استحکام کے لئے کئی اقدامات اٹھائے گئے۔ تاہم جولائی اور اگست ۲۰۲۲ کے دوران تباہ کن سیلاب معیشت میں مزید سست روی لائے گا کیونکہ اس سے بڑی فصلوں (خاص طور پر کپاس) کی پیداوار میں نقصان اور انفراسٹرکچر اور گھروں کو بڑے پیمانے پر نقصان سے زرعی شعبہ شدید متاثر ہوگا۔ اب جبکہ حکومت اس تباہی سے نمٹنے کی سعی میں مصروف ہے، سیلاب سے مالی نقصان کا تخمینہ 10 بلین امریکی ڈالر بتایا جا رہا ہے جو جی ڈی پی کے تقریباً 3.0 فیصد کے برابر ہے۔ معیشت کو نقصان کے تخمینے سے متعلق غیر یقینی اور رواں مالی سال کے دوران جی ڈی پی میں نمو کے تخمینے میں مزید کمی کے امکان کے ساتھ ساتھ بین الاقوامی سطح پر اشیاء ضروریہ کی قیمتوں میں اضافہ سرمایہ کاری کے رجحان کو سست کرے گا۔

کہا یہ گیا کہ آئی ایم ایف قرضہ پروگرام کی بحالی ملٹی لیٹرل لینڈرز اور گلوبل فنانسنگ کی طرف سے بیرونی فنانسنگ کے مزید راستے کھلنے کی راہ ہموار کرے گا جو ہمارے بیرونی حسابات کو اس وقت شدت سے درکار معاونت فراہم کرے گا اور اس سے ایکسچینج ریٹ کے غیر معمولی اتار چڑھاؤ میں کمی آئے گی۔ زیادہ اہم یہ ہے کہ حالیہ سیلاب کے بعد بین الاقوامی ڈونرز اور مقامی عطیات سے مزید معاونت یقیناً حوصلہ افزا ہوگی کیونکہ اس سے بحالی کی کوششوں کے لئے سرمایہ اور اشیاء فراہم ہوں گی اور اس کے نتیجے میں اقتصادی سرگرمیوں میں تیزی آئے گی۔ توقع ہے کہ رواں کیلنڈر سال ۲۰۲۲ کی چوتھی سہ ماہی کے دوران پاکستان کے بیرونی قرضوں کی ادائیگی (سود کا عنصر) 862 ملین امریکی ڈالر ہے اور دسمبر میں انٹرنیشنل سکوک سے ایک بلین امریکی ڈالر کی متوقع وصولی سے پاکستانی روپے کی قدر میں اتار چڑھاؤ کی توقع رہے گی۔ اس کے علاوہ معاشی استحکام اور عالمی کساد بازاری کے خوف کے ساتھ بین الاقوامی سطح پر اشیاء ضروریہ کے نرخوں میں کمی مالی سال ۲۰۲۳ کی دوسری ششماہی میں افراط زر کے دباؤ کے محدود رہنے کی توقع ہے۔

کے ایس ای۔ 100 انڈیکس اس وقت خطے کی اوسط 12.8 گنا کے مقابلہ میں 4.3 گنا کی پرکشش پی ای آر پریٹریڈنگ کر رہا ہے۔ یہ اس وقت خطے میں حصص کی قیمتوں میں اوسطاً 2.9 فیصد کے مقابلہ میں 8.5 فیصد اضافہ دے رہا ہے۔

ہم ان سٹاکس کا انتخاب کرتے ہیں جن کے بلند شرح سود اور روپے کی قدر میں کمی سے نسبتاً محفوظ رہنے کے امکانات ہیں جبکہ بحالی کا عمل منافع اور پیداوار کی کمی اور زیادتی کے ادوار رکھنے والے شعبوں کو نمایاں رکھے گا۔
