MACRO PERSPECTIVE

Over the past year, Pakistan's economy went through a major economic crisis perhaps the worst since independence that led to an unprecedented increase in interest rates and inflation, recording new records in all fronts. The crisis stemmed from the start of the Russia-Ukraine war in February 2022 after which the international commodities prices sharply moved up and coupled with unsustainable global debt levels a number of developing country economies were in complete tail spin. Pakistan was no exception being a net importing country dependent for key essentials like oil, widening deficits of both the current and fiscal account was imminent as the local currency went into free fall and foreign reserves eroded. Hence, to contain the widening Current Account Deficit, the Government had to impose major import restrictions. Through the timely administrative measures adopted by the Government, Pakistan managed to circumnavigate the most difficult economic situation in the Country's history, averting a sovereign default and securing a nine-month Standby Arrangement of US\$3bn with the IMF.

The SBP has proactively focused on restricting the demand growth by adopting monetary contraction through rate increases since June 2020 (*interest rates at 7%*) while the incumbent government resorted to Fiscal tools such as increasing existing taxes along with introducing new ones. In FY23 alone, the SBP

increased the interest rates by 825bps to 22%. Additionally, key conditions of the IMF Program asking for removal of subsidies led to hikes in all utility prices across the board adding inflationary pressures further and higher unemployment. However, the fruits of these politically difficult policies have already started to reflect in demand contraction with most high frequency indicators (*Cement, Auto and POL product sales*). Another important measure that the government took to compress demand was to allow the “Free Float” of the currency, which notably led to a sharp depreciation of the Pak Rupees and naturally contained imports, supported exports and home remittances.

The Current Account Surplus for the month of June 2023 clocked in at USD 334 million, from a Current Account Surplus of USD 220 million (revised) in May 2023 taking the FY23 CAD to USD 2.56 billion (-0.7% of GDP) against USD 17.48 billion (-4.7% of GDP), down -85% YoY during the same period last year primarily due to decline in imports as the Government’s initiatives to stabilize the economy were visibly bearing fruit.

The Government’s resilient efforts to attract investments from Non-Resident Pakistanis continued to yield results, with an impressive inflow of USD 6.48 billion through Roshan Digital Accounts (RDA) with more than 590,000 accounts till July 2023.

Moreover, the FBR collected revenues worth PKR 7.17 trillion during FY23 against the target of 7.64 trillion missing the target by PKR 496 billion despite the imposition of nearly PKR 800 billion additional taxes due to a steep decline in imports and an overall slowdown of the economy.

During FY23, the external account remained a major cause of concern as Pakistan’s liquid foreign exchange reserves decreased by USD 5.70 billion on the back of debt servicing primarily. As of June 30, 2023, the Country’s liquid foreign exchange reserves stood at USD 9.75 billion (*SBP reserves USD 4.46 billion*).

The new IMF program will provide a policy framework to bring power sector reforms in the country along with the SOE governance. This program will support Pakistan in obtaining additional funds from its bilateral partners which is extremely essential in a period of low FX reserves and high debt servicing. The exchange rate is likely to appreciate in the short term due to speculative activity; however, will remain under depreciative pressure till sizeable foreign inflows do not materialize.

The NCPI during the month of August 2023 clocked in at 27.38% YoY as compared to 29.40% YoY in July 2023. This took the 2MFY24 average NCPI to 27.84% compared to 26.10% during the SPLY. The main contributors to the increase in inflation are Housing, Water, Electricity, Gas, and Fuel (weight in CPI 23.63%) with an impact of 0.21% MoM / 6.25% YoY because of the increasing fuel and utility prices and exchange devaluation. Furthermore, food inflation came lower than expected which caused the decline in inflation as noticed by the Food and Non-alcoholic Beverages Index (weight in CPI 34.58%) with an impact of 0.23% MoM / 38.51% YoY.

The Large Scale Manufacturing (LSMI) sector, which accounts for about 80% of the country's industrial output, shrank for the 12th consecutive month in June, by 14.96 percent YoY, leading to contract by 10.26% in FY23 as almost all major industries reported substantial declines. Without say, the fallout of the restrictive measures undertaken by the central bank and the government to contain the current account deficit notably weighed heavily on the industry.

EQUITY MARKET REVIEW

The Equity market, despite closing in flat at 41,452.68 level, decreasing 88 points (-0.21% YoY) remained extremely volatile during the year with excitement over letter of intent from IMF, financial support from KSA, UAE and other bilateral partners, strong corporate results, appointment of the new Chief of Army Staff and the long-awaited Federal Budget FY23. The market also witnessed anxious moments with flash floods that contributed to loss of USD 30 billion, monetary tightening, unprecedented inflation and prolonged political uncertainty investors had very little to celebrate this past year.

During FY23, investor participation declined as volumes contracted by 34% YoY to 190.82 million shares from 291.47 million shares recorded during last year. Surprisingly, after five consecutive years of outflows, foreigners were net buyers in FY23 with USD 1.53 million. Foreigner's interest was majorly caught in Technology and Communication (*USD 43.30 million*) and Oil and Gas Exploration Companies (*USD 27.42 million*).

The sectors that performed during FY23 are Chemical (15.74%), Cement (8.00%), Synthetic & Rayon (40.34%), Investment Banks/Companies (8.16%), and Sugar & Allied Industries (13.00%). While the sectors that kept the bulls in check are Commercial Banks (-9.81%), Pharmaceuticals (-40.36%), Automobile Assembler (-25.67%), Tobacco (-26.18%), and Oil & Gas Exploration Companies (-6.54%). On the local front, major selling was witnessed in Mutual Funds (*USD 144.49 million*) and Insurance Companies (*USD 124.31 million*) as panic swayed away local investors to safer havens and fixed income given that interest rates are almost at record highs.

On a 10Y period, the KSE - 100 index yielded an annualized return of 7.03% (-3.68% *annualized in USD terms*). The persistent decline in the local currency against the US Dollar has kept foreign investors at bay despite extremely compelling valuations. While foreigners have been on the sell side for several years now; frontier market investors are likely to turn net buyers given the unprecedented currency adjustment and cheap valuations provided that Pakistan implement key economic and policy reforms.

We remain positive towards equities based on the premise that i) holding Cash for real value would not be possible given high inflation and currency devaluation, ii) real value over the long term can only be secured in inflation hedged assets such as Real Estate, Gold or Equity, iii) we believe that Gold has rallied significantly over the past several months and is in its consolidation phase while Real Estate being illiquid and capital intensive besides being on the government's radar for taxing, equities plausibly

seems the prime candidate for a long term investment strategy. The index continues to trade at exceedingly attractive multiples with PE and PB of 4.54x and 0.6x with a healthy dividend yield of 10%.

FIXED INCOME REVIEW

During FY23, the State Bank of Pakistan maintained an aggressive monetary tightening stance, steadily increasing the policy rate to an unprecedented historical high of 22.00%. This decisive approach was taken in response to un-abating inflationary pressures, with the average NCPI for FY23 soaring to 29.18%, and the pressing need to fortify the country's deteriorating external account.

The heightened policy rate played a significant role in driving up the rates of government securities, attracting substantial investments into these instruments as investors sought improved returns offered by government debt securities.

Throughout the year, the State Bank of Pakistan conducted a total of twenty-seven (27) Market Treasury Bill (MTB) auctions, where the government managed to raise PKR 25.15 trillion against the auction target of PKR 24.43 trillion. Notably, the weighted average yields for 3, 6, and 12-month MTBs were 18.07%, 18.03%, and 18.07% respectively, up by 791 bps, 748 bps, and 754 bps as compared to 10.16%, 10.54%, and 10.53% during the same period last year.

To further address the need for liquidity, SBP also conducted twelve (12) auctions of fixed-rate Pakistan Investment Bond (PIB) and was successful in raising PKR 1.30 trillion. The weighted average yield for 3, 5, and 10 years PIBs increased by 456 bps, 263 bps, and 191 bps to 15.22%, 13.32%, and 12.94% respectively, as compared to 10.65%, 10.69%, and 11.03% during the same period last year as the yield curve remains inverted.

In the market for Shariah Compliant instruments, the SBP conducted a total of twenty-four (24) auctions of GOP Ijara Sukuk, both Variable Rental Rate (VRR) and Fixed Rental Rate (FRR). These auctions successfully raised PKR 870.78 billion against the auction target of PKR 1,620 billion. Furthermore, during the third quarter of this fiscal year, the SBP introduced 1-year and 3-year GOP Ijara Sukuk.

Moreover, the State Bank of Pakistan carried out 134 Open Market Operations (OMOs) with varying maturities, injecting PKR 57.18 trillion into the market at an average cut-off yield of 17.55% and mopped up PKR 6.73 trillion at an average cut-off yield of 17.06%.

Looking ahead to the auction target calendars for August through October 2023, the State Bank of Pakistan aims to raise PKR 8.25 trillion by issuing 3 to 12-month MTBs against the maturing amount of PKR 8.91 trillion. Additionally, the SBP targets to raise PKR 480 billion through 3 to 30-year fixed-rate PIBs and PKR 1,520 billion through 2 to 10-year floating-rate PIBs.

FUTURE OUTLOOK

As we move into FY24, we believe that structural changes and reforms are necessary to turn around the current economic state addressing fiscal imbalances and external vulnerabilities with sustainable stability. While market consensus suggests foreseeably that the Central Bank has reached its monetary tightening cycle for now, both the fiscal and external accounts are likely to remain very challenging for the Government in the coming year. On the other hand, notably inflation is expected to come off sharply as the high base effect plays out, perhaps providing much needed respite in the form of a reduction in interest rates as debt servicing remains worrying.

The Government announced the Finance Bill for FY23-24 on June 9, 2023 with high expectations and in hopes to regain lost political capital amid one of the worst economic conditions on record. The Finance Minister set GDP growth expectations for FY24 at 3.5% compared to 0.29% in FY23 (*provisional*). Moreover, the Average NCPI target for FY24 is 21% and Budget Deficit and Primary Surplus targets have been set at 6.54% and 0.4% of GDP respectively. Lastly, the Ministry of Finance has targeted exports and remittances to clock at USD 30 billion and USD 33 billion, respectively.

The FBR revenue target is set at PKR 9.4 trillion in FY24. Additionally, the Federal Non-tax revenue target has been marked at PKR 2.96 trillion, 83% higher than FY23. The government is expecting total expenditures of PKR 14.48 trillion in FY24 which is 52% higher than FY23. The Federal Public Sector Development Plan seemingly optimistic is set at PKR 950 billion, 67% higher than in the same period last year. The government has set PKR 7.3 trillion for debt servicing in FY24. The expenditure on defense is at PKR 1.8 trillion in FY24, 15% higher than the last year's budget. While the external debt payment in FY24 has been budgeted at USD 22 billion, which is likely to keep the local currency in check and with it economic direction and performance.

Some of the main provisions of the Finance Bill are as follows:

- Increasing salary tax slabs on people earning PKR 200k per month and above
- Increase in maximum allowed Petroleum Development Levy (PDL) by PKR 10 to PKR 60.
- Imposition of 5% FED on Fertilizers
- Rate of tax IT and IT enabled services was changed from 16% to 5% (without input adjustment).
- The rate of advance tax on sale/purchase of immovable property has been increased from 2% to 3%
- Advance tax on motor vehicles having engine capacity more than 2000cc has been based on value ranging from 6% to 10%
- Re-imposition of 10% final withholding tax on issuance of bonus shares by a company (20% for non-ATL).
- The amnesty provided to people bringing FX to purchase property has incidentally also been withdrawn in line with IMF requirements.

We believe that the support from IMF will help subside the default risk that the country was adamantly facing and more importantly play a major confidence boost for the financial markets. The Equity market rallied around 2,446.32 points (5.90%) on July 3, 2023 – single day highest gain in years on the back of this single event, illustrating that the markets believe that the Country has effectively averted an imminent default. However, the ruling government and economic managers will need to be extremely vigilant and pragmatic for sustainable stability and growth as headwinds remain.

Going forward, the key factors that would drive the market direction include IMF's second quarterly review for the USD 3 billion loan facility under the SBA and clarity on the holding of general elections in Pakistan. One of the key challenges that the Government has been struggling with is to bring down the difference between the interbank and open market exchange rate which has now reached ~7% while the IMF believes the deviation needs to be maintained up to 1.25%. Moreover, the Government will also have to implement some strict measures to contain the soaring fiscal deficit and achieve the desired target of primary surplus agreed with the IMF which will bring a new wave of inflation pressures.

While Pakistan faces one of the worst economic crisis in recent history, we believe that equities as an asset class has over discounted itself. The premise of our positive outlook and re-rating of the capital market stems from the likelihood of Pakistan successfully completing the new SBA IMF program which will notably entail a continuity in reforms and fiscal discipline. The index is trading at a PE multiple of

4.54x far below the long-term averages. The dividend yield is attractive at 10% which is the highest in the region and with the last REER recorded at 87.7492 in June 2023 suggesting the currency has room to appreciate will probably justify and attract foreign investment which can also be noted by the recent month's inflows. We believe that the market currently serves as a striking point for investors.

گزشتہ سالوں میں پاکستان کی معیشت کو شاید آزادی کے بعد بدترین بڑے بحران سے گزرنا پڑا جس سے شرح سود اور افراط زر میں غیر معمولی اضافہ ہوا۔ بحران کا آغاز فروری 2022 میں روس اور یوکرین کے درمیان جنگ سے ہوا جس کے بعد عالمی سطح پر اجناس کی قیمتوں میں تیزی سے اضافہ ہوا جبکہ غیر پائیدار عالمی قرضوں سے متعدد ترقی پذیر ملکوں کی معیشت مشکلات کا شکار ہو گئیں۔ پاکستان اس سے مستثنیٰ نہیں تھا، درآمدات پر انحصار کرنے والا ملک ہوتے ہوئے، جو تیل جیسی کلیدی ضروریات کے لئے بھی اس کی درآمد پر انحصار کرتا ہے، کے لئے حسابات جاریہ اور بجٹ دونوں خسارے ناگزیر تھے، اس کے ساتھ ساتھ مقامی کرنسی کی قدر میں بہت تیزی سے کمی ہوئی اور غیر ملکی زرمبادلہ کے ذخائر بھی بہت کم ہو گئے۔ اس لئے حسابات جاریہ کے خسارے کو کم کرنے کے لئے حکومت کو بڑے پیمانے پر درآمدی پابندیاں عائد کرنا پڑیں۔ اگرچہ حکومت کی طرف سے اٹھائے جانے والے بروقت انتظامی اقدامات کے نتیجے میں دیوالیہ ہونے سے بچ کر پاکستان ملکی تاریخ کی مشکل ترین اقتصادی صورتحال سے نکل گیا اور اس نے آئی ایم ایف کے ساتھ نو ماہ کے لئے سٹینڈ بائی معاہدہ کر لیا۔

اسٹیٹ بینک آف پاکستان نے جون 2020 سے شرح سود (شرح سود 7 فیصد) میں اضافے کے ذریعے مالی نظم و نسق اختیار کرتے ہوئے طلب میں اضافہ پر قابو پانے پر توجہ مرکوز کی ہے جبکہ گزشتہ حکومت نے موجود ٹیکسوں میں اضافہ اور نئے ٹیکس متعارف کروانے جیسے مالی اقدامات کا سہارا لیا۔ صرف مالی سال 2023 میں ایس بی پی شرح سود کو 825 بیس پوائنٹ بڑھا کر 22 فیصد تک لے گیا۔ اس کے علاوہ آئی ایم ایف کی طرف سے سبسڈیز کے خاتمے کی اہم شرائط کی وجہ سے یوٹیلیٹی کی قیمتوں میں ہوشربا اضافہ ہوا، افراط زر کا دباؤ بڑھا اور بے روزگاری بھی بڑھی۔ تاہم سیاسی لحاظ سے مشکل پالیسیوں کے ثمرات ہائی فریکوئنسی انڈیکسٹرز (سینٹ، آٹو اور پی او ایل کی فروخت) کی طلب میں کمی میں ظاہر ہونا شروع ہو چکے ہیں۔ طلب پر قابو پانے کیلئے حکومت کی طرف سے اہم اقدام کرنسی کے ”فری فلوٹ“ کی اجازت دینا تھا جس کے باعث پاکستانی روپے کی تیزی سے بے قدری ہوئی۔

جون 2023 کے مہینے کیلئے کرنٹ اکاؤنٹ مئی 2023 کے 220 ملین امریکی ڈالر کے مقابلے میں 334 ملین امریکی ڈالر سرپلس رہا جس سے مالی سال 2023 کا حسابات جاریہ کا خسارہ 17.48 بلین امریکی ڈالر (جی ڈی پی کا منفی 4.7 فیصد) کے مقابلے میں 2.56 بلین امریکی ڈالر (جی ڈی پی کا منفی 0.7 فیصد) رہا جو گزشتہ سال کی اسی مدت کے مقابلے میں منفی 85 فیصد کم ہے جس کی بنیادی وجہ درآمدات میں کمی تھی کیونکہ حکومت کی طرف سے معیشت کو مستحکم کرنے کیلئے کئے جانے والے اقدامات واضح طور پر ثمر آور تھے۔

نان ریزیڈنٹ پاکستانیوں کی طرف سے سرمایہ کاری کے حصول کی تسلسل کے ساتھ حکومتی کوششوں کے نتائج بھی سامنے آئے چنانچہ جولائی 2023 تک روشن ڈیجیٹل اکاؤنٹس کے ذریعے 5 لاکھ 90 ہزار اکاؤنٹس سے 6.48 بلین امریکی ڈالر کی متاثر کن رقوم کی ترسیل ہوئی۔

فیڈرل بورڈ آف ریونیو (ایف بی آر) نے مالی سال 2023 کے دوران 7.64 ٹریلین کے ہدف کے مقابلے میں 7.17 ٹریلین روپے کے محصولات جمع کئے۔ درآمدات پر پابندی اور مجموعی معاشی سست روی کی وجہ سے 800 بلین روپے کے اضافی ٹیکسوں کے نفاذ کے باوجود 496 بلین روپے کے محاصل حاصل نہ ہو سکے۔

چونکہ مالی سال 2023 کے دوران بنیادی طور پر قرضوں کی اقساط اور سود کی ادائیگی کی وجہ سے پاکستان کے غیر ملکی زرمبادلہ ذخائر میں 5.70 بلین ڈالر کی کمی ہوئی جو بیرونی حسابات کے حوالے سے تشویش کا باعث بنے۔ 30 جون، 2023 تک پاکستان کے غیر ملکی زرمبادلہ ذخائر 9.75 بلین امریکی ڈالر تھے (اسٹیٹ بینک کے پاس 4.46 بلین امریکی ڈالر کے ذخائر)

آئی ایم ایف کا نیا پروگرام پاکستان میں توانائی کے شعبہ کے ساتھ حکومت کی ملکیت میں چلنے والے اداروں میں اصلاحات لانے کے لئے پالیسی فریم

ورک فراہم کرے گا۔ یہ پروگرام اپنے دوطرفہ شراکت داروں سے اضافی فنڈز کے حصول میں پاکستان کی معاونت کرے گا جو غیر ملکی ذرمبادلہ کی بہت کم سطح اور قرضوں پر سود کی بھاری ادائیگیوں کے دور میں پاکستان کے لئے ناگزیر ہے۔ قیاس آرائیوں کی وجہ سے قلیل مدت کے لئے کرنسی کی شرح تبادلہ میں اضافہ ہوگا تاہم یہ اس وقت تک قدر میں کمی کے دباؤ میں ہی رہے گی جب تک ایک معقول مقدار میں غیر ملکی فنڈز حاصل نہیں ہو جاتے۔

اگست 2023 کے لئے قومی سطح پر قیمتوں کا حساس اشاریہ سالانہ بنیاد پر 27.38 فیصد کی بلند سطح پر تھا جبکہ جولائی 2023 میں یہ 29.40 فیصد تھا۔ اس سے مالی سال 2024 کے دو ماہ کے لئے قومی سطح پر قیمتوں کا حساس اشاریہ اوسطاً 27.84 ہو گیا جو گزشتہ سال کی اسی مدت کے لئے 26.10 فیصد تھا۔ افراط زر کی شرح میں اضافے کی اہم وجوہات میں رہائش، پانی، بجلی، گیس اور ایندھن (جس کا قیمتوں کے حساس اشاریہ میں حصہ 23.63 فیصد ہے) اثرات ماہانہ بنیادوں پر 0.21 فیصد اور سالانہ بنیادوں پر 6.25 فیصد رہے جس کی وجہ ایندھن اور دیگر ضروری اشیاء کی قیمتوں میں اضافہ اور روپے کی قدر میں کمی ہے۔ مزید برآں، غذائی افراط زر میں توقع سے زیادہ کمی افراط زر میں کمی کا باعث بنی جیسا کہ خوراک اور نان الکحلک مشروبات کے انڈیکس (قیمتوں کے حساس اشاریہ میں جس کا حصہ 34.58 فیصد ہے) کے اثرات ماہانہ بنیاد پر 0.23 فیصد اور سالانہ بنیاد پر 38.51 فیصد رہے۔

لارج سکیل مینوفیکچرنگ (ایل ایس ایم آئی)، جس کا ملک کی مجموعی صنعتی پیداوار میں حصہ 80 فیصد ہے، کے حجم میں مسلسل باریاں ماہ بھی کمی آئی جو جون کے دوران سالانہ بنیاد پر 14.96 فیصد اور مالی سال 2023 کے دوران اس کے حجم میں 10.26 فیصد کمی ہوئی جبکہ تمام بڑی صنعتوں نے اپنی پیداوار میں نمایاں کمی رپورٹ کی۔ یہ کہنے کی ضرورت نہیں کہ مرکزی بینک اور حکومت کی طرف سے حسابات جاریہ کے خسارے کو روکنے کے لئے اٹھائے گئے اقدامات سے صنعتی شعبہ پر بھاری بوجھ پڑا۔

ایکویٹی مارکیٹ کا جائزہ

ایکویٹی مارکیٹ 88 پوائنٹس (سالانہ بنیادوں پر منفی 0.21 فیصد) کی کمی کے ساتھ 41,452.68 پر بند ہونے کے باوجود اس سال سخت اتار چڑھاؤ کا شکار رہی جس میں آئی ایم ایف کی طرف سے اظہار دلچسپی، سعودی عرب اور متحدہ عرب امارات اور دیگر باہمی شراکت داروں کی مالی معاونت، مستحکم کارپوریٹ نتائج، نئے چیف آف آرمی سٹاف کی تقرری اور مالی سال 2023 کے بجٹ جس کا طویل عرصہ سے انتظار تھا، سے پیدا ہونے والے محرک کے ساتھ ساتھ مارکیٹ نے مون سون کے دوران شدید بارشوں سے آنے والے سیلابوں کے تشویش والے مہینوں کا بھی مشاہدہ کیا جن سے تقریباً 30 ارب ڈالر کا نقصان ہوا۔ جس کے نتیجے میں مالیاتی حالات سخت ہو گئے، افراط زر غیر معمولی طور پر بڑھ گئی اور سیاسی بے یقینی کی طوالت نے گزشتہ سال کے دوران کوئی اچھا موقع پیدا نہ ہونے دیا۔

مالی سال 2023 کے دوران سرمایہ کاروں کی شراکت میں بھی کمی ہوئی اور سرمایہ کاری کے حجم میں سالانہ بنیادوں پر 34 فیصد کمی ہوئی۔ یہ 190.82 ملین حصص کی خرید و فروخت تھی جو گزشتہ سال کے دوران 291.47 ملین حصص کی خرید و فروخت کے مقابلے میں نمایاں طور پر کم تھی۔ حیرت انگیز طور پر مسلسل پانچ سال تک حصص کی فروخت کے بعد مالی سال 2023 کے دوران غیر ملکی خریداروں نے ہی حصص کی خریداری کی جس کا حجم 1.53 ملین ڈالر تھا۔ غیر ملکی سرمایہ کاروں نے زیادہ تر ٹیکنالوجی اور کمیونٹی کیشن (43.30 ملین ڈالر) اور تیل و گیس تلاش کرنے والی کمپنیوں (27.42 ملین ڈالر) میں سرمایہ کاری کرنے میں خاص طور سے دلچسپی لی۔

مالی سال 2023 کے دوران جن شعبوں نے کارکردگی دکھائی ان میں کیمیکل (15.74 فیصد)، سینٹ (8.00 فیصد) سٹیتھیک اینڈ رے آن (40.34 فیصد)، انویسٹمنٹ بینکس کمپنیز (8.16 فیصد) اور شوگر اور متعلقہ صنعتیں (13.00 فیصد) شامل ہیں جبکہ جن مندی کا شکار رہنے والے شعبوں میں بینک (9.81 فیصد)، فارماسیوٹیکلز (40.36 فیصد)، آٹو موٹیل اسمبلر (25-67 فیصد)، تمباکو (26.18 فیصد) اور آئل اینڈ گیس

ایکسپلوریشن کمپنیز (6.54- فیصد) شامل ہیں۔ مقامی طور پر حصص کی سب سے زیادہ فروخت میوچل فنڈز (144.49 ملین ڈالر) اور انشورنس کمپنیز (124.31 ملین ڈالر) میں دیکھی گئی کیونکہ مقامی سرمایہ کاروں نے اپنے سرمائے کو زیادہ محفوظ سرمایہ کاری کی طرف منتقل کیا یعنی شرح سود ریکارڈ بلند سطح پر پہنچ جانے کے باعث فلسفہ انکم کی طرف رخ کیا۔

دس سالہ مدت کے دوران کے ایس ای-100 انڈیکس کا سالانہ منافع 7.03 فیصد (امریکی ڈالر میں سالانہ فیصد 3.68-) رہا۔ امریکی ڈالر کے مقابلہ میں مقامی کرنسی کی قدر میں مسلسل کمی نے غیر ملکی سرمایہ کاروں کو ترغیبات سے بھرپور تخمینوں کے باوجود سرمایہ کاری سے روک رکھا۔ اب جبکہ غیر ملکی سرمایہ کار کئی سال سے سرمایہ نکال رہے ہیں تو کرنسی کی قدر میں غیر معمولی ایڈجسٹمنٹس اور بشرطیکہ پاکستان بنیادی اقتصادی اور پالیسی اصلاحات پر عملدرآمد کرے، تو سستے تخمینوں کی صورت میں غیر متحرک سرمایہ کاروں کی طرف سے حصص کی خریداری کا امکان ہے۔

ہم اس بنیاد پر ایکویٹی بارے پر امید رہیں گے کہ

i- افراط زر کی بلند شرح اور کرنسی کی قدر میں کمی کی صورت میں نقدی کی اصل مالیت برقرار رہنا ممکن نہیں ہوگی ii- اصل مالیت زر کو طویل مدت تک صرف رینیل اسٹیٹ، سونے یا ایکویٹی جیسے ٹھوس اثاثوں کے ذریعے ہی تحفظ دیا جاسکتا ہے۔ iii- ہمیں یقین ہے کہ گزشتہ مہینوں کے دوران سونے کی خریداری میں اضافہ ہوا ہے اور اب یہ استحکام کے مرحلے میں ہے، جبکہ رینیل اسٹیٹ جامد ہونے اور بھاری سرمایہ کاری درکار ہونے کے ساتھ ساتھ ٹیکس عائد کرنے کے لئے حکومت کے ریڈار پر ہونے کی وجہ سے طویل مدت سرمایہ کاری کی حکمت عملی کے تحت ایکویٹیز ہی سرمایہ کاری کے لئے بہترین امیدوار ہو سکتا ہے۔ اس وقت انڈیکس میں حصص کی خرید و فروخت دلکش منافع کے ساتھ ہو رہی ہے جو 4.54 گنا اور 0.6 گنا کے ساتھ پرائیویٹ ایکویٹی اور پرائیویٹ بزنس کے لئے ہے اور اس کا سالانہ منافع 10 فیصد کی معقول سطح پر ہے۔

فلسفہ انکم کا جائزہ

مالی سال 2023 کے دوران اسٹیٹ بینک آف پاکستان نے سخت مالی اور زرعی اقدامات کو برقرار رکھتے ہوئے پالیسی ریٹ میں تیزی کے ساتھ اضافہ کیا جو 22.00 فیصد کی غیر معمولی تاریخی سطح پر پہنچ گیا۔ یہ فیصلہ کن حکمت عملی مالی سال 2023 کے لئے اوسط این سی پی آئی بڑھ کر 29.18 فیصد اور ملک کے بیرونی حسابات کی بگڑتی ہوئی صورتحال کو ٹھیک کی ضرورت کے ساتھ افراط زر کے بڑھتے ہوئے دباؤ پر قابو پانے کیلئے اختیار کی گئی۔

پالیسی ریٹ میں اضافہ نے حکومتی سیکورٹیز کی شرحوں کو بڑھانے اور مذکورہ انسٹرومنٹس میں نمایاں سرمایہ کار راغب کرنے کے کردار ادا کیا کیونکہ سرمایہ کاروں کو حکومتی ڈیبٹ سیکورٹیز کی طرف سے بہتر منافع کی طلب تھی۔

پورے سال کے دوران اسٹیٹ بینک آف پاکستان نے مارکیٹ ٹریڈری بل (ایم ٹی بی) کی 27 نیلامیاں کی جس سے حکومت 24.43 ٹریلین روپے کے ہدف کے مقابلے میں 25.15 ٹریلین روپے حاصل کرنے کے قابل ہوئی۔ قابل ذکر بات ہے کہ 3، 6، 12 ماہ کے ایم ٹی بیز کی اوسط آمدن گزشتہ سال کی اسی مدت کے 10.16 فیصد، 10.54 فیصد اور 10.53 فیصد کے مقابلے میں 18.07 فیصد، 18.03 فیصد اور 18.07 فیصد رہی جو اسی ترتیب کے ساتھ 791 بی پی ایس، 748 بی پی ایس اور 754 بی پی ایس زیادہ تھی۔

سرمائے کی ضرورت پر مزید توجہ دیتے ہوئے اسٹیٹ بینک آف پاکستان نے فلسفہ ریٹ پاکستان انویسٹمنٹ بانڈ (پی آئی بی) کی 12 نیلامیاں منعقد کرائیں اور ان کے ذریعے 1.30 ٹریلین روپے جمع کرنے میں کامیاب ہوا۔ 3، 5 اور 10 سال کی پی آئی بی کی حقیقی اوسط آمدن گزشتہ سال کی اس مدت کی آمدن 10.65 فیصد، 10.69 فیصد اور 11.03 فیصد کے مقابلے میں 15.22 فیصد، 13.32 فیصد اور 12.94 فیصد رہی جو اسی ترتیب کے ساتھ 456 بی پی

ایس، 263 بی پی ایس اور 191 بی پی ایس زیادہ تھی۔

شریعہ کمپلائنسٹ انسٹرومنٹ کیلئے مارکیٹ میں ایس بی پی نے حکومت اجارہ سکوک، ویرا سیل ریٹل ریٹ (وی آر آر) اور فکسڈ ریٹل ریٹ (ایف آر آر) دونوں کی 24 نیلامیاں کیں جس سے 1620 بلین روپے کے ہدف کے برخلاف 870.78 بلین روپے اکٹھے کرنے میں کامیاب حاصل ہوئی۔ اس کے علاوہ مالی سال کی تیسری سہ ماہی کے دوران ایس بی پی نے ایک سال اور تین سال کے حکومتی اجارہ سکوک متعارف کروائے۔

اس کے علاوہ سٹیٹ بینک آف پاکستان نے مختلف میچورٹیز کے 134 اوپن مارکیٹ آپریشن (او ایم اوز) کئے اور اوسطاً 57.18 ٹریلین روپے کی رقم اوسطاً 17.55 فیصد کی کٹوتی شدہ آمدن کے ساتھ مارکیٹ میں شامل کی اس کے ساتھ اوسطاً 6.73 ٹریلین روپے اوسطاً 17.06 فیصد کی کٹوتی شدہ آمدن کے ساتھ حاصل کئے۔

اگست تا اکتوبر 2023 کے نیلامی کیلینڈر کے مطابق، سٹیٹ بینک آف پاکستان 3 سے 12 ماہ کی مدت کے ایم ٹی بی کے اجراء سے 8.91 ٹریلین روپے کی رقم میچور کرنے کے برخلاف 8.25 ٹریلین روپے حاصل کرنے کا ہدف رکھتا ہے۔ اس کے علاوہ، سٹیٹ بینک آف پاکستان اسی مدت کے دوران 3 سے 30 سال کی مدت کے فکسڈ ریٹ پی آئی بی کے ذریعے 480 ارب روپے اور 2 سے 10 سال کی مدت کے فلوٹنگ ریٹ پی آئی بی کے ذریعے 1520 ارب روپے بھی جمع کرنے کا ہدف رکھتا ہے۔

مستقبل کی پیش بینی

جیسا کہ ہم مالی سال 2024 میں داخل ہو رہے ہیں، ہمیں یقین ہے کہ پائیدار استحکام کے ساتھ مالی عدم توازن اور بیرونی خطرات سے نمٹتے ہوئے موجودہ معاشی حالات کو بدلتے ہوئے ڈھانچے جاتی تبدیلیاں اور اصلاحات ضروری ہیں۔ مارکیٹ میں اتفاق رائے سے یہ توقع کی جا رہی ہے کہ مرکزی بینک کی طرف سے سود کی شرح بہت زیادہ بلند سطح تک پہنچ گئی ہے، اس لئے آنے والے سال میں مالی اور بیرونی حسابات حکومت کیلئے چیلنج رہیں گے۔ دوسری طرف گزشتہ سال تیزی سے اضافہ کے پس منظر میں افراط زر کی شرح نمایاں تیزی کے ساتھ کم ہونے کی توقع ہے جس کے نتیجے میں شرح سود میں کمی ہو سکتی ہے

جس کی اس وقت سخت ضرورت ہے تاہم قرضوں پر سود کی ادائیگی کی پریشانی رہے گی۔

حکومت نے بہت زیادہ توقعات اور پولیٹیکل کیپٹل کے دوبارہ حصول کی امید کے ساتھ 9 جون، 2023 کو مالی سال 2023-24 فنانس بل کا اعلان کیا۔ وزیر خزانہ نے مالی سال 2024 کیلئے جی ڈی پی کی 3.5 فیصد کی شرح نمو کی توقع ظاہر کی جبکہ مالی سال میں یہ شرح 0.29 فیصد تھی اس کے علاوہ مالی

سال 2024 کیلئے این سی پی آئی کا ہدف 21 فیصد اور بجٹ خسارہ اور پرائمری سرپلس کے اہداف جی ڈی پی کے بلز ترتیب 6.54 فیصد اور 0.4 فیصد ہوں گے۔ آخر میں، وزارت خزانہ نے برآمدات اور ترسیلات زر کیلئے 30 بلین امریکی ڈالر اور 33 بلین امریکی ڈالر کے اہداف مقرر کئے ہیں۔

مالی سال کیلئے ایف بی آر کا محاصل کا ہدف 9.4 ٹریلین روپے ہے۔ اس کے علاوہ فیڈرل نان ٹیکس آمدن کا ہدف 2.96 ٹریلین رکھا گیا جو مالی سال 2023 سے 83 فیصد زیادہ ہے۔ حکومت کا مالی سال 2024 کیلئے کل اخراجات کا تخمینہ 14.48 ٹریلین روپے ہے جو گزشتہ سال کی اسی مدت کے مقابلے میں 52 فیصد زیادہ ہے۔ حکومت نے مالی سال 2024 میں قرضوں کی اقساط اور سود کی ادائیگی کیلئے 7.3 ٹریلین روپے رکھے ہیں۔ دفاعی اخراجات 1.8 ٹریلین روپے جو گزشتہ سال کے بجٹ سے 15 فیصد زیادہ ہے۔ مالی سال 2024 میں بیرونی قرضوں کی ادائیگی کی رقم 22 بلین امریکی ڈالر ہے جس سے معاشی سمت اور کارکردگی کے ساتھ مقامی کرنسی کو قابو میں رکھنے کی توقع ہے۔

فنانس بل کی چند بڑے نکات درج ذیل ہیں:

- ماہانہ دولاکھ روپے اور اسے زائد کمانے والے افراد پر سیلری ٹیکس سلیبز میں اضافہ

- پٹرولیم ڈیولپمنٹ لیوی (پی ڈی ایل) کی زیادہ سے زیادہ حد میں 10 روپے سے بڑھا کر 60 کا اضافہ

- فریٹلائزرز پر 5 فیصد ایف ای ڈی کا نفاذ

- آئی ٹی اور آئی ٹی ان ایبلڈ سروسز پر ٹیکس کی شرح 16 فیصد سے کم کر کے 5 فیصد کر دی گئی (ان پٹ کی ایڈجسٹمنٹ کے بغیر)

- غیر منقولہ جائیداد کی خرید و فروخت پر ایڈوائس ٹیکس کی شرح 2 فیصد سے بڑھا کر 3 فیصد کر دی گئی

- 2000 سی سی سے زائد انجن کی صلاحیت کی حامل گاڑیوں پر ایڈوائس ٹیکس 6 فیصد سے بڑھا کر 10 فیصد کر دیا گیا

- کمپنی کی طرف سے بونس شیئرز کے اجرا پر 10 فیصد کے حتمی وڈ ہولڈنگ ٹیکس کا دوبارہ نفاذ (20 فیصد برائے نان فالکوز)

- پراپرٹی خریدنے کیلئے غیر ملکی زرمبادلہ لانے والے افراد کو دی جانے والی ایمنسٹی آئی ایم ایف پروگرام کی وجہ سے واپس لے لی گئی۔

ہمیں یقین ہے کہ آئی ایم ایف کی طرف سے معاونت سے ملک کے ڈیفالٹ ہونے کا خطرہ ٹل جائے گا بلکہ مالی منڈیوں کیلئے اعتماد میں بھی اضافہ

ہوگا۔ ایکویٹی مارکیٹ میں 3 جولائی، 2023 کو 2,446.32 پوائنٹس کی تیزی رہی جو آئی ایم ایف معاہدے کی وجہ سے سالوں میں ایک دن کا سب سے

زیادہ اضافہ ہے اور اس توقع کا اظہار بھی ہے کہ مارکیٹ یقین رکھتی ہے کہ ملک پر سے ڈیفالٹ کا خطرہ ٹل گیا۔ تاہم چونکہ ابھی مشکلات باقی ہیں اس لئے

حکومت اور معاشی ماہرین کو پائیدار استحکام اور ترقی کیلئے انتہائی احتیاط سے کام لیتے ہوئے چوکنا رہنے ہوگا۔

اہم عوامل جو مارکیٹ کی سمت متعین کریں گے ان میں اسٹینڈ بائے معاہدے کے تحت 3 بلین امریکی ڈالر کی قرضہ کی سہولت کیلئے آئی ایم ایف کا دوسرا سہ ماہی

جائزہ اور پاکستان میں عام انتخابات کا یقینی انعقاد شامل ہے۔ اہم چیلنجز جس سے حکومت نمٹنے کیلئے کوشاں ہے، انٹر بینک اور اوپن مارکیٹ ایکس چینج ریٹ

کے درمیان تفاوت کو ختم کرنا ہے جو 7~ فیصد تک پہنچ گیا ہے جبکہ آئی ایم ایف کا یقین ہے کہ اس تفاوت کو 1.25 فیصد پر رکھنے کی ضرورت ہے۔ اس کے

علاوہ حکومت کو بڑھتے ہوئے مالی خسارے پر قابو پانے اور پرائمری سرپلس کے مطلوبہ ہدف کے حصول جس کیلئے آئی ایم ایف کے ساتھ اتفاق رائے کیا

گیا، کیلئے چند سخت اقدامات نافذ کرنے ہوں گے۔

جیسا کہ پاکستان کو حالیہ تاریخ کے بدترین معاشی بحران کا سامنا ہے اس صورتحال میں ہم یقین رکھتے ہیں کہ ایکویٹیز کی قدر میں اضافہ ہوگا۔ ہمارے مستقبل

کی پیش بینی کی بنیاد اور کیپٹل مارکیٹ کی ازسرنو درجہ بندی کا امکان پاکستان کی طرف سے آئی ایم ایف کے اسٹینڈ بائے معاہدہ کی کامیاب تکمیل پر ہے جس

کے ذریعے واضح طور پر اصلاحات اور مالی نظم و ضبط کا تسلسل حاصل ہوگا۔

اس وقت انڈکس میں حصص کی خرید و فروخت 4.54 گنا پر ہو رہی ہے جو طویل مدتی اوسط سے کافی کم ہے۔ اس وقت انڈیکس میں حصص کی خرید و فروخت 4.54 گنا پر ہو رہی ہے جو طویل مدتی اوسط سے کافی کم ہے۔ 10 فیصد کے حساب سے پرکشش ڈیویڈنڈ خٹے میں سب سے زیادہ ہے۔ جون 2023 میں آخری آرای ای آر 87.7492 ریکارڈ کیا گیا جس سے اندازا ہوتا ہے کہ کرنسی کی قدر بڑھنے کی گنجائش ہے جس سے غیر ملکی سرمایہ کاری راغب ہوگی۔ ہمیں یقین ہے کہ مارکیٹ اس وقت سرمایہ کاروں کیلئے سازگار ہے۔

MACRO PERSPECTIVE

Over the past year, Pakistan's economy went through a major economic crisis perhaps the worst since independence that led to an unprecedented increase in interest rates and inflation, recording new records in all fronts. The crisis stemmed from the start of the Russia-Ukraine war in February 2022 after which the international commodities prices sharply moved up and coupled with unsustainable global debt levels a number of developing country economies were in complete tail spin. Pakistan was no exception being a net importing country dependent for key essentials like oil, widening deficits of both the current and fiscal account was imminent as the local currency went into free fall and foreign reserves eroded. Hence, to contain the widening Current Account Deficit, the Government had to impose major import restrictions. Through the timely administrative measures adopted by the Government, Pakistan managed to circumnavigate the most difficult economic situation in the Country's history, averting a sovereign default and securing a nine-month Standby Arrangement of US\$3bn with the IMF.

The SBP has proactively focused on restricting the demand growth by adopting monetary contraction through rate increases since June 2020 (*interest rates at 7%*) while the incumbent government resorted to Fiscal tools such as increasing existing taxes along with introducing new ones. In FY23 alone, the SBP increased the interest rates by 825bps to 22%. Additionally, key conditions of the IMF Program asking for removal of subsidies led to hikes in all utility prices across the board adding inflationary pressures further and higher unemployment. However, the fruits of these politically difficult policies have already started to reflect in demand contraction with most high frequency indicators (*Cement, Auto and POL product sales*). Another important measure that the government took to compress demand was to allow the “Free Float” of the currency, which notably led to a sharp depreciation of the Pak Rupees and naturally contained imports, supported exports and home remittances.

The Current Account Surplus for the month of June 2023 clocked in at USD 334 million, from a Current Account Surplus of USD 220 million (revised) in May 2023 taking the FY23 CAD to USD 2.56 billion (-0.7% of GDP) against USD 17.48 billion (-4.7% of GDP), down -85% YoY during the same period last year primarily due to decline in imports as the Government’s initiatives to stabilize the economy were visibly bearing fruit.

The Government’s resilient efforts to attract investments from Non-Resident Pakistanis continued to yield results, with an impressive inflow of USD 6.48 billion through Roshan Digital Accounts (RDA) with more than 590,000 accounts till July 2023.

Moreover, the FBR collected revenues worth PKR 7.17 trillion during FY23 against the target of 7.64 trillion missing the target by PKR 496 billion despite the imposition of nearly PKR 800 billion additional taxes due to a steep decline in imports and an overall slowdown of the economy.

During FY23, the external account remained a major cause of concern as Pakistan’s liquid foreign exchange reserves decreased by USD 5.70 billion on the back of debt servicing primarily. As of June 30, 2023, the Country’s liquid foreign exchange reserves stood at USD 9.75 billion (*SBP reserves USD 4.46 billion*).

The new IMF program will provide a policy framework to bring power sector reforms in the country along with the SOE governance. This program will support Pakistan in obtaining additional funds from its bilateral partners which is extremely essential in a period of low FX reserves and high debt servicing. The exchange rate is likely to appreciate in the short term due to speculative activity; however, will remain under depreciative pressure till sizeable foreign inflows do not materialize.

The NCPI during the month of August 2023 clocked in at 27.38% YoY as compared to 29.40% YoY in July 2023. This took the 2MFY24 average NCPI to 27.84% compared to 26.10% during the SPLY. The main contributors to the increase in inflation are Housing, Water, Electricity, Gas, and Fuel (weight in CPI 23.63%) with an impact of 0.21% MoM / 6.25% YoY because of the increasing fuel and utility prices and exchange devaluation. Furthermore, food inflation came lower than expected which caused the decline in inflation as noticed by the Food and Non-alcoholic Beverages Index (weight in CPI 34.58%) with an impact of 0.23% MoM / 38.51% YoY.

The Large Scale Manufacturing (LSMI) sector, which accounts for about 80% of the country's industrial output, shrank for the 12th consecutive month in June, by 14.96 percent YoY, leading to contract by 10.26% in FY23 as almost all major industries reported substantial declines. Without say, the fallout of the restrictive measures undertaken by the central bank and the government to contain the current account deficit notably weighed heavily on the industry.

EQUITY MARKET REVIEW

The Equity market, despite closing in flat at 41,452.68 level, decreasing 88 points (-0.21% YoY) remained extremely volatile during the year with excitement over letter of intent from IMF, financial support from KSA, UAE and other bilateral partners, strong corporate results, appointment of the new Chief of Army Staff and the long-awaited Federal Budget FY23. The market also witnessed anxious moments with flash floods that contributed to loss of USD 30 billion, monetary tightening, unprecedented inflation and prolonged political uncertainty investors had very little to celebrate this past year.

During FY23, investor participation declined as volumes contracted by 34% YoY to 190.82 million shares from 291.47 million shares recorded during last year. Surprisingly, after five consecutive years of outflows, foreigners were net buyers in FY23 with USD 1.53 million. Foreigner's interest was majorly caught in Technology and Communication (*USD 43.30 million*) and Oil and Gas Exploration Companies (*USD 27.42 million*).

The sectors that performed during FY23 are Chemical (15.74%), Cement (8.00%), Synthetic & Rayon (40.34%), Investment Banks/Companies (8.16%), and Sugar & Allied Industries (13.00%). While the sectors that kept the bulls in check are Commercial Banks (-9.81%), Pharmaceuticals (-40.36%), Automobile Assembler (-25.67%), Tobacco (-26.18%), and Oil & Gas Exploration Companies (-6.54%). On the local front, major selling was witnessed in Mutual Funds (*USD 144.49 million*) and Insurance Companies (*USD 124.31 million*) as panic swayed away local investors to safer havens and fixed income given that interest rates are almost at record highs.

On a 10Y period, the KSE - 100 index yielded an annualized return of 7.03% (-3.68% *annualized in USD terms*). The persistent decline in the local currency against the US Dollar has kept foreign investors at bay despite extremely compelling valuations. While foreigners have been on the sell side for several years now; frontier market investors are likely to turn net buyers given the unprecedented currency adjustment and cheap valuations provided that Pakistan implement key economic and policy reforms.

We remain positive towards equities based on the premise that i) holding Cash for real value would not be possible given high inflation and currency devaluation, ii) real value over the long term can only be secured in inflation hedged assets such as Real Estate, Gold or Equity, iii) we believe that Gold has rallied significantly over the past several months and is in its consolidation phase while Real Estate being illiquid and capital intensive besides being on the government's radar for taxing, equities plausibly seems the prime candidate for a long term investment strategy. The index continues to trade at exceedingly attractive multiples with PE and PB of 4.54x and 0.6x with a healthy dividend yield of 10%.

FUTURE OUTLOOK

As we move into FY24, we believe that structural changes and reforms are necessary to turn around the current economic state addressing fiscal imbalances and external vulnerabilities with sustainable stability. While market consensus suggests foreseeably that the Central Bank has reached its monetary tightening cycle for now, both the fiscal and external accounts are likely to remain very challenging for the Government in the coming year. On the other hand, notably inflation is expected to come off sharply as the high base effect plays out, perhaps providing much needed respite in the form of a reduction in interest rates as debt servicing remains worrying.

The Government announced the Finance Bill for FY23-24 on June 9, 2023 with high expectations and in hopes to regain lost political capital amid one of the worst economic conditions on record. The Finance Minister set GDP growth expectations for FY24 at 3.5% compared to 0.29% in FY23 (*provisional*). Moreover, the Average NCPI target for FY24 is 21% and Budget Deficit and Primary Surplus targets have been set at 6.54% and 0.4% of GDP respectively. Lastly, the Ministry of Finance has targeted exports and remittances to clock at USD 30 billion and USD 33 billion, respectively.

The FBR revenue target is set at PKR 9.4 trillion in FY24. Additionally, the Federal Non-tax revenue target has been marked at PKR 2.96 trillion, 83% higher than FY23. The government is expecting total expenditures of PKR 14.48 trillion in FY24 which is 52% higher than FY23. The Federal Public Sector Development Plan seemingly optimistic is set at PKR 950 billion, 67% higher than in the same period last year. The government has set PKR 7.3 trillion for debt servicing in FY24. The expenditure on defense is at PKR 1.8 trillion in FY24, 15% higher than the last year's budget. While the external debt payment in FY24 has been budgeted at USD 22 billion, which is likely to keep the local currency in check and with its economic direction and performance.

Some of the main provisions of the Finance Bill are as follows:

- Increasing salary tax slabs on people earning PKR 200k per month and above
- Increase in maximum allowed Petroleum Development Levy (PDL) by PKR 10 to PKR 60.
- Imposition of 5% FED on Fertilizers
- Rate of tax on IT and IT enabled services was changed from 16% to 5% (without input adjustment).
- The rate of advance tax on sale/purchase of immovable property has been increased from 2% to 3%
- Advance tax on motor vehicles having engine capacity more than 2000cc has been based on value ranging from 6% to 10%
- Re-imposition of 10% final withholding tax on issuance of bonus shares by a company (20% for non-ATL).
- The amnesty provided to people bringing FX to purchase property has incidentally also been withdrawn in line with IMF requirements.

We believe that the support from IMF will help subside the default risk that the country was adamantly facing and more importantly play a major confidence boost for the financial markets. The Equity market rallied around 2,446.32 points (5.90%) on July 3, 2023 – single day highest gain in years on the back of this single event, illustrating that the markets believe that the Country has effectively averted an

imminent default. However, the ruling government and economic managers will need to be extremely vigilant and pragmatic for sustainable stability and growth as headwinds remain.

Going forward, the key factors that would drive the market direction include IMF's second quarterly review for the USD 3 billion loan facility under the SBA and clarity on the holding of general elections in Pakistan. One of the key challenges that the Government has been struggling with is to bring down the difference between the interbank and open market exchange rate which has now reached ~7% while the IMF believes the deviation needs to be maintained up to 1.25%. Moreover, the Government will also have to implement some strict measures to contain the soaring fiscal deficit and achieve the desired target of primary surplus agreed with the IMF which will bring a new wave of inflation pressures.

While Pakistan faces one of the worst economic crisis in recent history, we believe that equities as an asset class has over discounted itself. The premise of our positive outlook and re-rating of the capital market stems from the likelihood of Pakistan successfully completing the new SBA IMF program which will notably entail a continuity in reforms and fiscal discipline. The index is trading at a PE multiple of 4.54x far below the long-term averages. The dividend yield is attractive at 10% which is the highest in the region and with the last REER recorded at 87.7492 in June 2023 suggesting the currency has room to appreciate will probably justify and attract foreign investment which can also be noted by the recent month's inflows. We believe that the market currently serves as a striking point for investors.

- (iv) The Non-Banking Finance Companies (Establishment and Regulations) Rules, 2003, the Non-Banking Finance Companies and Notified Entities Regulations, 2008 and the constitutive documents of the Fund.

We would like to draw unit holders' attention towards the fact that the Fund has been non-compliant of Circular 28 of 2021 which requires the Management Company to ensure that the exposure in equity securities as mentioned in the aforesaid circular shall not exceed 10% of its equity portfolio on monthly average basis.

The above stated non-compliance has been prevailing since December, 2022 and the exposure of the Fund in equity securities as mentioned in aforesaid circular range between 14.23% to 15.99% during the period of breach.

Further, on the request of the Management Company, the Commission extended the time period for regularization of the reported non-compliance till August 05, 2023. However, the Management Company has not been able to regularize the breach to date and has applied to the Commission for further relaxation of six months. The said non-compliance has already been reported to the Commission and was also highlighted in our Trustee report for the period ended December, 2022.

INDEPENDENT AUDITOR'S REPORT

To the Unit Holders of Golden Arrow Stock Fund

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of Golden Arrow Stock Fund ("the Fund"), which comprise the statement of assets and liabilities as at 30 June 2023 and the related income statement, statement of comprehensive income, statement of movement in unit holders' fund and cash flow statement for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of the Fund as at 30 June 2023 and of its financial performance, and its cash flows for the year then ended in accordance with the approved accounting and reporting standards as applicable in Pakistan.

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs) as applicable in Pakistan. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Fund in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants as adopted by the Institute of Chartered Accountants of Pakistan (the Code) together with the ethical requirements that are relevant to our audit of the financial statements in Pakistan, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matter

Key audit matter is the matter that, in our professional judgment, was of most significance in our audit of the financial statements of the current period. This matter was addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on this matter.

Following is the key audit matter:

	Key audit matter	How the matter was addressed in our audit
1)	Existence and valuation of investments:	
	Investment portfolio of the Fund makes up 87.05% of total assets and of the Fund. Investment portfolio of the Fund comprises of listed equity classified at fair value through profit or loss. For further information, refer to the following: - Investments note 6 to the financial statements.	Our audit procedures included the following, but were not limited to: i) walked through the valuation processes and understood the systems and controls implemented; ii) evaluated the Fund's investment valuation

Riaz Ahmad & Company

Chartered Accountants

	We have identified the existence, ownership and valuation of the Fund's investments as a key audit matter as the investment is a significant driver of the net assets value of the Fund and of its total return.	policies with reference to the requirements of the applicable accounting and reporting standards; iii) agreed holding of all investments from the Account Balance Report of Central Depository Company of Pakistan Limited; iv) agreed the valuation of all listed equity securities from prices quoted on the Pakistan Stock Exchange Limited; v) performed verification procedures on purchased and sales on a sample of trades made during the year regarding movement of the securities; and vi) any difference identified during the testing that were over acceptable threshold were investigated further.

Information Other than the Financial Statements and Auditor's Report Thereon

Management is responsible for the other information. The other information comprises the information included in the annual report, but does not include the financial statements of the Fund and our auditor's report thereon.

Our opinion on the financial statements of the Fund does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements of the Fund, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements of the Fund for our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management Company is responsible for the preparation and fair presentation of the financial statements in accordance with the accounting and reporting standards as applicable in Pakistan and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Riaz Ahmad & Company

Chartered Accountants

In preparing the financial statements, Management Company is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the management either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

Those charged with governance of the Management Company are responsible for overseeing the Fund's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs as applicable in Pakistan, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Management Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Management Company.
- Conclude on the appropriateness of Management Company's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Fund to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance of Management Company regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance of Management Company with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance of the Management Company, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

In our opinion, the financial statements have been prepared, in all material respect, in accordance with the relevant provisions of the Non-Banking Finance Companies (Establishment and Regulation) Rules, 2003 and Non-Banking Finance Companies and Notified Entities Regulations, 2008.

The engagement partner on the audit resulting in this independent auditor's report is Junaid Ashraf.

**GOLDEN ARROW STOCK FUND
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED 30 JUNE 2023**

1. LEGAL STATUS AND NATURE OF BUSINESS

- 1.1** Golden Arrow Stock Fund (the Fund) was constituted by virtue of a scheme of arrangement for conversion of Golden Arrow Selected Stocks Fund Limited (GASSF), a Closed End Fund into an Open End Scheme under a Trust Deed executed between AKD Investment Management Limited (AKDIML), as Management Company and Central Depository Company of Pakistan Limited (CDC) as Trustee. The Trust Deed was executed on 26 June 2019 after being approved by the Securities and Exchange of Pakistan (SECP) on 03 April 2019 in accordance with the provisions of the Non-Banking Finance Companies and Notified Entities Regulations, 2008 (the NBFC Regulations).
- 1.2** As per the scheme of arrangement for conversion of closed end fund into an open end scheme, a swap ratio of 1:1 i.e. for each fully paid-up share of the par value of Rs. 5 of GASSF, each share holder whose name was entered in the Register of Members of GASSF on the effective date was issued one unit of the Open End Scheme of the par value of Rs 5 with no Front-end Load and upon issuance of the Units of the Open End Scheme, the shares of GASSF were deemed to be cancelled and of no effect was approved by the share holders of GASSF vide their Special Resolution dated 9 January 2018. Golden Arrow Selected Stocks Fund Limited had applied to SECP for extension in the conversion and the SECP vide its letter No. SCD/AMC/GASSFL/87/2019 dated 30 September 2019 had granted extension till 01 December 2019. Consequently, the Fund had converted from closed end to open end with effective from 25 November 2019 and all assets and liabilities were transferred from Golden Arrow Selected Stocks Fund Limited to Golden Arrow Stock Fund. The effective date of conversion is 25 November 2019.
- 1.3** The Management Company of the Fund has been registered as a Non-Banking Finance Company (NBFC) under the NBFC Rules, 2003 and has obtained the requisite license from the SECP to undertake Asset Management Services. The registered office of the Management Company is situated at 216-217, Continental Trade Centre, Block-8, Clifton, Karachi, in the province of Sindh.
- 1.4** The objective of the Fund is to provide higher risk adjusted returns to the investors by investing in diversified portfolio of equity instruments offering capital gains and dividends and income from savings accounts. The investment objectives and policies are explained in the Fund's offering document.
- 1.5** The Fund is an open-ended mutual fund and offers units for public subscription on a continuous basis. The units are transferable and can also be redeemed by surrendering to the Fund. The Fund is listed on the Pakistan Stock Exchange Limited as on 17 March 2020. The Fund is categorized as Equity Scheme as per circular 7 of 2009 by SECP.
- 1.6** The Pakistan Credit Rating Agency Limited (PACRA) has maintained Asset Manager Rating of 'AM3++' to the Management Company dated 27 June 2023. PACRA has also assigned long term / short term performance ranking of "5-Star / 4-Star" to the Fund on 13 February 2023.
- 1.7** The Fund is registered on 23 August 2021 with Assistant Director of Industries and Commerce (Trust Wing) Government of Sindh under section 12 of the Sindh Trust Act, 2020.
- 1.8** The title to the assets of the Fund are held in the name of the CDC as Trustee of the Fund.

2. BASIS OF PREPARATION

2.1 Statement of compliance

- 2.1.1** These financial statements have been prepared in accordance with the accounting and reporting standards as applicable in Pakistan. The accounting and reporting standards applicable in Pakistan comprise of:
- International Financial Reporting Standards (IFRS) issued by the International Accounting Standards Board (IASB) as notified under the Companies Act, 2017;
 - Provisions of and directives issued under the Companies Act, 2017; and
 - Non-Banking Finance Companies (Establishment and Regulations) Rules, 2003 (The NBFC Rules), Non-Banking Finance Companies and Notified Entities Regulations, 2008 (The NBFC Regulations) and the requirements of the Trust Deed.

Where provisions of and directives issued under the Companies Act, 2017, the NBFC Rules, the NBFC Regulations and requirements of the Trust Deed differ from the IFRS, the provisions of and directives issued under the Companies Act, 2017, part VIIIA of the repealed Companies Ordinance 1984, the NBFC Rules, the NBFC Regulation and requirements of the Trust Deed have been followed.

- 2.1.2** The SECP through its letter no. SCD/AMCW/RS/MUFAP/2017-148 dated 21 November 2017 has deferred the applicability of the impairment requirements of IFRS 9 for debt securities on mutual funds. Currently, the Asset Management Companies are required to continue to follow the requirements of Circular 33 of 2012 for impairment of debt securities.

2.2 Accounting Convention

These financial statements have been prepared under the historical cost convention, except the investments which are measured at fair value.

2.3 Functional and presentation currency

These financial statements have been presented in Pakistani Rupees, which is the Fund's functional and presentation currency. The amounts are rounded off to the nearest thousand rupees except stated otherwise.

2.4. Critical accounting estimates and judgments

The preparation of the financial statements in conformity with the accounting and reporting standards as applicable in Pakistan requires the management to make estimates, judgments and assumptions that affect the application of policies and reported amount of assets, liabilities, income and expenses. It also requires the management to exercise judgment in application of its accounting policies. The estimates, judgments and associated assumptions are based on the historical experience and various other factors including expectations of future events that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgments about the carrying values of assets and liabilities that are not readily apparent from other sources. The estimates and underlying assumptions are reviewed on an ongoing basis. Actual results may differ from these estimates. Revisions to accounting estimates are recognised in the year in which the estimates are revised if the revision affects only that year, or in the year of revision and future years if the revision affects both current and future years.

The areas involving a higher degree of judgment or complexity, or areas where estimates and assumptions are significant to the financial statements as a whole are as follows:

- (i) Classification and valuation of financial assets (Note 4.1.1 and 6);
- (ii) Impairment of financial assets (Note 4.1.5); and
- (iii) Taxation (Note 4.4 and 15)

3. AMENDMENTS TO ACCOUNTING STANDARDS

3.1 Amendments to accounting standards that are effective for the year ended 30 June 2023

Following amendments to published approved accounting standards are mandatory for the Fund's accounting periods beginning on or after 01 July 2022:

- Amendments to IAS 16 'Property, Plant and Equipment' - Proceeds before Intended Use'.
- Amendments to IAS 37 'Provisions, Contingent Liabilities and Contingent Assets' - Onerous Contracts – Cost of Fulfilling a Contract amends IAS 1 'Presentation of Financial Statements'.
- Annual improvements to IFRS standards 2018-2020 which amended IFRS 9 'Financial Instruments' and IFRS 16 'Leases'.
- Reference to the Conceptual Framework (Amendments to IFRS 3)' published by the International Accounting Standards Board (IASB) with amendments to IFRS 3 'Business Combinations'.

The above-mentioned amendments to approved accounting standards did not have any impact on the amounts recognised in prior years and are not expected to significantly affect the current or future years.

3.2 Amendments to published approved accounting standards that are effective in current year but not relevant to the Fund

There are amendments to published standards that are mandatory for accounting years beginning on or after 01 July 2022 but are considered not to be relevant or do not have any significant impact on the Fund's financial statements and are therefore not detailed in these financial statements.

3.3 Amendments to published approved accounting standards that are not yet effective but relevant to the Fund

Following amendments to existing standards have been published and are mandatory for the Fund's accounting years beginning on or after 01 July 2023 or later periods:

Classification of liabilities as current or non-current (Amendments to IAS 1 'Presentation of Financial Statements') effective for the annual period beginning on or after 01 January 2023. These amendments in the standards have been added to further clarify when a liability is classified as current. The standard also amends the aspect of classification of liability as non-current by requiring the assessment of the entity's right at the end of the reporting period to defer the settlement of liability for at least twelve months after the reporting period. An entity shall apply those amendments retrospectively in accordance with IAS 8 'Accounting Policies, Changes in Accounting Estimates and Errors'.

Disclosure of Accounting Policies (Amendments to IAS 1 'Presentation of Financial Statements' and IFRS Practice Statement 2 'Making Materiality Judgement') effective for annual periods beginning on or after 01 January 2023. These amendments are intended to help preparers in deciding which accounting policies to disclose in their financial statements. Earlier, IAS 1 states that an entity shall disclose its 'significant accounting policies' in their financial statements. These amendments shall assist the entities to disclose their 'material accounting policies' in their financial statements.

Deferred Tax related to Assets and Liabilities arising from a Single Transaction (Amendments to IAS 12 'Income taxes') effective for annual periods beginning on or after 01 January 2023. These amendments clarify how Funds account for deferred tax on transactions such as leases and decommissioning obligations.

Change in definition of Accounting Estimate (Amendments to IAS 8 'Accounting Policies, Changes in Accounting Estimates and Errors') effective for annual periods beginning on or after 1 January 2023. This change replaced the definition of Accounting Estimate with a new definition, intended to help entities to distinguish between accounting policies and accounting estimates.

On 31 October 2022, the IASB issued 'Non-current Liabilities with Covenants (Amendments to IAS 1)' to clarify how conditions with which an entity must comply within twelve months after the reporting period affect the classification of a liability. The amendments are effective for reporting periods beginning on or after 1 January 2024.

On 22 September 2022, the IASB issued 'Lease Liability in a Sale and Leaseback (Amendments to IFRS 16)' with amendments that clarify how a seller-lessee subsequently measures sale and leaseback transactions that satisfy the requirements in IFRS 15 to be accounted for as a sale. The amendments are effective for annual periods beginning on or after 1 January 2024.

On 25 May 2023, the IASB issued 'Suppliers Finance Arrangements (Amendments to IAS 7 and IFRS 7)' to add disclosure requirements, and 'signposts' within existing disclosure requirements, that ask entities to provide qualitative and quantitative information about supplier finance arrangement. The amendments are effective for reporting period beginning on or after 1 January 2024.

The above amendments and improvements are likely to have no significant impact on the financial statements.

3.4 Standards and amendments to approved published standards that are not yet effective and not considered relevant to the Fund

There are other standards and amendments to published standards that are mandatory for accounting periods beginning on or after 01 July 2023 but are considered not to be relevant or do not have any significant impact on the Fund's financial statements and are therefore not detailed in these financial statements.

4. SIGNIFICANT ACCOUNTING POLICIES

The significant accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all years presented, unless otherwise stated:

4.1 Financial instruments

4.1.1 Classification of financial assets

IFRS 9 contains three principal classification categories for financial assets:

- Amortised cost ("AC"),
- Fair value through other comprehensive income ("FVOCI"); and
- Fair value through profit or loss ("FVTPL").

However, IFRS 9 also provides an option whereby securities managed as a portfolio or group of assets and whose performance is measured on a fair value basis, to be recognized at FVTPL. The Fund is primarily focused on fair value information and uses that information to assess the assets' performance and to make decisions. Therefore the management considers its investment in long term debt securities as classified them as FVTPL.

Financial assets at amortised cost

A financial asset is measured at amortised cost if it meets both of the following conditions and is not designated as FVTPL:

- the asset is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Financial assets at FVOCI

A financial asset is measured at FVOCI only if it meets both of the following conditions and is not designated as FVTPL:

- the asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets; and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

On initial recognition, for an equity investment that is not held for trading, the Fund may irrevocably elect to present subsequent changes in fair value in other comprehensive income (OCI), only dividend income is recognised in income statement. This election is made on an investment-by-investment basis.

Financial assets at FVTPL

All other financial assets are classified at FVTPL (for example: equity held for trading and debt securities not classified either as AC or FVOCI).

In addition, on initial recognition, the Fund may irrevocably designate a financial asset that otherwise meets the requirements to measure at amortised cost or at FVOCI as at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

4.1.2 Recognition and initial measurement of financial instruments

Financial assets and financial liabilities are recognised in the Fund's statement of assets and liabilities when the Fund becomes a party to the contractual provisions of the instrument. Financial assets and financial liabilities are initially measured at fair value. Transaction costs that are directly attributable to the acquisition or issue of financial assets and financial liabilities (other than financial assets and financial liabilities at fair value through profit or loss) are added to or deducted from the fair value of the financial assets or financial liabilities, as appropriate, on initial recognition. Transaction costs directly attributable to the acquisition of financial assets or financial liabilities at fair value through profit or loss are recognised immediately in the income statement.

4.1.3 Subsequent measurement of financial assets

Financial assets at amortised cost

Financial assets at amortised cost are subsequently measured at amortised cost. Amortised cost is calculated using the effective interest rate method. The effective interest rate is the rate that exactly discounts estimated future cash receipts through the expected life of the financial instrument to the net carrying amount of the financial asset.

Financial assets at FVOCI

All financial assets at FVOCI are subsequently measured at fair value with gains and losses arising due to changes in fair value recognised in other comprehensive income.

For debt instruments classified as financial assets at FVOCI, the amounts already recognised in other comprehensive income are reclassified to income statement on derecognition of financial assets. This treatment is in contrast to equity instruments classified as financial assets at FVOCI, where there is no reclassification on derecognition.

Financial assets at FVTPL

All financial assets designated at fair value through profit or loss are subsequently carried at fair value, with gains and losses arising from changes in fair value recorded in the income statement.

4.1.4 Fair value measurement principles and provision

The fair value of financial instruments is determined as follows:

Basis of valuation

- The fair value of shares of listed companies is based on their prices quoted on the Pakistan Stock Exchange Limited at the reporting date without any deduction for estimated future selling costs.

4.1.5 Impairment

Under expected credit loss (ECL) model of IFRS 9, the Fund recognises loss allowances on financial assets other than debt securities. The Fund measures loss allowances at an amount equal to lifetime ECL, except for the following, which are measured at 12-month ECL:

- Financial assets that are determined to have low credit risk at the reporting date; and
- Other financial assets for which credit risk (i.e. the risk of default occurring over the expected life of the asset) has not increased significantly since initial recognition.

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating ECL, the Fund considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Fund's historical experience and informed credit assessment and including forward-looking information.

As disclosed in note 2.1.2 of these financial statements, the Fund follows requirements of circular 33 of 2012 (the circular) for impairment of debt securities. Under the circular, provision for non performing debt securities is made on the basis of time based criteria as prescribed under the circular. Impairment loss recognised on debt securities can be reversed through the income statement.

As allowed under circular no. 33 of 2012 dated 24 October 2012 issued by the SECP, the Management Company may also make provision against debt securities over and above minimum provision requirement prescribed in aforesaid circular, in accordance with the provisioning policy approved by the Board of Directors and disseminated by the Management Company on its website.

4.1.6 Classification and measurement of financial liabilities

All financial liabilities are measured subsequently at amortised cost using the effective interest method or at FVTPL. The effective interest method is a method of calculating the amortised cost of a financial liability and of allocating interest expense over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash payments (including all fees paid or received that form an integral part of the effective interest rate, transaction costs and other premiums or discounts) through the expected life of the financial liability, or (where appropriate) a shorter period, to the amortised cost of a financial liability.

4.1.7 Derecognition

Financial assets are derecognised when the rights to receive cash flows from the financial assets have expired or where the entity has transferred substantially all risks and rewards of ownership.

A financial liability is derecognised when the obligation specified in the contract is discharged, cancelled or expired.

4.1.8 Regular way contracts

All purchases and sales of securities that require delivery within the time frame established by regulation or market convention are recognised at the trade date. Trade date is the date on which the Fund commits to purchase or sell assets.

4.1.9 Offsetting of financial assets and liabilities

Financial assets and financial liabilities are offset and the net amount is reported in the statement of assets and liabilities when there is a legally enforceable right to set off the recognised amounts and there is an intention to settle on a net basis, or to realise the assets and settle the liabilities simultaneously.

4.2 Cash and cash equivalents

Cash and cash equivalents comprise of bank balances and short term highly liquid investments with original maturity of three months or less, are readily convertible to known amounts of cash, are subject to an insignificant risk of changes in value, and are held for the purpose of meeting short term cash commitments rather than for investments and other purposes.

4.3 Provisions

Provisions are recognised when the Fund has a present, legal or constructive obligation as a result of past events, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate of the amount of obligation can be made. Provisions are regularly reviewed and adjusted to reflect the current best estimate.

4.4 Taxation

The income of the Fund is exempt from income tax under clause 99 of Part I of the Second Schedule to the Income Tax Ordinance, 2001 subject to the condition that not less than 90% of its accounting income for the year, as reduced by capital gains, whether realised or unrealised, is distributed in cash to the unit holders.

The Fund is also exempt from the provisions of Section 113 (Minimum Tax) under clause 11A of Part IV of the Second Schedule to the Income Tax Ordinance, 2001.

The Fund does not account for deferred tax in these financial statements as the Fund intends to continue availing the tax exemption in future years by distributing in cash at least 90% of its accounting income for the year as reduced by capital gains, whether realised or unrealised, to its unit holders.

4.5 Dividend distribution and appropriations to unit holders'

Dividend distributions and appropriations are recorded in the period in which these are approved by the Board of Directors of the Management Company. Based on the Mutual Funds Association of Pakistan's (MUFAP) guidelines (duly consented by the SECP) distribution for the year is deemed to comprise of the portion of income already paid on units redeemed during the year and cash distribution for the year.

Regulation 63 of the NBFC Regulations requires the Fund to distribute 90% of the net accounting income other than capital gains to the unit holders.

Distributions declared subsequent to the year end or reporting date are considered as non-adjusting events and are recognised in the financial statements of the year in which such distributions are declared and approved by the Board of Directors of the Management Company.

4.6 Issue and redemption of units

Units issued are recorded at the offer price, determined by the Management Company for the applications received by the distributors during business hours on that date. The offer price represents the net asset value per unit as of the close of the business day plus the allowable sales load and any provision for duties and charges, if applicable. The sales load is payable to investment facilitators, distributors and the Management Company.

Units redeemed are recorded at the redemption price, applicable to units for which the distributors receive redemption applications during business hours of that day. The redemption price represents the net asset value per unit as of the close of the business day less any back-end load, any duties, taxes, and charges on redemption, if applicable.

4.7 Element of income / (loss) and capital gains / (losses) included in prices of units issued less those in units redeemed

Element of income represents the difference between net assets value per unit on the issuance or redemption date, as the case may be, of units and the net assets value per unit at the beginning of the relevant accounting period. Further, the element of income is a transaction of capital nature element of income is a transaction of capital nature and the receipt and payment of element of income is taken to unit holder's fund. However, to maintain the same ex-dividend net assets value of all units outstanding on the accounting date, net element of income contributed on issue lying in unit holders fund is refunded on units in the same proportion as dividends bears to accounting income available for distribution.

4.8 Net assets value per unit

The net assets value (NAV) per unit as disclosed in the statement of assets and liabilities is calculated by dividing the net asset of the Fund by the number of units in issue at the year end.

4.9 Revenue recognition

- Capital gain or loss on sale of investment is accounted for in the income statement on the date at which the sale transaction takes place.
- Unrealised gain / loss arising on measurement of investments classified as 'fair value through profit or loss' is included in the income statement in the year in which it arises.
- Dividend income from equity securities is recognised when the right to receive dividend is established.
- Profit on bank deposits is recognised on time proportionate basis using effective yield method.

4.10 Expenses

All expenses including NAV based expenses (namely management fee, trustee fee, annual fee payable to the SECP, and selling and marketing expense) are recognised in the income statement on an accrual basis.

8.1 As per Regulation 61 of the NBFC Regulations, 2008, the Management Company is entitled to a remuneration equal to an amount not exceeding the maximum rate of management fee as disclosed in the Offering Document subject to the total expense ratio limit. Keeping in view the maximum allowable threshold, the Management Company has charged its remuneration at the rate of 2% (2022: 2%) per annum of the average annual net assets of the Fund during the year ended 30 June 2023. The remuneration is payable to the Management Company monthly in arrears.

8.2 Sindh Sales Tax at the rate of 13% (2022: 13%) on gross value of management fee under the provisions of Sindh Sales Tax on Services Act, 2011.

8.3 In accordance with Regulation 60 of the NBFC Regulations, the Management Company is entitled to charge fees and expenses for registrar services, accounting, operation and valuation services, related to a Collective Investment Scheme (CIS).

The Management Company has charged expenses at the rate of 0.5% in 1st quarter & 0.6% in 2nd, 3rd and 4th quarter (2022: 0.45%) per annum of the average annual net assets of the Fund.

8.4 Federal Excise Duty payable amounting to Rupees 16.592 million has been transferred from Golden Arrow Selected Stock Fund to Golden Arrow Stock Fund on the effective date of conversion (25 November 2019).

The Finance Act, 2013 enlarged the scope of Federal Excise Duty (FED) on financial services to include Asset Management Companies (AMCs) as a result of which FED at the rate of 16 percent on the remuneration of the Management Company and sales load was applicable with effect from 13 June 2013. The Management Company was of the view that since the remuneration was already subject to provincial sales tax, further levy of FED would result in double taxation which did not appear to be the spirit of the law. Hence, on 4 September 2013 a constitutional petition was filed with the Sindh High Court (SHC) by the Management Company together with various other asset management companies challenging the levy of FED.

With effect from 1 July 2016, FED on services provided or rendered by non-banking financial institutions dealing in services which are subject to provincial sales tax has been withdrawn by the Finance Act, 2016.

During the year ended 30 June 2017, the SHC passed an order whereby all notices, proceedings taken or pending, orders made, duty recovered or actions taken under the Federal Excise Act, 2005 in respect of the rendering or providing of services (to the extent as challenged in any relevant petition) were set aside. In response to this, the Deputy Commissioner Inland Revenue has filed a Civil Petition for leave to appeal in the Supreme Court of Pakistan which is pending adjudication.

In view of the above, the Fund has discontinued making further provision in respect of FED on remuneration of the Management Company with effect from 1 July 2016. However, as a matter of abundant caution the provision for FED made for the period from 13 June 2013 till 30 June 2016 amounting to Rs. 16.592 million is being retained in the financial statements of the Fund as the matter is pending before the Supreme Court of Pakistan. Had the provisions not been made, the NAV per unit of the Fund as at 30 June 2023 would have been higher by Rs. 0.1545 (2022: 0.1233) per unit.

15. TAXATION

The income of the Fund is exempt from income tax under Clause 99 of Part 1 of the Second Schedule to the Income Tax Ordinance, 2001, subject to the condition that not less than 90 percent of the accounting income for the year, as reduced by capital gains, whether realized or unrealized, is distributed amongst the unit holders in cash. However, there is no income of the fund if reduced by capital gain, therefore there is no distribution for the year ended. Accordingly, no provision for current tax has been made in these financial statements. The Fund is also exempt from the provision of section 113 (minimum tax) under clause 11A of Part IV of the Second Schedule to the Income Tax Ordinance, 2001.

16. EARNINGS PER UNIT

Earnings per unit is calculated by dividing the net income for the year after taxation of the Fund by the weighted average number of units outstanding during the year.

Earnings per unit (EPU) has not been disclosed as, in the opinion of the management, the determination of cumulative weighted average number of outstanding units for calculating EPU is not practicable.

17. TOTAL EXPENSE RATIO

The total expense ratio of the Fund is 3.27% (2022: 3.24%), which includes 0.32% (2022: 0.33%) representing Government levies and SECP fee. This ratio is within limit of 4.5% (2022: 4.5%) at daily average net assets of Fund, prescribed under NBFC Regulations of collective investment scheme categorised as a "Equity Scheme".

20. FINANCIAL RISK MANAGEMENT

The Fund's overall risk management programme focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the Fund's financial performance.

The Fund's activities expose it to a variety of financial risks: market risk (including currency risk, profit rate and other price risk), credit risk and liquidity risk. Risks of the Fund are being managed by the Management Company in accordance with the approved policies of the Investment Committee which provides broad guidelines for management of above mentioned risks. The Board of Directors of Management Company has overall responsibility for the establishment and oversight of the Fund's risk management framework.

The Fund's financial assets primarily comprise of balances with banks and investment in equity securities classified at 'fair value through profit or loss', profit receivable on bank deposit and deposits. The Fund's principal financial liabilities include remuneration payable to the Management Company, the Trustee, unclaimed dividend and payable against purchase of securities.

Market risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of the changes in market prices.

The Management Company manages market risk by monitoring exposure in marketable securities by following the internal risk management policies and investment guidelines approved by the Investment Committee of the Fund and the regulations laid down by the Securities and Exchange Commission of Pakistan.

Market risk comprises three types of risk: currency risk, interest rate risk and price risk.

Currency risk

Currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate as a result of changes in foreign exchange rates. At present, the Fund is not exposed to currency risk as all the transactions are carried out in Pakistani Rupees.

Yield / interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate as a result of changes in market interest rates. As of 30 June 2023, the Fund is exposed to fair value interest rate risk on its bank balances.

a) Sensitivity analysis for variable rate instruments

At the reporting date the Fund has balances in savings accounts on which interest rate is 19.5% that could expose the Fund to cash flow interest rate risk. The net income in the income statement and statement of comprehensive income would have increased / (decreased) by Rs. 0.54 million (2022: Rs. 0.56 million) and consequently statement of movement in unit holder's fund would be affected by the same amount, had the interest rates on saving accounts with the bank increased/(decreased) by 100 basis points. The analysis assumes that all other variables remain constant.

b) Sensitivity analysis for fixed rate instruments

At the reporting date, the Fund does not hold any fixed rate instruments that could expose the Fund to fair value interest rate risk.

Exposure to interest rate risk and maturity

Interest rate sensitivity position for on balance sheet financial instruments is based on the earlier of contractual repricing or maturity date and for off-balance sheet instruments is based on the settlement date.

Price risk

Other price risk is the risk that the fair value of the financial instrument will fluctuate as a result of changes in market prices (other than those arising from interest rate risk or currency risk), whether caused by factor specific to an individual investment, its issuer or factors affecting all instruments traded in the market.

The Fund has exposure to equity price risk arising from its investments in equity securities. The Fund manages its price risk arising from investment in the equity securities by diversifying its portfolio within the eligible limits prescribed in the Fund's Constitutive Documents, the NBFC Regulations and circulars issued by SECP from time to time. The Fund's equity investments are concentrated in the sectors given in note 6.1

At 30 June 2023, the fair value of equity securities exposed to price risk is disclosed in note 6.1

The sensitivity of the loss for the year and the unit holders' fund to an increase or decrease of 5% in the fair values of the Fund's equity securities is disclosed below. This level of change is considered to be reasonably possible based on observation of current market conditions. The sensitivity analysis is based on the Fund's equity securities at each reporting date, with all other variables held constant.

Credit risk

Credit risk represents the risk of a loss if the counterparties fail to perform as contracted. The Fund's credit risk mainly arises from deposits with banks and financial institutions and credit risk exposure arising as a result of profit receivable on bank deposits and deposits with financial institutions.

Management of credit risk

For banks and financial institutions, the Fund keeps deposits with reputed financial institutions with reasonably high credit ratings. All transactions in listed securities are settled / paid for upon delivery using the system of National Clearing Company of Pakistan Limited. The risk of default in these transactions is considered minimal due to inherent systematic measures taken therein. The Fund's policy is to enter into financial contracts in accordance with the investment guidelines approved by the Investment Committee, its Trust Deed and the requirements of the NBFC Rules and the regulations and the guidelines given by the SECP from time to time.

The maximum exposure to credit risk before considering any collateral as at 30 June 2023 is the carrying amount of the financial assets. None of these assets are 'impaired' nor 'past due but not impaired'.

The maximum exposure to credit risk before any credit enhancement as at 30 June 2023 is the carrying amount of the financial assets.

The analysis below summaries the credit rating quality of the fund's financial assets with banks as at 30 June 2023:

Bank balances by rating category	Rating Agency	2023		2022	
		Rupees in '000	%	Rupees in '000	%
AA+ / A1+ - HMBL	PACRA	54,234	99.73%	55,718	99.87%

		<u>54,378</u>	<u>100%</u>	<u>55,791</u>	<u>100%</u>
Profit receivable on bank deposits					
AA+/A1+ - HMBL	PACRA	<u>964</u>	<u>100%</u>	<u>643</u>	<u>100%</u>

Above rating is on the basis of available ratings assigned by PACRA as of 30 June 2023.

Balances with bank is assessed to have low credit risk of default since the bank is highly regulated by the State Bank of Pakistan. Accordingly, management of the fund estimates that loss allowance on balance with bank at the end of the reporting period at an amount equal to 12 month Expected Credit Loss (ECL). None of the balance with bank at the end of the reporting period is past due, and taking into account the historical default experience and the current credit ratings of the bank, the management of the fund have assessed that there is no impairment, and hence have not recorded any loss allowance on this balance.

Concentration of credit risk

Concentration of credit risk exists when changes in economic or industry factors similarly affect groups of counterparties whose aggregate credit exposure is significant in relation to the Fund's total credit exposure. The Fund's portfolio of financial instruments is mainly concentrated in equity securities which are diversified and relate to various sectors. The Fund's portfolio of other financial assets is broadly diversified and transactions are entered into with diverse credit worthy counterparties thereby mitigating any significant concentration of credit risk.

Settlement risk

The fund's activities may give rise to risk at the time of settlement of transactions. Settlement risk is the risk of loss due to the failure of an entity to honor its obligations to deliver cash, securities or other assets as contractually agreed.

For the vast majority of transactions the fund mitigates this risk by conducting settlements through a broker to ensure that a trade is settled only when both parties have fulfilled their contractual settlement obligations.

Liquidity risk

Liquidity risk is the risk that the Fund will encounter difficulty in meeting obligations arising from its financial liabilities that are settled by delivering cash or another financial asset or such obligations will have to be settled in a manner disadvantageous to the Fund.

The Fund is exposed to daily settlement of equity securities and daily cash redemptions, if any, at the option of unit holders. The Fund's approach to managing liquidity is to ensure, as far as possible, that the Fund will always have sufficient liquidity to meet its liabilities when due under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Fund's reputation. Its policy is therefore to invest the majority of its assets in investments that are traded in an active market and can be readily disposed and are considered readily realisable in order to manage the Fund's overall liquidity, the Fund also has the ability to withhold daily redemption requests in excess of 10% of the units in issue and such requests would be treated as redemption requests qualifying for being processed on the next business day. Such procedure would continue until the outstanding redemption requests come down to a level below ten percent of the units then in issue. The Fund did not withhold any redemptions during the current year.

The table below analyses the Fund's financial liabilities into relevant maturity groupings based on the remaining period at the reporting date to the contractual maturity date. The amounts in the table are the contractual undiscounted cash flows.

21. UNIT HOLDERS' FUND (UHF) RISK MANAGEMENT

The unit holders' fund is represented by the net assets attributable to unit holders / redeemable units. The amount of net assets attributable to unit holders can change significantly on a daily basis as the Fund is subject to daily issuance and redemptions at the discretion of unit holders. These unit holders of the Fund are entitled to distributions and to payment of a proportionate share based on the Fund's net asset value per unit on the redemption date. The relevant movements are shown on the statement of movement in unit holders' fund.

The Fund's objective when managing unit holders' fund is to safeguard the Fund's ability to continue as a going concern in order to provide returns for the benefits of the unit holders to maintain a strong base of assets to support the development of the investment activities of the Fund and to meet unexpected losses or opportunities. As required under the NBFC Regulations, every open end scheme shall maintain minimum fund size (i.e. net assets of the Fund) of Rs. 100 million at all times during the life of scheme. In order to comply with the requirement and to maintain or adjust the Unit Holders' Fund, the Fund's policy is to perform the following:

- Monitor the level of daily issuance and redemptions relative to the liquid assets and adjust the amount of distributions the Fund pays to the unit holders;
- Redeem and issue units in accordance with the constitutive documents of the Fund. This includes the Fund's ability to restrict redemptions; and
- The Fund Manager / Investment Committee members and the Chief Executive Officer of the Management Company critically track the movement of 'Assets under Management'. The Board of Directors of the Management Company is updated regarding key performance indicators, e.g., yield and movement of NAV and total Fund size at the end of each quarter.

The Fund has maintained and complied with the requirements of minimum fund size during the current year.

22. FAIR VALUE OF FINANCIAL INSTRUMENTS

IFRS 13 - 'Fair Value Measurement' establishes a single source of guidance under IFRS for all fair value measurements and disclosures about fair value measurement where such measurements are required as permitted by other IFRSs. It defines fair value as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date (i.e. an exit price).

Financial assets which are tradable in an open market are revalued at the market prices prevailing on the close of trading i.e. year end date. The estimated fair value of all other financial assets and financial liabilities is considered not significantly different from book value as these are short term in nature.

The following table shows financial instruments recognised at fair value based on:

Level 1:	Quoted prices in active markets for identical assets or liabilities;
Level 2:	Those involving inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (as prices) or indirectly (derived from prices); and
Level 3:	Those with inputs for the asset or liability that are not based on observable market data (unobservable inputs).
